February 1, 2024

RE: PVTA Title VI monitoring of Pioneer Valley Planning Commission (Subrecipient of 5307 funding)

Sandra Sheehan, Administrator
Pioneer Valley Transit Authority
2808 Main St. Springfield, MA 01107

Dear Ms. Sheehan:

The Pioneer Valley Planning Commission is providing this updated report on the Title VI activities as a subrecipient of PVTA receiving transportation related federal financial assistance through 5307. FTA reviewed PVTA’s Title VI program as part of the FY2022 Triennial Review and provided written guidance on January 19, 2024, that identified deficiencies related to subrecipient monitoring. Specifically, the deficiencies related to the subrecipient monitoring (addressed and corrected in this update) include the following:

“Outstanding Requirement: PVTA’s updated Subrecipient Monitoring Checklist did not include confirmation the subrecipient’s program addressed minority representation on non-elected advisory boards or that the subrecipient’s governing board approved its Title VI program. PVTA must update its Subrecipient Monitoring Checklist to include these items.”

As an advisory comment, FTA noted; “the current Title VI Notice to Beneficiaries for PVTA’s subrecipient, Pioneer Valley Planning Commission (PVPC), could not be located on its website.”

The attached documentation addresses these deficiencies. The updates and revisions provided by PVPC include documentation of results from a survey on the racial composition of board and committee members, and a copy of the meeting minutes from the governing body noting a motion to accept the Title VI program. The website for the Title VI Notice has been updated and the search engine has been optimized to direct the public to the current Notice.

This Title VI report includes the following:

1. Preparation of a Title VI Program.
3. Notification to the public of its rights under Title V (and locations where the notice is posted)
4. Implementation of complaint procedures as described in its Title VI Program (including complaint form, procedures, and language translations.
5. Implementation of a Public Participation Plan from its Title VI Program (including a summary of outreach efforts).
6. A table depicting the membership of non-elected committees and councils broken down by race.
7. A copy of board meeting minutes documenting that the governing body approved the Title VI Program.

This report responds to the Pioneer Valley Regional Transit Authority’s Title VI reporting requirements. As a subrecipient of Federal Transit Administration (FTA) through PVTA, PVPC is required to comply with civil rights guidance for MPOs including FTA’s triennial reporting requirements under Title VI of the Civil Rights Act of 1964.

Title VI of the Civil Rights Act of 1964 states that “no persons in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving federal financial assistance.” FTA and FHWA require that recipients of their financial assistance periodically submit documentation that demonstrates compliance with their Title VI requirements. This report documents compliance, which is consistent with the principles, federal laws and guidelines, and related requirements of Title VI.

This report is not meant to be inclusive of every Title VI activity undertaken by PVPC. Should you have any questions, please contact, Dana Roscoe, Transportation Manager at 413-781-6045 (ext. 309)

Sincerely,

Dana Roscoe
Principal Planner/ Transportation Manager

Pioneer Valley Planning Commission Title VI Subrecipient Report to PVTA
Amended (2/1/2024)

DOCUMENTATION OF GENERAL REQUIREMENTS (CHAPTER III)

I. Did the recipient prepare and submit a Title VI Program? A recipient is required to prepare and submit a Title VI Program

INDICATORS OF COMPLIANCE
☑ The subrecipient develop a Title VI Program

PVPC Observations
PVPC routinely provides updates to critical elements of the Title VI Program that was approved and adopted by the governing body in 2023. The complete Title VI Program is available online at https://pvmpo.pvpc.org/civil-rights-and-title-vi-resources/

A copy of the presentation of the Title VI Program to the governing body is posted and available online via this website link.

A copy of the minutes that record the action by the governing body to approve the Title VI Program are also available and posted on the website here.

II. Does the subrecipient provide meaningful access to Limited English Proficient (LEP) persons? A recipient must implement a language assistance plan (LAP) to address the needs of the population it serves.

- Include the results of the Four Factor Analysis, with a description of the LEP population(s) served,
- Describe how it provides language assistance services by language
- Describe how LEP persons are notified about the availability of language assistance
- Describe how it monitors, evaluates, and updates the LAP
- Describe how it trains employees to provide timely and reasonable language assistance.

INDICATORS OF COMPLIANCE
☑ The subrecipient has implemented its LAP.

PVPC Observations: The web site for the MPO was recently revised to include translation tools for all LEP languages. All meeting notices and agendas for MPO related activities include a notice regarding the availability of language translations. In the past PVPC has received requests for digital versions of all materials in advance of public meetings in order to allow the content to be viewed on a personal device (during the meeting). From 12/30/2019 to 2/01/24 PVPC has not received a non-English request for information over the phone or in person.
PVPC currently strives to accomplish the following for persons with Limited English Proficiency:

- Translate our most vital documents and make a concerted attempt to translate any of these documents into other languages upon request.
- Provide flyers, meeting notices, and other announcements in the languages spoken in the affected area.
- Offer to translate meeting materials upon request.
- Post notices in non-English community newspapers when appropriate.
- Incorporate Google Translate in our website which may be used to translate site materials into multiple languages.
- Provide interpreters, upon request, at public meetings.
- Train staff on how to respond to request for language assistance and reviews meeting protocols for Zoom meeting requests.
- Assist PVTA in providing a Spanish translated transit map.
- Interview public officials and local organizations in the early deliver of planning products to assess potential languages spoken.
- Provide information about projects that impact a neighborhood or that may have a significant impact in the languages spoken in the area.
- Routinely update language data as new data/information becomes available.
- Translate consent forms, and letters containing information regarding participation in a program when needed.

Currently (2024), PVPC does not feel the need to make additional translations to our vital documents. PVPC will continue to monitor changes in languages spoken in the Region and routinely ask communities or organizations that we are working with if there are language needs that we may not be aware of. PVPC frequently uses the MassDOT ENGAGE tool to assess languages spoken for a specified project or geography. PVPC also survey from line administrative staff with a question on languages that are use when calls are received with a goal of learning more about the languages that might be spoken. As part of this effort the MPO staff has been monitoring and evaluating language information.

III. Does the subrecipient notify the public of its rights under Title VI?
A recipient must provide information regarding its Title VI obligations to the public and notify members of the public of the protections against discrimination afforded to them by Title VI. Subrecipients shall at a minimum, disseminate information by posting a Title VI notice on the agency’s website and in public areas of the agency’s office(s), including the reception desk, meeting rooms.

The notice shall include the following three elements:
- A statement that the agency operates programs without regard to race, color, or national origin.
- A description of the procedures that members of the public should follow to request additional information on the recipient’s Title VI obligations, and
- A description of the procedures that members of the public shall follow to file a Title VI discrimination complaint against the recipient.

INDICATORS OF COMPLIANCE
☑ Subrecipient disseminates the required Title VI Notice to the public as described in its Title VI Program.
☑ The Title VI Notice is translated into languages identified in the recipient’s LAP.
☑ The published and posted Title VI Notice includes all three of the required elements.
**PVPC Observations**

PVPC publishes, posts, and provides notice of Title VI obligations to the public and routinely notifies members of the public of the protections against discrimination afforded to them by Title VI. Title VI Notice to the public and availability of the MPO’s Title VI complaint process is posted in all LEP languages in the PVPC Large Conference Room, at the information desk (Figure 1), is available on the new PVPC Transportation Website (figure 2) and included in all meeting notices (Figure 3) and posts a Title VI notice on at the reception desk.

**Figure 1** Posting of Notice at PVPC Reception Desk in Springfield, MA

![PVPC Reception Desk]

**Figure 2** Posting of Notice on new PVPC Transportation Web site

![PVPC Transportation Web site]
IV. **Does the recipient implement complaint procedures as described in its Title VI Program?**  A recipient must make its procedures for filing a complaint available to the public, and investigate, and track Title VI complaints filed against it. Recipients must also develop a Title VI complaint form, and the form and procedures for filing a complaint shall be available on the subrecipient’s website. The complaint form and procedures shall be translated into languages other than English as identified in the recipient’s LAP.

**INDICATORS OF COMPLIANCE**

- Subrecipient uses the complaint form(s) and instructions for filing complaints identified in updates to its Title VI Program.
- Complaint form and instructions are available on the [subrecipient’s website](#) and at other locations described in its Title VI Program.
- Complaint form and instructions are translated into languages identified in the recipient’s LAP.
- Complaints are processed as described in complaint instruction forms?

**PVPC Observations**

The Title VI Complaint form is posted and available in all LEP languages on the [PV MPO web site](#). Complaint forms are also available from the receptionist at the information desk at PVPC offices on Congress Street in Springfield, MA. A notice of availability of the MPO’s Title VI complaint process is posted in all LEP languages in the PVPC Large Conference Room (Figure 4). All meeting notices include translated offers for assistance.
V. Has the subrecipient implemented the public participation plan from its Title VI Program in its public participation activities? A subrecipient’s public participation plan shall offer early and continuous opportunities for the public, including minority and LEP populations, to be involved in the identification of social, economic, and environmental impacts of proposed transportation decisions. The plan shall explicitly describe the proactive strategies, procedures, and desired outcomes that underpin the recipient’s public participation activities. Efforts to involve minority and LEP populations in effective participation in the recipient’s decision-making process shall be included in the plan. Effective practices include:

- Scheduling meetings at times and locations that are convenient and accessible for minority and LEP communities
- Employing different meeting sizes and formats
- Coordinating with community- and faith-based organizations, educational institutions, and other organizations to implement public engagement strategies that reach out specifically to members of affected minority and/or LEP communities
- Considering radio, television, or newspaper ads on stations and in publications that serve LEP populations. Outreach to LEP populations could also include audio programming available on podcasts
- Providing opportunities for public participation through means other than written communication, such as personal interviews or use of audio or video recording devices to capture oral comments

**INDICATOR OF COMPLIANCE**

☑ Title VI considerations identified in the Title VI Program’s Public Participation Plan have been integrated into the recipient’s public participation or outreach activities.
**PVPC Observations**

In 2022 PVPC organized a series of outreach effort targeting EJ communities. PVPC secured a grant through AARP to engage “no-traditional” participants in the Region’s Bikeshare program that included an older population demographic. PVPC mobilized around local farmer’s markets in Holyoke and Springfield. These events offered one-on-one discussions of transportation obstacles and challenges related to bicycling. Participants shared preferences for new bike docks and locations for bike infrastructure.

*Figure 5*  Public Engagement for Valley Bikeshare in Holyoke, MA

In 2022 PVPC began the process of amending the Public Participation Plan to include provisions and protocols for Virtual Meetings. While Zoom meetings had become normalized during the COVID-19 Pandemic PVPC staff had transitioned to more frequent engagement through 3rd party medium such as Zoom and Teams. To assist in this transition protocols and staff training were developed with the intent adding to the Public Participation Plan.
PVPC continues to employ MassDOT Engage as a public engagement tool to locate community organizations and to identify strategies for reaching populations. PVPC routinely updates MassDOT on new organizational contacts to add to the resource database.

Consider using Breakout groups for more detailed conversations

Do not rely on visual cues for responses

Consider providing an IT support phone number
The Draft Regional Transportation Plan for the Pioneer Valley (RTP) underwent a public review and comment period consistent with the Pioneer Valley Region Public Participation Process. Early in the development of the RTP a series of focus groups were convened to assist in the development of the draft document. Focus groups consisted of a core group of representatives that were invited to participate in a discussion on the development of the vision statement, goals, needs and problem statements included in the RTP. There was a total of five focus groups on the RTP.

- November 9, 2022 – Bicycle and Pedestrian
- November 9, 2022 – Infrastructure
- December 1, 2022 – Transit
- December 7, 2022 – Environment, Sustainability and Climate Change
- December 8, 2022 - Pioneer Valley Commissioners

Each focus group was held virtually and consisted of a facilitated discussion guided by a series of polls. Comments received as part of the focus groups were used to update the vision, goals, needs, strategies, and problem statements for the RTP. This draft version was distributed to the JTC, MPO, and through the PVPC website.

in February 2023 to continue to solicit comments. A series of RTP informational products were developed beginning in the fall of 2022 to begin outreach efforts and education on the RTP process. These products are summarized below:

- RTP Webpage
- RTP Overview Presentation [PowerPoint Presentation (pvpc.org)]
- RTP Informational [Brochures in multiple languages]
• RTP Survey

LOCAL FARMERS MARKETS OUTREACH

Local Farmers Markets were identified as a way to conduct public outreach on the RTP. PVPC staff identified a number of existing farmers markets and worked with the JTC and MPO to coordinate the locations and extent of outreach. The locations are shown in Table 3-1.

Table 3-1 – Farmers Market Outreach Events

<table>
<thead>
<tr>
<th>DATE</th>
<th>FARMER’S MARKET</th>

<td>Holyoke Farmers Market</td>
</tr>
</tbody>
</table>

All of the Farmers Markets were held outdoors and occurred on different days of the week. PVPC staff set up a booth and display at each of the six markets and were available to interact with patrons of the market to answer their questions and concerns regarding regional transportation. An icebreaker question of “What do you think of when you hear the word transportation?” was used to initiate a conversation.

A brief survey in both digital and paper format was also developed to ask additional questions. The surveys were made available in English, Spanish, Russian, and Vietnamese. The MassDOT ENGAGE Tool was used to help identify languages other than English that might be spoken in the communities where the farmers market was located. A total of 295 surveys were recorded.

RTP Video

![2020 RTP Update for the Pioneer Valley MPO](image)

A series of RTP informational products were developed to begin outreach efforts and
education on the RTP process. All of the products were made available on the dedicated webpage, and through social media for the RTP update. The RTP article also appeared in PVPC’s quarterly newsletter.

RTP products include:

- RTP Chapter summary of public participation and outreach events [Final-2024-RTP-complete.pdf (pvpc.org)]
- RTP Article - [http://www.pvpc.org/content/lot-can-happen-four-years](http://www.pvpc.org/content/lot-can-happen-four-years)
- RTP Brochure
- RTP Survey

VI. Has the subrecipient created a table depicting the membership of non-elected committees and councils, the membership of which is selected by the recipient, broken down by race, and a description of the process the agency uses to encourage the participation of minorities on such committees?

**INDICATOR OF COMPLIANCE**

☑ A table has been created depicting the membership of non-elected committees and councils, the membership of which is selected by the recipient, broken down by race.

**PVPC Observations**

The Pioneer Valley MPO actively encourages broad and diverse representation on planning committees, advisory groups, councils, and similar committees. Member organizations were surveyed in 2022 and the response to questions on race and ethnicity are included in a breakdown of the membership in the tables below and also available as Appendix P on the Title VI website.

Discrimination Complaint Form

Please provide the following information in order for us to process your complaint. This form is available in alternate formats and multiple languages. Should you require these services or any other assistance in completing this form, please let us know.

Name:________________________________________
Address:_______________________________________
Telephone Numbers: (Home)_____________(Work)___________(Cell)___________
Email Address:________________________________________

Please indicate the nature of the alleged discrimination:
Categories protected under Title VI of the Civil Rights Act of 1964:
☐ Race  ☐ Color  ☐ National Origin (including limited English Proficiency)
Additional categories protected under related Federal and/or State laws/orders:
☐ Disability  ☐ Age  ☐ Sex  ☐ Sexual Orientation  ☐ Religion  ☐ Ancestry
☐ Gender  ☐ Ethnicity  ☐ Gender Identity  ☐ Gender Expression  ☐ Creed
☐ Veteran’s Status  ☐ Background

Who do you allege was the victim of discrimination?
☐ You  ☐ A Third Party Individual  ☐ A Class of Persons

Name of individual and/or organization you allege is discriminating:
____________________________________________________________________________

Do you consent to the investigator sharing your name and other personal information with other parties to this matter when doing so will assist in investigating and resolved your complaint?
☐ Yes  ☐ No
Please describe your complaint. You should include specific details such as names, dates, times, witnesses, and any other information that would assist us in our investigation of your allegations. Please include any other documentation that is relevant to this complaint. You may attach additional pages to explain your complaint.

________________________________________________________________________________________________________________________________________________________

________________________________________________________________________________________________________________________________________________________

________________________________________________________________________________________________________________________________________________________

________________________________________________________________________________________________________________________________________________________

________________________________________________________________________________________________________________________________________________________

________________________________________________________________________________________________________________________________________________________

________________________________________________________________________________________________________________________________________________________

________________________________________________________________________________________________________________________________________________________

Have you filed this complaint with any other agency (Federal, State, or Local)?

☐ Yes  ☐ No

If yes, please identify:______________________________

Have you filed a lawsuit regarding this complaint?

☐ Yes  ☐ No

If yes, please provide a copy of the complaint.

Civil Rights Notice to the Public

The Pioneer Valley Metropolitan Planning Organization (PVMPO) complies with Title VI of the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color, or national origin (including limited English proficiency). Related federal and state nondiscrimination laws prohibit discrimination on the basis of age, sex, disability, and additional protected characteristics. The PVMPO is committed to nondiscrimination in all activities.

Individuals who believe they have been discriminated against may file a complaint with the PVMPO, Massachusetts Department of Transportation (MassDOT), or the Pioneer Valley Transit Authority.

Pioneer Valley Self-identification Survey (2022)

In 2022, the Pioneer Valley Planning Commission staff conducted a survey on public participation methods used by the agency. The survey was distributed to representatives of groups and organizations that are frequently consulted. The representatives surveyed also include members of the Joint Transportation Committee (JTC), the Pioneer Valley Metropolitan Planning Organization (MPO). The goal of the survey was to understand how individuals prefer to participate in meetings and which methods of outreach were most effective. Most respondents to the survey indicated that they receive PVPC meeting information most efficiently through email, rather than paper. The survey also included a series of questions regarding virtual meetings and how to improve the experience for their participants. Respondents indicated that they were satisfied with the format of meetings held on the Zoom platform and that this is an efficient way to hold virtual meetings. Many said they would like to see more peer presentations given during these virtual meetings. These insights are valuable to improve the public participation experience and to increase accessibility of the tools being used. The survey also included questions on racial and ethnic demographics. The response to self-identification of race and ethnicity is summarized in Table 1 and Table 2.

Pioneer Valley Metropolitan Planning Organization
Language Access Plan

 Prepared by:
Pioneer Valley Metropolitan Planning Organization
January 2023
A Limited English Proficiency (LEP) component of the PVMPO Title VI – Program

PIONEER VALLEY

METROPOLITAN PLANNING ORGANIZATION

LANGUAGE ACCESS PLAN

to address the needs of limited English populations

Endorsed January 24, 2023

This document was prepared under contract with the Massachusetts Department of Transportation. This report was funded in part through grant[s] from the Federal Highway Administration [and Federal Transit Administration], U.S. Department of Transportation. The views and opinions of the authors [or agency] expressed herein do not necessarily state or reflect those of the U. S. Department of Transportation.
Notice of Nondiscrimination Rights and Protections to Beneficiaries

Federal Title VI/Nondiscrimination Protections
The Metropolitan Planning Organization (MPO) operates its programs, services, and activities in compliance with federal nondiscrimination laws including Title VI of the Civil Rights Act of 1964 (Title VI), the Civil Rights Restoration Act of 1987, and related statutes and regulations. Title VI prohibits discrimination in federally assisted programs and requires that no person in the United States of America shall, on the grounds of race, color, or national origin (including limited English proficiency), be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination under any program or activity that receives federal assistance. Related federal nondiscrimination laws administered by the Federal Highway Administration (FHWA), Federal Transit Administration (FTA), or both, prohibit discrimination on the basis of age, sex, and disability. The Pioneer Valley Region MPO considers these protected populations in its Title VI Programs, consistent with federal interpretation and administration. In addition, the Pioneer Valley Region MPO provides meaningful access to its programs, services, and activities to individuals with limited English proficiency, in compliance with U.S. Department of Transportation policy and guidance on federal Executive Order 13166.

State Nondiscrimination Protections
The Pioneer Valley Region MPO also complies with the Massachusetts Public Accommodation Law, M.G.L. c 272 §§ 92a, 98, 98a, which prohibits making any distinction, discrimination, or restriction in admission to, or treatment in a place of public accommodation based on race, color, religious creed, national origin, sex, sexual orientation, disability, or ancestry. Likewise, the Pioneer Valley Region MPO complies with the Governor’s Executive Order 526, section 4, which requires that all programs, activities, and services provided, performed, licensed, chartered, funded, regulated, or contracted for by the state shall be conducted without unlawful discrimination based on race, color, age, gender, ethnicity, sexual orientation, gender identity or expression, religion, creed, ancestry, national origin, disability, veteran’s status (including Vietnam-era veterans), or background.

To request additional information about this commitment, or to file a complaint under Title VI or a related nondiscrimination provision, please contact PVPC (413-781-6045), fax (413-732-2593), TTD/TTY (413-781-7168) or by e-mail at gmroux@pvpc.org.

English: If this information is needed in another language, please contact the PVPC Title VI Specialist at 413-781-6045.

Portuguese: Caso esta informação seja necessária em outro idioma, favor contar o Especialista em Título VI do PVPC pelo telefone 413-781-6045.

Spanish: Si necesita esta información en otro idioma, por favor contacte al especialista de PVPC del Título VI al 413-781-6045.

Chinese Simplified: (mainland & Singapore): 如果需要使用其它语言了解信息，请联系马萨诸塞州交通部（PVPC）《民权法案》第六章专员，电话413-781-6045。

Chinese Traditional: (Hong Kong & Taiwan): 如果需要使用其它語言了解信息，請聯繫馬薩諸塞州交通部（PVPC）《民權法案》第六章專員，電話413-781-6045。
Programs to Support Civil Rights The MPO administers several programs to ensure that protected populations have equal access to the benefits of, and participation in, the MPO’s transportation-planning process, free from discrimination. MPO Title VI Program: Develops strategies, actions, and analyses needed to comply with FTA Title VI and FHWA Title VI/nondiscrimination requirements. The MPO routinely reports its actions to comply with FTA and FHWA requirements. The most recent report can be found at pvmpo.pvpc.org. Transportation Equity Program: Identifies the transportation needs of protected populations through outreach and data collection, ensures that these needs are considered in the MPO’s activities, and evaluates the extent to which the MPO meets the needs of these protected populations. Public Participation Program: Provides avenues through which all residents, including protected populations, can participate in the MPO’s transportation-planning and decision-making process. Complaint Filing Complaints filed under a federal law or policy (based on race, color, national origin [including limited English proficiency] sex, age, or disability) must be filed no later than 180 calendar days after the date the person believes the discrimination occurred. Complaints filed under a Massachusetts Public Accommodation Law (based on race, color, religious creed, national origin, sex, sexual orientation, disability, or ancestry) or Governor’s Executive Order 526, section 4 (based on race, color, age, gender, ethnicity, sexual orientation, gender identity or expression, religion, creed, ancestry, national origin, disability, veteran’s status [including Vietnam-era veterans], or background) must be filed no later than 300 calendar days after the date the person believes the discrimination occurred. The full complaint procedures are described in a document located at pvmpo.pvpc.org.
Pioneer Valley Metropolitan Planning Organization
Endorsement Sheet

FY 2023 Language Access Plan

Through consensus at its January 24, 2023, posted meeting, the Pioneer Valley Metropolitan Planning Organization (PVMPO) voted unanimously on to endorse the PVMPO FY 2023 TITLE VI Program in compliance with FTA Circular C4702.1B

1. INTRODUCTION

The policy of the Pioneer Valley Planning Metropolitan Planning Organization (PVMPO) is to ensure that people with limited English proficiency (LEP) are neither discriminated against nor denied meaningful access to and participation in the programs, activities, and services provided by the PVMPO. This Language Assistance Plan (LAP) describes how PVMPO staff provide appropriate language assistance to people with LEP by assessing language needs, implementing language services that provide meaningful access to the PVMPO’s transportation planning process, and publishing information regarding these services without placing undue burdens on the PVMPO’s resources.

The PVMPO strives for open and inclusive public engagement. Every effort is made to ensure that planning task are conducted in a fair and transparent manner. This LAP is designed to meet federal requirements and also supports the PVMPO staff in the development and implementation of public engagement and communication efforts. These efforts are described in the PVMPO’s Public Participation Plan.

This Language Access Plan (LAP) Plan has been developed by the Pioneer Valley Planning Commission (PVPC) in accordance with policy guidance issued by the U.S. Department of Transportation Concerning Recipient's Responsibilities to Limited English Proficient (LEP) Persons, which is modeled after DOJ’s guidance. As described in the guidance, DOT recipients are required to take reasonable steps to ensure meaningful access to their programs and activities by LEP persons. The plan also follows FTA guidance in the handbook issued by FTA; “Implementing the Department of Transportation’s Policy Guidance Concerning Recipients’ Responsibilities to Limited English Proficient (LEP) Persons: A Handbook for Public Transportation Providers.”

This plan is a living document; it is continually reviewed, updated and improved by PVPC staff to help better meet the needs of the residents of the Pioneer Valley Metropolitan Planning Organization (PVMPO) region.

This plan describes the strategic approach that PVPC is pursuing to achieve its program to better engage people who are Limited English Proficient (LEP) in metropolitan transportation planning activities. PVPC’s goal is to ensure that LEP persons have meaningful access to the public involvement process for PVMPO activities. This LAP Plan clarifies PVMPO’s responsibilities with respect to LEP requirements as a recipient of federal financial assistance from the U.S. Department of Transportation to people who are Limited English Proficient in accordance with:

- Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d, et seq., and its implementing regulations, which state that no person shall be subject to discrimination on the basis of race, color, or national origin under any program or activity that receives federal assistance.
Executive Order 13166 “Improving Access to Services for Persons with Limited English Proficiency” of August 16, 2000, which directs that Federal agencies subject to the requirements of Title VI publish guidance for their recipients clarifying LEP obligations. Executive Order 13166 directs that all guidance documents be consistent with the compliance standards and framework detailed in the U.S. Department of Justice’s Policy Guidance “Enforcement of Title VI of the Civil Rights Act of 1964—National Origin Discrimination Against Persons With Limited English Proficiency.” This guidance advises that different treatment based upon a person’s inability to speak, read, write, or understand English may be a type of national origin discrimination. Executive Order 13166 applies to all federal agencies, programs and operations of entities that receive funds from the federal government, which includes the PVMPO. As the PVMPO is a sub-recipient of federal funding from the Federal Transit Administration and the Federal Highway Administration, this LAP meets the requirements set forth by these agencies regarding the provision of language assistance in the PVMPO’s activities and programs.

These federal regulations and guidance define persons with Limited English Proficiency as individuals with a primary or home language other than English who must, due to limited fluency in English, communicate in that primary or home language if the individuals are to have an equal opportunity to participate effectively in or benefit from any aid, service or benefit in federally funded programs and activities.

This plan is being made available to people and organizations for which LEP may be a common consideration, including social service, non-profit, and law enforcement agencies. This plan is available in electronic PDF format on the PVPC website at www.pvpc.org. Paper copies of this LAP Plan will be provided to the community based organizations that have been consulted during the development of this plan, as well as the members of the Pioneer Valley Metropolitan Planning Organization (PVMPO), the Joint Transportation Committee of the PVMPO, the Massachusetts Department of Transportation, Federal Highway Administration, the Federal Transit Administration, the Pioneer Valley Transit Authority, and any other person or agency requesting a copy.

The Pioneer Valley Region MPO also complies with the Massachusetts Public Accommodation Law, M.G.L. c 272 sections 92a, 98, 98a, which prohibits making any distinction, discrimination, or restriction in admission to, or treatment in a place of public accommodation based on race, color, religious creed, national origin, sex, sexual orientation, disability, or ancestry. Likewise, the Pioneer Valley Region MPO complies with the Governor’s Executive Order 526, section 4, which requires that all programs, activities, and services provided, performed, licensed, chartered, funded, regulated, or contracted for by the state shall be conducted without unlawful discrimination based on race, color, age, gender, ethnicity, sexual orientation, gender identity or expression, religion, creed, ancestry, national origin, disability, veteran’s status (including Vietnam-era veterans), or background.

To fulfill these responsibilities, the Pioneer Valley Region PVMPO has developed a LAP based on guidance from the USDOT and Federal Transit Administration (FTA). This LAP is updated as
conditions warrant. As specified in FTA Circular 4702.1B, the LAP assesses the following four factors when determining language needs of people with LEP served by the PVMPO:

- Factor 1: The number and proportion of people with LEP eligible to be served by or likely to encounter a program, activity, or service of the recipient
- Factor 2: The frequency with which people with LEP come in contact with the program, activity, or service.
- Factor 3: The nature and importance of the program, activity, or service provided by the recipient to people’s lives
- Factor 4: The resources available to the recipient, and their costs

Figure 1.1: Pioneer Valley Metropolitan Planning Organization Region
2. PVMPO REGION LEP POPULATION ANALYSIS

This section presents an analysis of LEP residents of the PVMPO region. This analysis is modeled on the four-factor analysis of an individualized assessment described in the FTA guidance publication of April 13, 2007 entitled “Implementing the Department of Transportation’s Policy Guidance Concerning Recipients’ Responsibilities to Limited English Proficient (LEP) Persons: A Handbook for Public Transportation Providers.” Though the four-factor analysis is intended primarily for use by transit agencies, its application to the PVMPO is also helpful in assessing the needs of LEP persons in the metropolitan transportation planning process.

The PVMPO region includes communities with diverse ethnicities, including many people for whom English is not their native language. The representatives and residents of these communities who participate in the metropolitan planning organization (MPO) process are the most regular and significant channels through which PVPC has developed and maintains awareness of the concerns of LEP persons.

The following factors were considered to help gauge the level and extent of language assistance measures required to sufficiently ensure meaningful participation in the MPO process:

- Factor 1: Proportion, numbers and distribution of LEP persons in the PVMPO region
- Factor 2: Frequency of contact with LEP persons
- Factor 3: Nature and importance of metropolitan transportation planning to LEP persons
- Factor 4: Resources available to PVMPO and cost

1. 2.1 Factor 1: Proportion, Numbers and Distribution of LEP Persons

The U.S. Census Bureau reports a range of 4 classifications of how well people speak English. The classifications are ‘very well,’ ‘well,’ ‘not well,’ and ‘not at all.’ Consistent with federal guidance, the PVMPO LAP Plan considers people who are reported by the Census to speak English ‘not well’ or ‘not at all’ as Limited English Proficient persons.

2.1.1 Service Area Geographic Boundaries

The PVMPO region consists of the 43 Massachusetts municipalities listed below on Table 2.1 and displayed in Figure 1.1 on the previous page.

2.1.2 Analysis of Language-related U.S. Census Data

In previous LAPs, PVMPO staff used American Community Survey (ACS) summary tables to identify the languages spoken by people with LEP living within the Pioneer Valley Region. However, starting with the 2016 ACS, the US Census Bureau changed how it reports non-English languages spoken at home in ACS summary tables. Coding for languages spoken at home was updated to reflect the changes in the number of people who speak different languages, resulting in the addition of some new languages and the reorganization of others (for example, French Creole became Haitian). In addition, in an effort to protect the privacy of the speakers of less widely spoken languages, at smaller geographies these languages have been collapsed and reported in aggregated form with others in the same language family (such as Other Indo-European Languages).

In the past, data were collected by municipality and aggregated to the PVMPO region to determine the number and percent of people with LEP; however, many languages are no longer reported for smaller municipalities. This means that PVMPO staff could not identify many of the individually spoken languages that were identified in the last (2017) LAP using ACS summary tables. To overcome these challenges, staff gathered language data from other sources to provide a fuller picture of language needs in the Pioneer Valley Region.

2.1.1 Public Use Microdata Sample (PUMS)

The Census Bureau’s PUMS data use the same raw data gathered for the ACS but are provided as un-tabulated records of individual people or housing units to allow users to create custom tables that are not available in the summary tables created for standard ACS products. Because of the disaggregated nature of the data, they are subject to more stringent privacy controls.
These controls limit the size of the geographic areas for which data can be identified. The smallest area for which PUMS data are available is the Public Use Microdata Area (PUMA). PUMAs are PUMS-specific geographies that have a population of 100,000 to approximately 200,000 people. They are based on continuous aggregations of tracts or counties within a state. While some PUMAs within the Pioneer Valley Region align with the PVMPO’s boundaries, a few do not. The PUMS data for the Pioneer Valley Region also includes all of Franklin County. However, PUMS data do provide the level of detail regarding languages spoken at home by people with LEP as required by FTA regulation and are therefore another option.

**2017-2021 ACS 5-year Public Use Microdata Sample (PUMS) Data**

Although the population with LEP in the Pioneer Valley Region can be identified using standard ACS summary tables, to be consistent with how non-English languages spoken are identified, this LAP uses ACS PUMS data to report both types of information. The largest proportion of people with LEP speak Spanish (65%) followed by Russian and Chinese (either Mandarin or Cantonese) (5%), and Portuguese or Portuguese Creole (4%). The top seven languages account for eighty seven percent of LEP.

Figure 2-8: R Nepali/Marathi/other Indic Speaking Who Speak English “Less Than Very Well”
USDOT guidance specifies circumstances that signify strong evidence of a recipient’s compliance with their written translation obligations. If a recipient provides written translation of vital documents into languages that meet a certain threshold—called “Safe Harbor languages”—then their obligation is likely met. Safe Harbor languages are those non-English languages that are spoken by people with LEP (of those eligible to be served or likely to be affected or encountered by the recipient) who make up at least five percent of the population or 1,000 individuals, whichever is less. In the Pioneer Valley Region, Safe Harbor languages include speakers of the languages in Table x. There are five Safe Harbor languages in the Pioneer Valley Region. Because the cost of providing translations in all Safe Harbor languages is prohibitive, and as the top five languages make up the over three-quarters of all languages spoken by people with LEP in the region, the PVMPO focuses its written translation resources on those five languages: Spanish, other Indo-European languages, Russian, Polish, other Slavic, Chinese, and other Asian and Pacific languages.

The languages reported in this 2023 LAP and the PVMPO’s last plan in 2014 are quite different. A comparison of data from the PVMPO’s last LAP in 2014 and this LAP is difficult due to changes in how ACS language data are categorized and the privacy controls, as described previously. The geographies and coding used to aggregate the data differ from the MPO’s original LAP.
Other Language Data Sources

PVMPO staff looked at other sources of language data for the population. The Massachusetts Department of Education (MDOE) provides data on languages spoken at public schools and identifies numbers of student populations who are English language learners (ELL). Student languages often reflect household languages and may help to identify language needs, especially for local outreach efforts.

Table X Springfield School District _ Most Common Languages Spoken

| 2.1.3 Involvement of Community Organizations and Committees |

The PVMPO is engaged with community based organizations that serve LEP persons in two general ways: 1) participating in meetings of organizations and agencies that deal with LEP issues; and 2) the public involvement process.

The staff of the PVMPO participates on an ongoing basis in the meetings and activities of the following community and municipal organizations that address in part the needs of LEP persons:

The PVMPO has historically made a concerted effort to involve the region’s disabled, elderly, low-income and minority populations. The PVPC has actively collaborated with a wide range of organizations in partnerships to identify and address local and regional transportation, public health, and safety issues. The PVMPO engages a broad cross section of the community through these collaborations. Ongoing efforts such as the Plan for Progress, Regional Transportation Plan, Welfare to Work Program and Regional Comprehensive Land Use Plan have created relationships with open lines of communication.

The PVMPO makes a concerted effort to involve and address the needs of individuals or neighborhoods with Limited English Proficiency. The PVMPO routinely conducts outreach with language barriers in mind.
Following FHWA and FTA the guidance the PVMPO organizes the public participation to allow for consultation with organizations representing low income and minority populations and coordinated the transportation outreach into the meetings and schedules of these stakeholders. PVPC is actively involved in creating programs and projects that directly addressed local needs. The issues and concerns identified are incorporated into projects, programs and specific tasks through the Unified Planning Work Program, Transportation Improvement Program, and the Regional Transportation Plan. As part of ongoing public outreach efforts, the MPO collaborates on a Transportation Equity Outreach Resource list of contacts with community-based organizations and stakeholders that is updated annually and shared with MassDOT. PVPC routinely utilizes the MassDOT Engage Tool to identify outreach goals. Some of the community organizations included in the past include:

- Springfield Partners for Community Action
- MassBike
- STAVROS
- City of Springfield Office of Elder Affairs
- City of Springfield Office of Planning and Economic Development
- City of Springfield Parks Department
- Concerned Citizens of Mason Square
- Develop Springfield Corporation
- Enterprise Farm
- Gardening the Community
- HAP Housing
- Health New England
- Mason Square Health Task Force
- Mass in Motion
- Mass Mutual
- Massachusetts Department of Public Health Western Region
- New North Citizens Council
- Partners for a Healthier Community
- Pioneer Valley Asthma Coalition
- Pioneer Valley Planning Commission
- Pioneer Valley Riverfront Club
- Public Health Institute of Western Massachusetts
- Springfield Housing Authority
- Springfield Partners for Community Action
- Springfield Vietnamese American Civic Association, Inc.
- University of Massachusetts Amherst
- Vietnamese Health Project/ Mercy Medical Center

Ongoing specific engagement with community organizations and groups also includes the following:

PVPC participates in the Springfield Built Environment Group. With a significant population at risk for heart disease and stroke, Springfield faces significant health challenges. The Springfield Built Environment Group helped bring attention to the Springfield Riverwalk and Bikeway with
a new informational web site and assisted in updated the Springfield Complete Streets Prioritization Plan. This effort supports MassDOT mode shift goals of increasing biking, walking and transit use and addresses specific strategies for sustainable transportation in addition to other associated goals (better air quality, healthier communities, etc.).

PVMPO staff also participates regularly in meetings and activities of municipal and volunteer committees in PVMPO member communities, including those of the City of Northampton Public Transportation Committee. PVMPO staff also conducts outreach to the Town Amherst Public Transportation Committee. Both committees address issues of concern to LEP residents of the region.

PVMPO continues to work with other transportation agencies, including the Pioneer Valley Transit Authority, Massachusetts Highway Department, Massachusetts Office of Community and Economic Development and others to identify other community based organizations not traditionally involved in service of LEP persons. Table 1 (next page) lists the organizations, meeting dates with PVMPO and transportation concerns identified during outreach performed for the most recent update of the PVMPO Title VI plan to MassDOT.
In 2021, PVMPO staff received an AARP grant to identify barriers to participation in the region’s bike share “ValleyBike.” PVPC used this opportunity to identify underrepresented populations within ValleyBike Share and launched a series of bike share “demo days” at an inner-city fitness club (LA Fitness) in Springfield and at farmer’s markets in Springfield and Holyoke. The outstanding success of reaching such a diverse and engaging public would guide larger outreach for the RPT. With over 116,939 trips in 2022, ValleyBike Share has been a tremendous success. PVPC coordinated with partners to assure that this success equitable. The ValleyBike Equity Program secured subsidized memberships for lower income members of the community through. Qualified residents who are currently receiving S.N.A.P. Benefits or Section 8 Housing, or MassHealth Standard are eligible for the ValleyBike Access Pass. ValleyBike provides Access Pass users an annual membership for $10.00 per year, payable with a debit card, credit card, or money order. The pass will allow users unlimited 1-hour rides.

PVPC staff convenes a coalition of stakeholders for the Springfield Built Environment Committee. The Springfield Built Environment committee brings together City of Springfield staff members who work on the Built Environment to assure regular communication and collaboration. The group, which meets monthly, first started meeting in 2003. Members include representatives from the following city departments: Public Works, Planning & Economic Development, Parks, Buildings & Recreation Management, Health & Human Services, Elder Affairs, Police and Springfield Public Schools. In addition, representatives from other organizations participate, including PVPC staff, Pioneer Valley Transit Authority (PVTA), Way Finders, the MassDOT Safe Routes to School Initiative, and the Public Health Institute of Western Massachusetts (PHIWM). PVPC and PVTA are quasi-governmental organizations that serve the city. PHIWM is a nonprofit organization that work in Springfield to advance a healthy built environment. The Mass DOT Safe Routes to School Initiative advances safe walking and bicycling to school.

Way Finders is an active partner in community building & public engagement, providing the training, tools, and resources to help residents grow into skilled, capable leaders. Wayfinders has trained residents of Springfield’s Mason Square on infrastructure advocacy—which brought improvements in street lighting, an improved roundabout at a dangerous intersection and introduced separated bike facilities to neighborhoods. Through the work of Wayfinders, Springfield residents have learned about the connections between climate change, health equity, digital equity, and systemic racism. And from organizing cleanups in Holyoke’s Library Commons neighborhood to efforts to help close the digital divide—the gap between those who do and do not have ready access to technology. PVPC actively collaborate with Wayfinders on capacity building, around issues related to the built environment, safe street lighting, Bay State Bike Week demonstration projects, and safe routes to school.

</table>
**WalkBike Springfield**: Since the creation of the first bike plan for the City of Springfield in 2014, PVPC staff have been an active partner with the advocacy group WalkBike Springfield. In collaboration with the Caring Health Center, Concerned Citizens of Mason Square, Develop Springfield, Mason Square Health Task Force, New North Citizens Council, Pioneer Valley Riverfront Club, Partners for a Healthier Community, Gardening the Community, Vietnamese American Civic Association the WalkBike developed a plan that became a catalyst for transforming the streets of Springfield. Today, WalkBike Springfield continues to be a leader offering education through a bicycle curriculum, outreach to Neighborhood Councils, creation of a Good Neighbor Handbook, improving pedestrian crossings, introducing a 25 MPH Speed Limit Campaign, securing designation as an Age Friendly City, updating Complete Streets Plans and advocacy for a skate park. PVPC is proud to have partnered with WalkBike Springfield on any number of initiatives. Most recently our staff attended design hear in on the Highland Division Trial in East Springfield.

The Pioneer Valley Planning Commission (PVPC) is working to advance racial equity and access to opportunity. In 2019 we created a Racial Justice Equity Diversity, and Inclusion Committee (DEI) staffed by members of our team to examine our potential biases as a workplace and as a public agency serving diverse communities across the forty-three cities and towns of Hampden and Hampshire Counties. The Committee prepared a DEI statement that was adopted by our Commission in 2021.

In 2021, we partnered with the Healing Racism Institute of the Pioneer Valley to train all staff as part of our ongoing work leading to the adoption of actions to help catalyze change internally, as well as bringing racial justice and economic equality to the forefront of our projects.

In 2020 PVPC joined the Government Alliance on Race and Equity (GARE) and collaborated with the Western Massachusetts Health Equity Network and the Massachusetts Public Health Association to organize a webinar for over 200 attendees explaining the Government Alliance on Race and Equity (GARE) and introducing the tool: Racial Equity Impact Assessments. The goal of this work is to advance integration of racial equity tools and resources to our forty-three local member municipal governments. We are happy to share the presentations used in the webinar and the research on the status of racial equity impact assessments completed as part of this work. We are advancing integration of a Race and Health Equity Impact Assessment in Springfield as part of the LiveWell Springfield Climate Justice work funded by the Kresge Foundation’s Climate Change Health and Equity (CCHE) initiative.
In 2020 PVPC received a CARES grant from the Economic Development Administration for the purpose of economic recovery from the COVID-19 pandemic. The agency has completed research on unemployment and other economic data by race to demonstrate the disparate impacts of the economic shutdown on minority populations in the region. PVPC is also conducting outreach to diverse communities and constituents to determine needs and potential solutions, as part of our commitment to a long-term inclusive economy strategy.

In response to the COVID-19 pandemic recession that took its toll on the regional economy—hitting our BIPOC communities particularly hard—we created the Pioneer Valley COVID Recovery Dashboard and established a blog to enable us to share deeper analysis about data trends affecting the region. COVID hit the regional economy hard, both exacerbating and highlighting longstanding disparities in well-being rooted in race and ethnicity.

In 2021 PVPC applied for and was chosen as one of only six agencies nationwide to participate in an EDA and National Association of Development Organizations (NADO)-sponsored program to develop inclusive economic strategies. The initiative will involve research on regional economic clusters and more in-depth community engagement.

Pioneer Valley Planning Commission received $490,300 to implement an e-bike ownership pilot program by leveraging an existing successful e-bike share program in the Pioneer Valley Region. In close collaboration with community-based organizations, the Commission will serve economically and structurally disadvantaged Environmental Justice populations in Springfield, Chicopee, Holyoke, West Springfield, Northampton, Amherst, Easthampton, and South Hadley. The goal is to distribute 50 e-bikes in Spring 2023. Community based organizations include Ascentria Care Alliance, Springfield Food Policy Council, Gardening the Community, One Holyoke, Holyoke YMCA, Valley Opportunity Council, Community Action Pioneer Valley.

Summary of RTP Outreach Events

In the development of the 2024 RTP, MPO staff made a concerted to engage the public through the distribution of meeting notices and posting in local news media. (A detailed summary of similar outreach from the previous 2020 RTP was documented Chapter 3 of the 2020 RTP). A series of focus groups convened early in the development of the 2024 RTP to assist in the development of the draft document. Focus groups consisted of a core group of representatives invited to participate in a discussion on the development of the vision statement, goals, needs, and strategies included in the RTP. Comments received as part of the focus groups assisted in the development of the problem statements included in the RTP.

Four focus groups for the 2024 RTP update held in 2022:

- Wednesday November 9, 2022 – Bicycle and Pedestrian
• Wednesday November 9, 2022 – Infrastructure

• Thursday December 1, 2022 – Transit

• Wednesday December 7, 2022 – Sustainability

• Thursday December 8, 2022 – PVPC Commissioners

**In-person Public Engagement**

In the development of the 2024 RTP, a concerted effort is made to engage the public in person. Early in the development of the 2024 RTP, PVPC staff organized outreach at local Farmer's Markets. The long-range plan identifies the region’s goals, strategies, and projects to both enhance and maintain our transportation system. Public comments received will help to guide regional planning activities such as East-West Rail, the regional bicycle network, public transit, air quality, sustainability, and equitable transportation over the next 20 years. The Farmer’s market selected were transit accessible and in environmental justice communities. PVPC staff used the “MassDOT Engage Tool” to identify language needs and prepare outreach materials. In addition to offering language specific materials, PVPC staff used “I speak” card to assist in identifying language preferences. Farmers markets that participate in the Healthy Incentives Program accept SNAP (food stamps) and clients receive $1 back for each dollar spent on eligible fruits and vegetables at the farmer’s market. These incentives contributed to a more diverse public engagement.

**In-person Farmer's Markets:**

• September 27, 2022 - Farmer's Market at Forest Park, Springfield, MA 12:30 PM - 6:00 PM

• October 2, 2022 - Easthampton Farmer's Market 50 Payson Ave, Easthampton, MA 10:00 AM - 2:00 PM

• October 4, 2022 - Northampton Farmer’s Market (Behind Thorne’s Marketplace) Northampton, MA 1:30 PM - 6:30 PM

• October 6, 2022 - Westfield Farmer's Market 36 Court Street Westfield, MA 12:00 PM - 5:00 PM

• October 15, 2022 - Holyoke Farmer's Market Race Street (between Dwight Street and Appleton Street) Holyoke, MA 01040 10:30 AM - 2 PM

**Other In-person Outreach Events**

• Saturday November 5, 2022 - Gujarati Association of Western Massachusetts
Diwali Party

- Thursday November 10, 2022 – Pope Francis High School Career Day

Language “I Speak” cards used during outreach events

2.2 Factor 2: Frequency of Contact with LEP Persons

PVMPO members and staff are in contact with organizations and individuals representing the concerns of LEP persons on a daily basis. The contacts include:
• Planning support to the PVTA, which serves a large number of LEP persons daily.
• Coordination of public involvement and community outreach activities for the PVMPO and PVTA, such as bus rider forums, para-transit rider meetings, public hearings and meetings with community groups.
• Coordination and cooperation with community based organizations
• Coordination with social service organizations.

2.3 Factor 3: Nature and Importance of PVMPO Transportation Planning and Service to LEP Community

PVMPO is committed to making the metropolitan transportation planning process as accessible as possible to all people who live within the region. Input from all stakeholders is critical to the transportation planning process, so the PVMPO invests considerable effort to conduct inclusive public engagement. Staff helps the public to understand the transportation planning process and provides ongoing opportunities for the public to shape transportation in the Pioneer Valley Region. The specific public engagement activities carried out by staff are described in the PVMPO’s PPP.

2.4 Factor 4: Resources Available

The PVMPO programs the transportation projects that utilize federal and state sources of operating assistance for transit, as well as and capital assistance for transportation and transit projects. Support for LEP outreach and related services are integrated with the planning and development of these projects.

Based on the number past requests and and type of meetings for which written materials would be translated, the PVMPO has budgeted sufficient funds to provide translation for the most widely spoken LEP languages. The budget also includes sufficient funds for public outreach or to accommodate special requests. Since 2020 the PVMPO has not received any such requests.

The PVMPO’s policy is to provide translation and interpreter services when they are requested at PVMPO-sponsored meetings. Although the PVMPO has advertised the availability of interpreters, none have been requested to date. While the PVMPO has been able to provide language translation services with existing resources, the region continues to see an influx of new language popluations. Therefore, the PVMPO will continue to monitor the need for translation and interpretation services based on factors one through three of the four-factor Analysis and the number of requests received. The PVMPO will also determine whether the current policy should be adjusted because of resource constraints.

Going forward, the PVMPO will continue to identify LEP concerns and seek appropriate additional funding and strategies for integration with programmed transportation projects in the region that may be available and appropriate for LEP programs and services.
4.0 IMPLEMENTATION PLAN FOR LANGUAGE ASSISTANCE

This section describes PVMPO’s current and future plans for providing language assistance to LEP persons in the region.

4.1 Identifying LEP Persons Who Need Language Assistance

PVMPO identifies LEP persons who need language assistance through the following activities and services:

- Coordination with municipal, regional and state agencies engaged in transportation planning processes.
- Outreach to community based organizations and municipal agencies to ask their assistance in identifying LEP persons who may need language assistance.
- Outreach to social service agencies in the region.
- Planning coordination and public involvement services and activities with the Pioneer Valley Transit Authority.
- Inclusion of instructions on how to request language translation of key written documents on public meeting notices.
- Asking persons attending public hearings if Spanish language translation and/or signing interpreter services are desired or needed (services are always available).
- Demographic assessment of census data to ascertain likely geographic location of potential LEP customers.

4.2 Providing Language Assistance

This section describes the current and future services that the PVMPO provides for enhancing the access of its system to LEP persons.

Information regarding PVMPO transportation planning processes is made available through multiple means, including translated public meeting notices and providing a bilingual staff whenever possible. PVMPO’s future programs and services to enhance accessibility of transit services to LEP persons include:

- Partnerships with PVTA and community organizations to develop a list of language translation volunteers who are available for public meetings. This option could be used where advanced notice is provided that translator services are needed. This option may also help increase the number of languages for which translation services are available.
- Development of written translation and oral interpreter service providers database. This would improve the speed and convenience with which written documents can be translated for the public, and reduce the need to have public requests for them.
- Ensuring that PVMPO members are aware of the USDOT LEP guidance and support their LEP planning activities, as appropriate.
• Regular updates to this LAP Plan, as needed by new events, such as the release of 
  language-related demographic data from the 2010 decennial census and/or indications 
  of increases in LEP population.
• Identification of community based organizations that are not being contacted through 
  existing outreach.

4.3 SAFE HARBOR STIPULATION FOR WRITTEN TRANSLATIONS

Federal law provides a “safe harbor” stipulation so that recipients and sub-recipients of federal 
  funds can ensure with greater certainty that they comply with their obligations to provide 
  written translations in languages other than English. A safe harbor means that if a recipient or 
  sub-recipient provides written translations in certain circumstances, such action will be 
  considered strong evidence of compliance with the recipient’s or sub-recipient’s written-
  translation obligations under Title VI.

The failure to provide written translations does not mean there is noncompliance, but rather 
  provides a guide for recipients and sub-recipients that would like greater certainty of 
  compliance than can be provided by a fact-intensive analysis.

For example, even if a safe harbor is not used, if written translation of a certain document(s) 
  would be so burdensome as to defeat the legitimate objectives of its program, it is not 
  required. Other ways of providing meaningful access, such as effective oral interpretation of 
  certain vital documents, could be acceptable or preferable under such circumstances.

Strong evidence of compliance with a recipient’s or sub-recipient’s written-translation 
  obligations under safe harbor includes providing written translations of vital documents for 
  each eligible LEP language group that constitutes 5% or 1,000, whichever is less, of the 
  population of persons eligible to be served or likely to be affected or encountered.

This safe harbor provision applies to the translation of written documents only. It does not 
  affect the Title VI requirement to provide meaningful access to LEP individuals through 
  competent oral interpreters where oral language services are needed and reasonable.

In the PVMPO region all eligible LEP language groups exceed the “1,000 or greater” population 
  threshold for which written translations of vital documents can be provided (see table ). Using 
  the Safe Harbor standard, PVPC is committed to provide written translations of all key 
  documents to residents of our 43 communities.

4.4 Providing Notice to LEP Persons

USDOT LEP guidance states: “Once an agency has decided, based on the four factors, that it will provide language service, it is important that the recipient notify LEP persons of services available free of charge. Recipients should provide this notice in languages LEP persons can understand.”

PVMPO provides this notification through the following:

1. Meeting notices in print and on the PVMPO website that include instructions on how to request language assistance (with advance notice).
2. The statement in outreach documents that language services are available from the agency.
3. Working with community-based organizations and other stakeholders to inform LEP individual of the recipient’s services, including the availability of language assistance services.
4. Including notices in local newspapers in languages other than English. (Local Spanish news media is traditionally used by the MPO)

4.5 Other Efforts to Disseminate Information and Engage Populations

The MPO utilizes a variety of methods of communicating with the public. These methods include messaging on Constant Contact, social media (Twitter, Facebook, and YouTube), the PVMPO’s website, through board meetings and committee meetings, virtual meetings, stakeholder outreach, and in person public events. The dissemination of Title VI information is associated with this outreach and other MPO activities through the action of physically posting notice, or referencing Title IV with meeting notices, documents, agendas, and formal actions items at JTC and MPO meetings. The MPO’s website is the main repository for documentation of the MPO’s Title VI Program and related information. Vital documents are translated into Safe Harbor Languages and the MPO is working to post documents in both PDF and HTML to improve accessibility. The PVMPO web site was revised specifically to make Title VI resources and documentation more visible and more accessible. The MPO staff make a concerted effort to respond to requests for alternative document format including large print and braille. Participants in the planning process can request materials in accessible formats by email, telephone, or US mail. In 2022 the MPO website was revised to enable Google Translate that allows for translation into dozens of languages. All MPO public documents contain the full or abbreviated notice of nondiscrimination, notification that translations are available upon request, and that accessible accommodations can be made available upon request. In-person meeting locations for the MPO have wall mounted board with the notice of nondiscrimination (in seven languages). The MPO maintains several email distribution lists including Joint Transportation Committee, and a Transportation Equity contact list comprised of community-
based organizations and nonprofits including organizations and individuals representing traditionally underserved populations. These email lists are used to keep the public informed of opportunities to participate in the planning process. Translations for vital documents are available in accordance with the MPO’s Language Access Plan and these translated documents include translated versions of the notice of nondiscrimination and the ability to request translated and accessible versions of documents.

3.1 Oral Language Assistance

3.1.1 In-Person Public Engagement

The PVMPO provides interpreter services upon request with two weeks advance notice. Notices for all meetings state this information and how to request an interpreter. The number of people with LEP in the Pioneer Valley Region, along with their infrequent interaction with the PVMPO, has meant that the PVMPO is rarely asked to provide oral language services. This, however, does not necessarily mean that there is no need for translation among the region’s population or that this need will not be made known in the future.

3.1.2 Virtual Public Engagement

The need to conduct public engagement virtually during the COVID-19 pandemic has led staff to expand opportunities to engage with the PVMPO online. All PVMPO meetings and PVMPO-hosted events are held via the Zoom online meeting platform. Staff make every effort to provide services equivalent to those offered at in-person meetings. Attendees may request an interpreter at least two weeks ahead of time.

3.2 Written Language Assistance

3.2.1 Vital Documents

The PVMPO provides written translations of vital documents, as required by federal regulations. Vital documents are those that contain information that is critical for obtaining PVMPO services, or that are required by law. The PVMPO has determined that documents and materials are considered vital if they enable the public to understand and participate in the regional transportation planning process.

The Notice of Nondiscrimination Rights and Protections was developed for use by all Massachusetts PVMPOs by the Massachusetts Department of Transportation (MassDOT). MassDOT also provided translations of the notice in seven languages: Spanish, Chinese (traditional and simplified), Portuguese, Haitian, Russian, and Vietnamese. The PVMPO’s complaint form and procedures are translated into XX languages in addition to English.

The PVMPO’s approach may not meet all language needs. Based on analyses of MDOE language data, whereas many LEP speakers of the five most common Safe Harbor languages are concentrated in urban areas, especially in and around Holyoke and Springfield, speakers of the other languages tend to be more geographically dispersed. With that in mind, the PVMPO’s policy is to identify language needs for areas in which it conducts outreach—for example, public meetings for the RTP —and provide written translations in other languages as necessary. To aid in this approach, staff identify the languages spoken in locations where they hold public events through collaboration with community partners.
3.2.2 PVMPO Website

To accommodate website translation needs, the PVMPO website hosts Google Translate, a browser-based tool that translates website content into more than one hundred languages, including all Safe Harbor languages within the Pioneer Valley Region. PVMPO documents are posted on the website as PDF files. A growing number of documents are being made available in HTML format. HTML format documents allows them to be read aloud by a screen reader and enables the use of Google Translate for all documents on the website. In addition, people with LEP may also set their internet browser language to one of their choosing.

3.2.3 Emails, Surveys, and Social Media

Email is the main method by which PVMPO staff communicate with the public. Any member of the public may sign up for any of several PVMPO email lists. All of these emails can be translated by clicking the appropriate language at the top of the email. Translations are performed by Google Translate and are available in dozens of languages, including all Safe Harbor languages.

PVMPO surveys are nearly always conducted online because of the frequency with which staff produce surveys, their affordability, and their wide reach. Surveys also allow staff to provide translations at a cost to the PVMPO.

4.6 Monitoring and Updating This LAP Plan

Meaningful language access requires more than securing translation and interpretation services. Language access strategies must empower MPO staff to sustain the public processes, to get to know the communities impacted, and to seek, preserve, and share institutional knowledge. The PVMPO will continue to monitor and update this LAP Plan in order to achieve these goals. Related activities in the future will likely include:

- Continued use of the LEP Checklist (below)
- Close collaboration with ODCR and expanded use of the MassDOT Engage and other innovative tools for public engagement.
- Continued training on racial cultural bias and training on language resources.
- Improve language translation tools on the the MPO website.
- Establishing and implementing a process to obtain feedback from LEP persons, directly, as well as community members and agencies.
- Conducting internal monitoring and random spot checks of LEP services.
- Refining and improving the LAP Plan described above consistent with feedback received.
- Considering new language assistance needs when expanding service.
- Regularly updating the plan (annual basis) or when significant new language-related demographic data becomes available.
LANGUAGE ASSISTANCE MEASURES

Include the types of language services currently available, and proposed for the future.

How is your staff made aware of the services?

How does your staff respond to LEP callers?

How does your staff respond to written communications from LEP persons?

How does your staff respond to LEP persons who have face to face contact with your staff?

STAFF TRAINING

How is staff trained/informed of the language assistance measures offered by your organization?

How often is LEP training provided (i.e., annually, biannually, at hire with annual refreshers, etc.)?

Will staff be trained as new language assistance measures are implemented?

OUTREACH/NOTIFICATION

How is the public aware of the ability to request free language assistance?

Will the availability of language assistance appear on brochures, booklets, newsletters, etc.?

Will notice of language assistance be provided at registration/intake?

Will notice of language assistance be provided to CBOs and FBOs?

MONITORING & UPDATING

How will the LAP be monitored for effectiveness and relevance?

How often will the LAP be updated?

How often will your organization look at census/ACS data to identify any changes in LEP populations in your service area?

IDENTIFICATION OF VITAL DOCUMENTS

Your LAP must include a listing of “vital documents”. Vital Documents are those considered necessary to having access to your programs, benefits, services, and activities. FTA identifies the Title VI Notice to the Public, and Title VI Complaint Form as vital documents.

Vital documents should be translated in their entirety for any language groups that reach the LEP threshold of 5%, and at least partially, into any languages that reach the safe harbor threshold of 1000 persons. A translation schedule should be included in your LAP.
2022

PIONEER VALLEY MPO PUBLIC PARTICPATION PLAN

Prepared by
Pioneer Valley Planning Commission
10/25/2022
The preparation of this document has been financed in part through a grant from the Federal Highway Administration and through a grant from the Federal Transit Administration with the Massachusetts Department of Transportation (MassDOT). The contents of this report do not necessarily reflect the official views or policy of the U.S. Department of Transportation.

**Federal “Title VI/Nondiscrimination” Protections**

The Pioneer Valley Metropolitan Planning Organization (PVMPO) operates its programs, services, and activities in compliance with federal nondiscrimination laws including Title VI of the Civil Rights Act of 1964 (Title VI), the Civil Rights Restoration Act of 1987, and related statutes and regulations. Title VI prohibits discrimination in federally assisted programs and requires that no person in the United States of America shall, on the grounds of race, color, or national origin (including limited English proficiency), be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving federal assistance. Related federal nondiscrimination laws administrated by the Federal Highway Administration, the Federal Transit Administration, or both prohibit discrimination on the basis of age, sex, and disability. These protected categories are contemplated within Title VI Programs consistent with federal interpretation and administration. Additionally, the PVMPO provides meaningful access to its programs, services, and activities to individuals with limited English proficiency, in compliance with US Department of Transportation policy and guidance on federal Executive Order 13166.

**State Nondiscrimination Protections**

PVMPO also complies with the Massachusetts Public Accommodation Law, M.G.L. c 272 §§ 92a, 98, 98a, prohibiting making any distinction, discrimination, or restriction in admission to or treatment in a place of public accommodation based on race, color, religious creed, national origin, sex, sexual orientation, disability, or ancestry. Likewise, PVMPO complies with the Governor’s Executive Order 526, section 4 requiring all programs, activities, and services provided, performed, licensed, chartered, funded, regulated, or contracted for by the state shall be conducted without unlawful discrimination based on race, color, age, gender, ethnicity, sexual orientation, gender identity or expression, religion, creed, ancestry, national origin, disability, veteran's status (including Vietnam-era veterans), or background.

1.0 Introduction

This 2022 revision to the Pioneer Valley MPO’s Public Participation Plan incorporates updates and consideration for virtual meetings and outreach that were not previously include in the plan. On July 16, 2022, Governor Baker signed into Law an Act Relative to Extending Certain State of Emergency Accommodations, which, among other things, extends the expiration of the provisions pertaining to the Open Meeting Law to March 31, 2023. These revisions are consistent with these provisions. It is anticipated that in 2023 the PVMPO will be revisiting this plan to incorporation measures that will allow for “hybrid meeting” as the PVMPO recognizes the importance of operating in concert with MassDOT and as such adopts the values, goals, and principles, as included in their Public Participation Plan.

This Plan serves to guide agency public participation efforts to include those populations that have been underserved by the transportation system and/or have lacked access to the decision-making process. This Plan guides the PVMPO in its efforts to offer early, continuous, and meaningful opportunities for the public to help identify social, economic, and environmental impacts of proposed transportation policies, projects and initiatives. This Plan shapes all public engagement, from instances of simply disseminating information to the formalized instances of public involvement in the transportation project development and decision making process.

The Plan is based on federal and state requirements and guidance for encouraging and ensuring community participation.¹ It describes the overall goals, guiding principles, and strategic approach to achieving stated objectives. The Plan also defines how the PVMPO incorporates public participation into its transportation decision-making processes, and how the agency ensures access for people with disabilities and the inclusion of low income and minority stakeholders. Specifically, the Plan states the methods that will use to reach out to persons who are low-income, minority, Limited English Proficient (LEP), or have a disability, and other traditionally underrepresented populations. Because different transportation decisions to be made require different techniques for reaching the public, this Plan provides a toolbox of techniques to be applied, as appropriate, to achieve effective participation.

This Plan is a living document which will change and grow to help deepen and sustain its work to engage diverse community members throughout the state. Therefore, the PVMPO will modify its public participation methods and activities over time, based on ideas and feedback from community members and evaluation of our public participation effectiveness. The PVMPO released this revision for the required public comment period. All changes and improvements on this Plan and related protocols and policies are intended to improve our ability to provide an equal opportunity for public input in our transportation decision making processes.

1.1 PVMPO’s Structure, Mission, and Values

The Pioneer Valley Metropolitan Planning Organization (PVMPO) is responsible for carrying out the continuing, cooperative, and comprehensive transportation planning process in the Pioneer Valley Region

¹ This includes drawing from and adapting the FHWA’s “Public Involvement Techniques for Transportation Decision-Making” document. http://www.fhwa.dot.gov/planning/public_involvement/publications/techniques/
that results in plans and programs that consider all transportation modes and supports metropolitan community development and social goals. This planning process is designed to ensure early and continuing opportunities for the public to express their views on transportation issues and to promote active participation in the transportation decision-making process. This input is valuable in accomplishing the following:

- Maintaining on-going dialogue with stakeholders so that information about projects is provided early in the planning process when potential mitigation can be addressed most efficiently.
- Incorporating stakeholder data into the planning process at the early stages of project development.
- Communicating in a manner that meets the requirements of stakeholders, such as using visualization to translate technical issues to be easily understood by lay individuals or providing more technical information to those who require it.
- Providing information in a format that allows the stakeholders to compare projects geographically and to understand the impacts of historical projects within an area.

1.2 PVMPO’s Public Participation Goals

PVMPO has the following public participation goals which agency representatives and those working in concert with PVMPO on transportation projects and initiatives should strive to achieve:

1. Obtain Quality Input and Participation

Comments received by PVMPO are to be encouraged and reviewed to the extent they can be useful, relevant, and constructive, and contribute to better plans, projects, programs, and decisions.

2. Establish Consistent Commitment

PVMPO strives to communicate regularly and develop trust with communities, while helping build community capacity to provide public input, as needed.

3. Increase Diversity

Participants who are encouraged to participate in public engagement processes should represent, as appropriate to a project or those impacted, a range of socioeconomic, ethnic, and cultural perspectives and include people from low-income and minority neighborhoods, people with limited English proficiency, and other traditionally underserved people.

4. Ensure Accessibility

Every effort should be made to ensure that participation opportunities are physically, geographically, temporally, linguistically and culturally accessible.
5. **Provide Relevance**

   Issues should be framed clearly and simply such that the significance and potential effect may be understood by the greatest number of participants.

6. **Foster Participant Satisfaction**

   PVMPO should encourage the public to participate in project and initiative related discussions, recognizing that people who take the time to participate feel it is worth the effort to join the discussion and provide feedback.

7. **Clearly Define Potential for Influence**

   The process should clearly identify and communicate where and how participants can have influence and direct impact on decision making.

8. **Establish and Maintain Partnerships**

   PVMPO develops and maintains partnerships with communities and community-based organizations through the activities described in the PPP.

9. **Provide Opportunities to Build Trust and Compromise**

   PVMPO should ensure that discussions, particularly where there are conflicting views, are structured to allow for levels of compromise and consensus that will satisfy the greatest number of community concerns and objectives. PVMPO recognizes that processes which allow for consensus to be achieved are critical to enable public support for recommended actions.

1.3 **Guiding Principles for Public Participation at PVMPO**

   To help PVMPO achieve its goals for public participation, the following principles have been adopted:

   1. **Promote Respect**

      All transportation constituents and the views they promote should be respected. All feedback received should be given careful and respectful consideration. Members of the public should have opportunities to debate issues, frame alternative solutions, and affect final decisions.

   2. **Provide Proactive and Timely Opportunities for Involvement**

      Avenues for involvement should be open, meaningful, and organized to let people participate comfortably, taking into consideration accessibility, language, scheduling, location and the format of informational materials. Meetings should be structured to allow informed, constructive dialogue, be promoted broadly and affirmatively; and be clearly defined in the early stages of plan or project development. Participation activities should allow for early involvement and be ongoing and proactive, so participants can have a fair opportunity to influence PVMPO decisions.
3. **Offer Authentic and Meaningful Participation**

   PVMPO should support public participation as a dynamic and meaningful activity that requires teamwork and commitment at all levels. Public processes should provide participants with purposeful involvement, allowing useful feedback and guidance. Participants should be encouraged to understand and speak with awareness of the many competing interests, issues, and needs that lead to transportation ideas and projects.

4. **Provide a Clear, Focused, and Predictable Process**

   The participation process should be understandable and known well in advance. This clarity should be structured to allow members of the public and officials to plan their time and use their resources to provide input effectively. Activities should have a clear purpose, the intended use of input received made clear, and all explanations described in language that is easy to understand.

5. **Foster Diversity and Inclusiveness**

   PVMPO should proactively reach out to and engage people with disabilities, as well as low-income, minority, limited English proficient, persons with disabilities and other traditionally underserved populations.

6. **Be Responsive to Participants**

   PVMPO meetings should facilitate discussion that addresses participants’ interests and concerns. Scheduling should be designed to meet the greatest number of participants possible and be considerate of their schedules and availability. Informational materials provided should be clear, concise and responsive to known community concerns, while avoiding misleading or biased suggestions or solutions.

7. **Record, Share and Respond to Public Comments**

   Public comments, written and verbal, should be given consideration in PVMPO decision making processes and reported in relevant documents. Specifically, public comments provide an opportunity for shared knowledge among PVMPO departments and transportation partners, but also require clear responses that are documented to demonstrate that community input was in fact addressed. PVMPO should communicate the impact of the public input on decisions at a broad summary level, describing the major themes, the decisions reached, and the rationales for the decisions.

8. **Self-evaluation and Plan Modification**
The effectiveness of this Plan will be reviewed periodically to ensure it meets the needs of the public, and will be revised to include new strategies and approaches.

2.0 PVMPO’s APPROACH TO PUBLIC PARTICIPATION

Transportation decision making and project development processes are regulated and follow set procedures, including the need to give the public opportunities to participate. These public involvement objectives are further shaped by PVMPO’s commitment to civil rights related obligations, such as removal of barriers to participation, diversity, and inclusive outreach. This Public Participation Plan describes participation opportunities generally and includes specific protocols and resources that are designed to facilitate diverse and inclusive public outreach and involvement. The plan is a flexible and evolving document. As necessary, PVMPO will revise the PPP based on recurring assessments of successes and/or challenges associated with outreach, as well as suggestions made and the results of public engagement processes.

In this chapter, a general description of PVMPO’s public participation activities is presented. Chapter 3 contains the specific civil rights protocols utilized by PVMPO for all public outreach activities, categorized by types of communication formats, including large group discussions, targeted group engagement and one-on-one interactions. Chapter 3 also contains the PVMPO Accessible Meeting Policy. Our view is that if these objectives and standards are consistently applied to the different types of public meetings PVMPO convenes or participates in, the resulting discussions and resolution of issues will be inclusive and accessible to all.

In the subsequent chapters, specific opportunities to participate are described in the context of the development of:

- Long-term transportation plans
- Regional Transportation Improvement Programs (TIP)
- Unified Planning Work Programs and their relevant tasks

These outreach described for these specific activities should be read in concert with the civil rights protocols set forth in Chapter 3, as they are both congruent with and structured to facilitate inclusion in all PVMPO public participation efforts.

In addition, relevant federal policy guidance, principles and techniques are referenced that enhance the potential for successful public participation processes. These ideas are derived from the U.S. DOT-sponsored guidance for systematically setting up and implementing a public participation program for a specific plan, program, or project.
2.1 Public Participation Techniques

PVMPO takes pride in its work to maintain a collaborative relationship with community and municipal stakeholders and has strategically developed this Public Participation Plan to foster collaboration in an all-inclusive manner. The PVMPO public outreach effort rests on utilizing multiple communication channels to distribute information to, and solicit input from, affected constituencies. PVMPO typically communicates with the general public through one or more of the following methods:

- PVMPO website
- Public media (including local minority and non-English newspapers, radio stations, and television stations)
- Press releases
- Posters, display boards, and flyers
- Project fact sheets
- Brochures
- Newsletters
- Public service announcements
- Mailing and email lists
- Information stands at local events
- Social media tools, including Twitter, Facebook, YouTube, email distribution lists, and other new media venues
- Legislative briefings
- Presentations, public meetings, public hearings, open houses, and workshops
- Civic advisory committees and working groups

PVMPO Website Specifics:

Many people use the Internet as their main source of data and information. The PVMPO website is a comprehensive resource for people wanting information about PVMPO programs, projects, and activities. Public notices of all PVMPO meetings, public hearings, and public comment periods are posted on this site, along with information about PVMPO programs, projects, and activities. Some programs and projects have dedicated web pages on the PVMPO website that include:

- Information about upcoming meetings
• Project presentations and fact sheets
• Summary notes for meetings/workshops on the project
• A way to be added to the project’s electronic distribution list

Project websites are important tools for people who cannot attend meetings. Members of the public can review presentations and meeting summaries and provide comments through emails and letters to the project team. People with disabilities that limit their ability to attend meetings can also review project information and provide comments on the website, and thereby have an alternative to physically attending a meeting.

Meeting Notice Content and Distribution:

PVMPO announces all meetings, public presentation, open houses, workshops, and public comment periods through press releases, mailings, and/or the distribution of informational meeting flyers as well as placing meeting information on the PVMPO website. Notices are published in local English newspapers, and if the project has an impact on low income or minority populations, an effort is made to place notices in media that serves local, minority and non-English communities in regions across the Region. In the Springfield/Holyoke area, such publications include El Pueblo Latino among others. Meeting notices will include information about getting to a meeting location using public transportation, when transit is available. PVMPO notices also let people know they can request foreign language assistance, and that sign-language interpreters and other accommodations are available on request for people with disabilities (with timely notification).

There is also information that lets people know who they can contact with questions or concerns. The information for these meetings and the informational materials provided at the meetings are translated into languages other than English, as needed.
2.1.1 Public Meetings, Open Houses, and Workshops

1) Public Meetings

Public meetings are held to present information to the public and obtain input from community residents. Meetings provide a time and place for face-to-face contact and two-way communication. They are generally tailored to specific issues or community groups and can be either informal or formal. Public meetings are used to disseminate information, provide a setting for public discussion, and receive feedback from the community.

2) Open Houses

Open houses are informal settings where people can obtain information about a plan, program, or project. They do not have formal agendas, and no formal discussions or presentations take place. At open houses, people receive information informally from exhibits and staff, and they are encouraged to give opinions, make comments, and state preferences to staff, orally or in writing. Informal presentations, slide shows, and one-on-one discussions take place continuously throughout the event, which usually includes a series of stations: a reception area; a presentation area for slide shows or short talks; areas for one-on-one discussions between community people and agency staff members; and displays of background information, activities to date, work flow, and anticipated next steps, accompanied by an array of primary subject panels. Since there is no fixed agenda, open houses are usually scheduled for substantial portions of a day or evening, so that people can drop in at their convenience and fully participate.

Note that Open Houses often involve one-on-one discussion of issues or concerns between meeting participants and project engineers or other PVMPD representatives. The content and nature of these informal exchanges is not easily captured in documents such as meeting summaries or notes. Thus, those PVMPD representatives that have such an exchange are instructed to relay the content to the Project Manager so that these issues are catalogued and tracked, as needed.

3) Workshops

Workshops are organized around a particular topic or activity and typically involve a relatively small group of people who want to participate intensively. These events are usually one to three hours in duration, and small groups work on a specific agenda. PVMPD staff members provide information, answer questions, and participate as individuals in workshops. Workshops are inherently participatory and encourage a “working together” atmosphere.
2.1.2 Public Hearings

A public hearing is more formal than a public meeting. The public hearing is an opportunity for members of the public to make recorded statements of their views immediately before project decision making and, in the case of an environmental impact statement (EIS), preparation of the final environmental impact statement (FEIS). PVMPO views the hearing as a specific, observable administrative benchmark for public involvement.

A public hearing is held near the end of a project development process or if required by state or federal law, prior to a decision point, to gather community comments and hear the positions of all interested parties for the public record and input into decisions. Public hearings are required by the federal government for many transportation projects and have specific legal requirements.

2.1.3 Meeting Facilities and Accessibility

PVMPO is required to hold public hearings, meetings, open houses, and workshops in accessible facilities that are, wherever possible, at locations close to or served by fixed-route transit service, to let people know that the meeting location is accessible. Meeting planners must conduct an analysis of the demographics of the area where the meeting is to be held to determine when notices should be translated into languages other than English. The availability of handout materials in alternative formats—Braille, large print, and/or audio cassette, and languages other than English—as well as other accommodations (language interpreters, sign language interpreters, CART translators, etc.) must be indicated in the meeting notices along with specific information on how to request these accommodations.

PVMPO meeting planners should research and make every effort to select the location, size, and setup of meeting facilities based on the specific characteristics of the audience and the type of information to be presented. Whenever possible, hearings, meetings, and workshops should be held in places that are centrally located to the project and likely to attract a cross section of the people and businesses representative of the community stakeholders. Public libraries, public schools, and community centers are often used.

PVMPO meeting planners should strive to create a welcoming environment. The staff members charged with the coordination of any meeting are responsible for providing resources, including free accessibility assistance and language assistance, to ensure that the event is accessible to all people and to provide the greatest opportunity for participation by interested parties.
2.1.4 Virtual Meetings

The use of virtual meeting formats is a critical component of the PVMPO’s public outreach and planning strategy. It is estimated that over 40% of the population has some barrier to access and participation in meetings, such as: ability, language, time, travel, and technology. The use of virtual meetings through 3rd party applications such as Zoom continue to expand the effectiveness of public engagement and also created new challenges. To assure a coordinated process the MPO has established a criterion for virtual meetings.

- If a public meeting is to be held virtually or have a virtual component, all meeting materials will be presented via video stream and can be downloaded via the virtual meeting platform’s chat or document transfer medium.

- Virtual meetings must be recorded, and those recordings reviewed for public input.

- To better understand how the MPO is meeting its commitment to fostering public engagement in all MPO planning activities, it is important to have a series of measurements to better understand the effectiveness of the public outreach efforts. It is through the tracking of public engagements, whether in person, via email, through social media or through utilizing virtual public engagement that the MPO can discern if its public outreach efforts are delivering the desired results. The results of these public outreach efforts can be viewed in the Measurements of Effectiveness (MOE) Report.

- If meeting is also being held virtual, appropriate technology will be deployed to receive participants virtually adequately trained staff will be assigned to manage the virtual engagement portion of the meeting.

- Upon request PVPC will use a 3rd party API for closed captioning (MAPC uses Rev.com for interpretation). Third party captions should be monitored for errors. If possible, have a chat line open, to post clarifications and to allow participants relying on the captions to ask for clarification.

- The MPO will explore hybrid meeting formats with in-person and virtual engagement for future MPO meetings and MPO committee meetings. MPO-sponsored events will take place either virtually or in-person. Virtual access is available through Zoom links on the MPO meeting calendar.

- Livestreaming meetings on YouTube, Facebook, or another service (like the local cable access to make meetings more accessible to people in your community and ensure that folks without internet access can view.

- MPO staff will communicate with participants, providing reminders about the recording and information on how it will be shared and that they have provided permission to use the recording.
• MPO staff will request feedback regarding the meeting and provide any important information for future events or meetings.

• Virtual public meetings should be publicized as early as possible—ideally, a minimum of 21 calendar days in advance, but never less than 14 days in advance. This allows attendees time to submit requests for reasonable accommodations and for meeting planners to set deadlines for accommodation requests to be made in a timely manner.

2.2 Tailoring Outreach to Underserved People

Meeting planners should not only schedule a room, post notices and ensure that accommodations are in place for a meeting to be well attended. There is also an obligation to conduct outreach to encourage attendance, particularly among groups protected by the anti-discrimination laws with which PVMPO has promised to comply.

Many people in minority and low-income communities, as well as those with low literacy and/or limited English proficiency, have traditionally been underserved by conventional outreach methods. Outreach to traditionally underserved groups helps ensure that all constituents have opportunities to affect the decision-making process. It sets the tone for subsequent project activities and promotes a spirit of inclusion. The greater the consensus among all community members, the more likely the position agreed upon will aid in decision making for the plan, program, or project. Inclusive outreach efforts are particularly useful because they:

• Provide fresh perspectives to project planners and developers
• Give PVMPO firsthand information about community-specific issues and concerns
• Allow PVMPO to understand potential controversies
• Provide feedback to PVMPO on how to get these communities involved
• Ensure that the solutions ultimately selected will be those that best meet all of the communities’ needs

PVMPO staff should strive to understand the full range of a community’s needs in order to create more responsive and more innovative plans. By interacting with community members, PVMPO staff will gain insight into the reasons why community members agree or disagree with proposed plans or projects. The perspective of traditionally underserved people can inform the goals and outcomes of planning and project development, and ignoring this input can seriously threaten a project from being approved. Such individuals can suggest fresh approaches to transportation issues that otherwise might not be raised.
Pioneer Valley MPO’s public outreach efforts are designed to address the needs of low-income, minority, Limited English Proficiency, and other traditionally underserved people throughout all phases of any public participation process. PVMPO staff should recognize that traditional techniques are not always the most effective with these populations. Staff and managers employ a variety of public involvement techniques when working with underserved populations and communicates with community leaders to find out the best techniques for working with a particular group (e.g., which approaches to use, where and when to hold events, how to recruit people, and what to avoid doing).
3.0 Title VI and ADA PROTOCOLS, POLICIES, AND RESOURCES

The civil rights protocols set forth in this document are a baseline for holding inclusive, accessible and responsive public meetings, hearings and the like. There are two primary sections in this chapter. Section 3.1 contains protocols and resources for ensuring diversity and inclusivity in public engagement. Section 3.2 contains protocols and resources for ensuring the accessibility of PVMPO’s public activities. These efforts are related and appropriate references are made between these sections, as needed.

3.1 Civil Rights Protocols for Public Engagement

Many PVMPO departments and units conduct and participate in unique types of meetings and hearings within the course of their day to day operations. These Protocols have been designed with the intention of supporting and not supplanting the basic form and structure of existing operations. Further, these Protocols will provide links, resources and contacts for the purpose of achieving public engagement that is compliant with civil rights law. It is anticipated that these Protocols should be considered part of existing Standard Operating Procedures, Guidelines and Manuals, and that as these document are revised, these Protocols will be incorporated into the relevant portions of these documents.

The obligation to comply with these Protocols begins with the person(s) responsible for organizing and/or conducting the meeting or hearing, and because of the shared nature of many public processes between units, should be viewed as a shared responsibility. For example, in the 25% Design Public Hearing, there are multiple units involved in presenting information to the public, and each unit has specific civil rights obligations to ensure that Title VI/Nondiscrimination populations, including people with limited English proficiency and/or disabilities are able to participate equally in these meetings.

These Protocols include steps and strategies to implement prior to holding a public meeting or other such activity and during the course of the public process. Due to the varied nature of PVMPO’s engagement with the public, it is not the intention within these Protocols to include all required actions specific to varying stages of the planning process, or varying departmental standard operation procedures. However, where a Project Manager or other staff member encounters a difficult public involvement situation, he/she is advised to contact the Title VI Specialist at the PVPC to identify strategies and alternatives to address such situations. Should a need arise for further clarification the Title VI Specialist for the MassDOT Office of Diversity and Civil Rights may be consulted.

Similarly, these Protocols should not be woodenly applied to every meeting/ hearing. Meetings should be tailored to the special needs of the community, and/or the target audience and subject matter to be addressed. Effective public participation from a civil rights perspective includes awareness of the local population (demographics) or individuals to be engaged, including languages spoken, represented
cultural groups, community organizations and leaders and key players. Equally critical to an effective meeting are well communicated (effectively circulated across types of media, and translated when needed) and timely notices, early response, and coordination on requests for language assistance for limited English proficient individuals or reasonable accommodation for people with disabilities.

Federal nondiscrimination obligations, through Title VI of the Civil Rights Act of 1964, Section 504 and 508 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act (ADA), reach the categories of race, color, national origin (including LEP), age, sex, and disability. These protocols are designed to ensure that sufficient consideration of outreach to and inclusion of these groups is incorporated into PVMPO’s public engagement procedures. Adherence to these protocols will also sufficiently address State-level nondiscrimination obligations2.

While the following protocols endeavor to highlight specific resources where available, past experience with the public can and should be considered a resource to identify individual and community needs, including civil rights related considerations such as language assistance needs, accessibility accommodations and inclusive public participation. Please use these Protocols as a guide and use good professional judgment in the decisions you make as you implement them.

### 3.1.1 Civil Rights Protocols by Type of Public Engagement

The following represent the four types of public engagement most commonly encountered by PVMPO employees:

- Meetings for the general public
- Targeted outreach gatherings
- Open houses
- One-on-one interactions

An introduction to each of these four types of public engagement is provided below. Familiarity with the following descriptions will help inform the user on how they should navigate the protocols set forth in this document.

**Meetings for the General Public (Sec 2.1)**

Public meetings and hearings, both at the project level and more broadly, are an opportunity for members of the public to engage in the transportation decision making process. The civil rights considerations described in this section are designed to inform and guide all PVMPO staff involved in planning and conducting such events. Incorporation of these processes and utilization of these resources when planning or participating in public meetings/hearings will help ensure that these events are Title VI compliant.

---

2 State level protections include the federal protections plus ethnicity, sexual orientation, gender identity or expression, religion, creed, ancestry, veteran’s status (including Vietnam-era veterans), and background
Open Houses (Sec 2.2)

In the case that you are planning an open house session as a standalone event (such as a public information session) that will not precede a public meeting or hearing, see Sections 2.1.1 to 2.1.4.

PVMPO staff and consultants regularly interact with members of the public through “open house” sessions prior to meetings/hearings. These sessions afford members of the public an opportunity to view design plans for projects that will be discussed at the formal public outreach event. PVMPO staff, and local officials are on hand to discuss particular details of interest with members of the public. While the interactions during these sessions are informal, critical issues are often raised. PVMPO staff strive to address these issues accurately and effectively during these sessions. [Practice Tip: Some attendees choose to forego the meeting/hearing satisfied with the information gained or with the opportunity to express concerns at the open house session.] Due to the direct nature of interaction with members of the public at these open houses, there exist civil rights risk factors. These risks can be mitigated by adhering to the principles outlined in this section.

Targeted Outreach Gatherings (Sec 2.3)

At times, the complexity of a project, controversial issues, or the reality of having multiple large Title VI groups to address may require engaging targeted audiences of stakeholders. Similarly, PVMPO may at times convene selected people within advisory committees, research efforts, focus groups and the like. The general work of understanding the demographics of people in a locality or project area still apply to determine what Title VI groups are impacted by an initiative, as described above. However, there may be a need to include strong and possibly visible community leaders within Title VI populations; this can require more subtle and challenging efforts to secure their participation and needed contribution to discussions or deliberations.

One-on-One Interactions (Sec 2.4)

PVMPO staff members interact directly with the public by virtue of the public facing programs, services, and activities the organization provides. These interactions can include planned meetings, such as those with property and business owners directly impacted by transportation projects, and spontaneous interactions with members of the public. These interactions, whether in person, over the phone, or electronic, present particular civil rights related risk factors that can be mitigated through the strategies articulated in Section 2.4.

3.1.2 Meetings for the General Public

3.1.2.1 Preliminary/Ongoing Considerations

1) Identify the population and composition of the individuals/communities impacted by the PVMPO program, service, or activity by considering the following:

   a. Project parameters, such as location, areas that will be impacted by construction phases, areas that may benefit from the completed project, and the areas that may be burdened by the completed project

   b. The nature of the program, service, or activity (is it connected to the project development process? is it statewide, regional or local?)
2) Determine the Title VI features of the community to be engaged by reference to PVMPO’s Title VI maps, which include the limited English proficient (LEP) and minority populations across the Commonwealth. Consult the following maps and additional resources.

a. PVPC Low Income and Minority Maps

b. PVPC Demographic Data
   http://pvpc.maps.arcgis.com/apps/OnePane/basicviewer/index.html?appid=72e06c61d02b4ad386157f24168c8542#

c. Neighborhood Specific Data

d. PVPC Means to Work Data

e. MassDOT LEP Maps
   http://www.massdot.state.ma.us/Portals/0/docs/CivilRights/TitleVI/fta_lap/FTA_LAP_AppendixB.pdf

f. MassDOT Minority Populations Map [Practice Tip: This map shows the concentration of minority populations. This information can help you develop a strategy for publicizing public engagement opportunities and disseminating materials that effectively reaches representative and diverse stakeholders.] 5:\Civil Rights\Title VI\Website Content

g. US Census Bureau Language Mapper

h. MassDOT Public Engagement Online Tool
   http://gis.massdot.state.ma.us/maptemplate/languagetracts (please note this tool is still in beta)

3) Identify key Title VI-related and other community based organizations and community leaders. [Practice Tip: You may already have well established connections with individuals and groups throughout the Commonwealth. You are encouraged to continue reaching out to those. These instructions provide you with steps to identify previously unknown points of contact to diversify outreach.] There are several approaches meeting planners can take to accomplish this step:

a. Use the Transportation Equity Database that has been developed for this purpose.

b. Contact the adjoining MPOs (Franklin, Berkshire, Central Mass) for the local area for a list of organizations by county and key leaders when situation warrant.
c. Consult the Office of Transportation Planning MPO Liaison who works with the PVMPO and can support the effort to identify groups and individuals.

d. Consult the PVPC Public Relations staff has conducted a variety of meeting outreach efforts across the region and can identify key groups and individuals in every community.

3.1.2.2 Meeting Location and Time

1) Title VI Considerations

a. Consult with community leaders and community based organizations to identify any aspects of the community which may be central in determining the time and location of the public engagement activity. [Practice Tip: These individuals can help you understand the cultural, ethnic, religious, gender, and political histories/experiences of the demographic groups in the locale to better inform meeting planning.]

b. Consider factors such as cultural sensitivities and/or professional and academic commitments in setting the number of meetings. Multiple meetings can be held at various locations and times if doing so promotes meaningful access to the public engagement opportunity.

c. Where possible, select a meeting location near public transportation options. [Practice Tip: A general rule of thumb is within ½ mile walking distance.]

2) ADA Considerations

a. Identify a venue for the public meeting that is ADA compliant and accessible to people with disabilities.

i. MassDOT maintains an Accessible Facilities Database that contains updated information regarding venues that have been previously assessed for ADA compliance. Note: the database is currently being incorporated into MassDOT’s Public Engagement Online Tool (http://gis.massdot.state.ma.us/maptemplate/languagetraicts)

b. If an appropriate venue cannot be identified in the database, the following resources can identify public meeting venues that may be accessible:

i. The Massachusetts Office on Disability http://www.mass.gov/anf/employment-equal-access-disability/oversight-agencies/mod/

ii. The Disability Commissions (S:\Civil Rights\ADA\Disability Commissions)

iii. The Independent Living Centers http://www.masilc.org/membership/cils

c. Take the opportunity afforded by early communication with venue staff to identify pre-existing accessibility accommodations, such as assistive listening devices and Communication Access Real-Time Translation (CART) equipment. [Practice Tip: Even though you don’t know if such devices will be needed yet, this is a good opportunity to
3.1.2.3 Coordinating Public Notice

1) Draft the public meeting notice document, either utilizing existing approved templates or creating a new one, ensuring that the following civil rights related components are included:

   a. Notice of Nondiscrimination
   b. Availability of language services and reasonable accommodations
   c. Contact information and procedures for requesting the above services, additional information, or to express a concern
   d. International Symbol of Accessibility

2) Public meeting notices must be accessible. For guidance, please refer to Section 2.1.4 §§ 3. [Practice Tip: Since public meeting notices are disseminated in a variety of ways, including physical postings, website postings, and email blasts, it is important that the appropriate font and font size be used and that the electronic document be compatible for use with screen readers.]

3) Address language needs and utilize non-English language outreach resources in the dissemination area if individuals who have limited proficiency in English are present.

   a. Identify non-English language media (print, TV, radio, online, etc.) and sites with a strong presence of individuals who have limited proficiency in English (transportation facilities, community centers, libraries, commercial/employment/educational establishments, places of worship, cultural centers, etc.) that may be effective in communicating notice to individuals who have limited proficiency in English. [Practice Tip: The reason you are identifying these resources first is to know what services actually exist to provide translated materials to.] Consider consulting the following resources:

      i. MassDOT Office of Diversity and Civil Rights
         http://www.massdot.state.ma.us/OfficeofCivilRights.aspx
      ii. PVMPO Public Relations Staff
iii. Community Leaders

iv. Other Metropolitan Planning Organizations (MPOs)
   [link]

v. Pioneer Valley Transit Authority (PVTA)
   [link]

vi. Public Libraries [link]

vii. Schools/Universities [link]

viii. Chambers of Commerce [link]

ix. Local Legislators

b. Develop translated version(s) of the notice document or other related announcements, as needed, based on the extent of LEP need and available media sources. [Practice Tip: If you’ve identified a large population of individuals who are LEP in the meeting or project locale, consider translating the meeting notice in full. If you are less likely to encounter individuals who are LEP, you can consider including the single line of text into the languages other than English you may encounter.] This could include:

   i. Full translation of the notice into the languages indicated

   ii. The inclusion of the following statement translated into the appropriate languages into the English language version of the notice.

      1. “This notice describes the date, time, and location of a public meeting or hearing on a transportation project in this area. If you need this notice translated, contact PVMPO’s Title VI Specialist at 413-781-6045.”

   iii. Translated versions of print, TV, radio, and online announcements related to the meeting, as applicable.

c. Consult the following resources for translation needs:

   i. UMass Translation Center

      1. Request Procedure: [link]

      2. Rates: [link]

   ii. Statewide Language Services Contract

      1. Search COMMBUYS website [link] for contract “PRF48”
a. Entities eligible to utilize this contract:
   i. Cities, towns, districts, counties and other political subdivisions;
   ii. Executive, Legislative and Judicial Branches, including all Departments and elected offices therein;
   iii. Independent public authorities, commissions and quasi-public agencies;
   iv. Local public libraries, public school districts and charter schools;
   v. Public hospitals, owned by the Commonwealth;
   vi. Public institutions of high education;
   vii. Public purchasing cooperatives;
   viii. Non-profit, UFR-certified organizations that are doing business with the Commonwealth;
   ix. Other states and territories with no prior approval by the State Purchasing Agent required; and
   x. Other entities when designated in writing by the State Purchasing Agent.

4) The final dissemination of public notice should incorporate the following:

   a. The dissemination of public notice has occurred sufficiently in advance of meeting to ensure adequate processing time for language and accessibility accommodation requests. [Practice Tip: Distributing notice three weeks in advance of a public engagement opportunity is generally regarded as appropriate, with two weeks or 10 business days considered the minimum limit for reasonable notice.]

   b. The public notice/announcement materials have been delivered to non-English language outreach resources and sites identified in Section 2.1.3 §§ 3; a.

   c. The public notice has been delivered directly to individuals, organizations, and other stakeholders that represent Title VI populations in the region. You should consider sending notice to the entities below with the instruction that they forward the notice among their own distribution lists and/or post it.

      i. PVMPO Transportation Section (Maintains a distribution list)
      ii. PVPC Public Relations Specialist
      iii. Local Community Leaders
iv. Other Metropolitan Planning Organizations (MPOs)

v. PVTA and Regional Transit Agencies (RTAs)
   http://www.massdot.state.ma.us/Portals/17/docs/MapCatalog/Maps/RTAs-Statewide.pdf

vii. Schools/Universities

ix. Local Legislators

x. Boston Mayor’s Office of Neighborhood Services
   http://www.cityofboston.gov/ons/coor_list.asp

3.1.2.4 Preparation for the Meeting

1) While preparing for the meeting, consider the following questions: (1) Are there civil rights implications in the background/history of the project? (2) What public involvement has already been accomplished and did it illuminate civil rights concerns? and (3) What are the known benefits and burdens of the PVMO program, service, or activity on Title VI populations? Consult the following resources:
   a. Public meeting/hearing transcripts
   b. Written public comments
   c. PVMO staff involved in planning and/or conducting prior related meetings
   d. Project INFO comments
   e. Public meeting demographics surveys

2) Meeting planners should maintain an ongoing dialogue with the individuals and organizations identified in Sections 2.1.3 §§ 3; a; i and 2.1.3 §§ 3; c; i in order to remain well informed on the level of community interest and likely involvement in the public outreach event.

3) The subject matter of transportation-related public engagement can often be based on highly technical studies, project designs that address difficult engineering requirements, multi-faceted long range plans, and other complex documents. In such instances, project managers and meeting planners should create summary documents to present complex information in as simple and clear a manner as possible to members of the public who have widely varying backgrounds, including varied education levels. This guidance document produced by the Navy and Marine Corps Public Health Center gives pointers on writing effective executive summaries of highly technical documents.
http://www.med.navy.mil/sites/nmcphc/Documents/environmental-programs/risk-communication/Appendix_E_AGuideToWritingAnEffectiveExecutiveSummary.pdf. The key points and tips, such as avoiding industry jargon, replacing complex words with simple words, and using acronyms carefully, apply not only to the development of executive summaries, but also the development of documents that effectively convey information to the public.

4) Similarly to #3 above, any spoken presentation of complex topics should be as simple as possible to effectively communicate the subject matter across the varying background of meeting attendees. The guidance document below describes good strategies for presenting technical information to nontechnical audiences. http://www.cedma-europe.org/newsletter%20articles/WorkplaceXpert/Presenting%20Technical%20Information%20to%20Nontechnical%20Audiences%20(Aug%202008).pdf.

5) Ensure that electronic documents related to the subject of the public meeting and intended for public dissemination and review are accessible, in compliance with the Americans with Disabilities Act and Section 508 of The Rehabilitation Act of 1973. [Practice Tip: Adobe Acrobat Professional and Microsoft Word have built-in “accessibility checkers.”] This applies to documents produced by PVMPO staff as well as consultants. Consult the following for instructions on developing accessible documents:

a. Best practices for text and color contrast considerations when preparing hardcopy and electronic visual aids (such as maps, posters, plans, PowerPoint templates/graphics, charts, graphs, etc.) http://li129-107.members.linode.com/accessibility/design/accessible-print-design/

f. General information on accessibility from Adobe: http://www.adobe.com/accessibility/

6) The period between notice dissemination and the meeting date should be used to identify and arrange accommodations and produce meeting materials in alternate languages and formats (such as Braille and large-print), if requested.

   a. Alternate formats can be obtained by contacting:

   b. The nature and extent of accommodations that may be needed can be identified through the following:
      i. Direct requests
      ii. Past experiences, both within the community and at specific meeting locations which can include previously encountered reasonable accommodation and language service requests
         1. Meeting coordinators are required to submit demographic and accommodation summaries to ODCR. You can request this information from ODCR to better understand the past experiences of other meeting planners in the locale of your meeting.
      iii. An understanding of community demographics
      iv. Feedback from community leaders, CBOs, stakeholders, advocacy groups, etc.
      v. PVMPO Accessible Meeting Checklist

   c. Foreign language document translation can be provided by:
      i. UMass Translation Center
      ii. Statewide Language Services Contract
            a. Entities eligible to utilize this contract:
               i. Cities, towns, districts, counties and other political subdivisions;
               ii. Executive, Legislative and Judicial Branches, including all Departments and elected offices therein;
iii. Independent public authorities, commissions and quasi-public agencies;

iv. Local public libraries, public school districts and charter schools;

v. Public hospitals, owned by the Commonwealth;

vi. Public institutions of high education;

vii. Public purchasing cooperatives;

viii. Non-profit, UFR-certified organizations that are doing business with the Commonwealth;

ix. Other states and territories with no prior approval by the State Purchasing Agent required; and

x. Other entities when designated in writing by the State Purchasing Agent.

d. To obtain accessibility accommodations not provided by the venue (Section 2.1.2 §§ 2; c), contact:

i. MassDOT Facilities
   1. Phone: (857) 368-9560
   2. Email: dotgeneralservices@dot.state.ma.us

ii. Metropolitan Planning Organizations

iii. Massachusetts Office on Disability http://www.mass.gov/anf/employment-equal-access-disability/oversight-agencies/mod/

e. If unsure how to provide a particular accommodation or for guidance on recommended accommodations, consult:

i. PVPC Title VI Specialist or if needed the MassDOT Office of Diversity and Civil Rights http://www.massdot.state.ma.us/OfficeofCivilRights.aspx

ii. PVPC Public Relations Specialist

iii. The Massachusetts Office on Disability http://www.mass.gov/anf/employment-equal-access-disability/oversight-agencies/mod/

iv. The Disability Commissions (S:\Civil Rights\ADA\Disability Commissions)

v. The Independent Living Centers http://www.masilc.org/membership/cils

f. Funding Considerations
i. All accommodations must be provided to the public free of charge.

ii. For public outreach events which are necessitated by the project development process, each project contains an administration budget that should be utilized, if available.

3.1.2.5 Meeting Set-Up

1) ADA considerations in public outreach are fully articulated in the PVMPO Accessible Meeting Policy (same as MassDOT) in Section 3.2 below and online at: http://www.massdot.state.ma.us/Portals/0/docs/CivilRights/ADA/Attachment_13.pdf. Meeting setup is addressed in the “Accessibility Checklist for Meeting Planners” which should be used in order to verify the following:

   a. If the main entrance to the building is not accessible, is the accessible entrance unlocked?
   
   b. Are there integrated seating areas for individuals who use a wheeled mobility device in the meeting room? [Practice Tip: Seating areas for individuals with disabilities should not be segregated from the rest of the audience or limited to just one area.]
   
   c. Is there seating available for attendees who are deaf or hard of hearing, and have requested an accommodation, near the front of the meeting room so that attendees may see the interpreter/captioner, or lip read?
   
   d. Is the space allotted to sign language interpreters and/or the CART screen or monitor clearly visible?
   
   e. Are the aisles at least three feet wide and clear of obstacles or tripping hazards?
   
   f. If microphones are used during the public meeting, are adjustable microphone stands available for attendees? Can staff be used as floaters with microphones as an alternative?
   
   g. If the main entrance to the building is not accessible, is there directional signage towards the accessible entrance?
   
   h. Is the accessible entrance unlocked and able to be used independently? If the meeting is taking place at night, is the path leading to the alternate entrance well lit?
   
   i. If a stage or platform will be used during the public meeting, is it accessible?
   
   j. If a podium will be used during the public meeting, is the podium height adjustable? If not, is there a small table (between 28 and 34 inches in height) provided to the side of the podium?
   
   k. Have assistive devices been tested for full functionality immediately prior to the start of the event?
   
   l. Is there directional signage for accessible restrooms and/or emergency exits, if applicable?

2) Title VI considerations can be addressed through the following:
a. Based on identified or likely-to-be-encountered language needs, has signage in other languages been posted?

b. Is the space allotted to foreign language interpreters clearly visible to the entire audience?

c. Has space been given to foreign language interpreters to sit with individuals who need language assistance?

d. Have Title VI related materials been made available at the welcome desk and/or in the meeting packet? [Practice Tip: Assistance is provided at the welcome desk, paying special attention to indications that meeting attendees may have literacy or non-English speaking issues.] This should include:

   ii. Translated versions of the written comment form, as applicable

   iii. Demographics survey (insert link)

3.1.2.6 During the Meeting

1) In the event that this public meeting/hearing is preceded by an open house, please refer to Section 2.2 regarding civil rights considerations in that setting.

2) At the official start of the meeting, make the following statements. If a foreign language translator(s) is present, instruct them to repeat.

   a. (Insert language here when finalized by Title VI Working Group, address: general statement regarding nondiscrimination and availability of language and accessibility accommodations, including assistance in providing written comments and/or filing in forms such as the demographics survey)

   b. Include instructions on site-specific accessibility considerations, such as accessible emergency exits.

   c. Encourage attendees to complete the Demographics Survey, which can be either turned in during the event or mailed to PVMPO after the fact.

3) PVMPO is required to “demonstrate explicit consideration and response to public input” (23 CFR 450.210). During a public outreach event, this requires affording attendees with opportunities to voice comments, questions, and concerns and provide an adequate response at the event or by following up in writing (see Section 2.1.7) or at subsequent public outreach opportunities. [Practice Tip: All PVMPO staff in attendance at open houses and similar informal meetings should take written note of any oral comments made by the public during the meeting and during one-on-one interactions and give this information to the Project Manager as part of post-meeting followup.]
3.1.2.7 Post Meeting

1) All public comments (written and oral), testimonials, and sentiments expressed during the public outreach event have been gathered/documented by PVMPO staff that attended the meeting and passed on to the Project Manager (or designee). [Practice Tip: This can be accomplished through in-person debriefing sessions following the meeting or reviewing the meeting transcript, if available.]

2) Once received, the Project Manager (or designee) catalogues all public comments.

3) The Project Manager is responsible for coordinating responses to public comments. [Practice Tip: Remember: direct impacts require direct communication. 23 CFR 450.210]
   a. Methods of responses can include:
      i. Individualized written responses
      ii. General distribution written statements (web, email, newsletter, newspaper, etc.)
      iii. Postings to project specific website, if available
      iv. In-person or telephonic follow-ups with individuals/organizations regarding the topics of discussion at the public outreach event [Practice Tip: The protocols and tips found in Section 2.4 regarding one-on-one interactions can help you eliminate communication barriers you may encounter.]

   b. The Project Manager (or designee) reviews the public comments to determine which PVMPO staff should be consulted with or assigned the responsibility of drafting a response that “demonstrate[s] explicit consideration... to public input” (23 CFR 450.210).

4) In instances where PVMPO will draft a written response to a public comment, the content of the response itself can “demonstrate explicit consideration” by:
   a. Describing changes to the recommended design prompted/requested by the comment and how they will be considered
   b. Describing alternate designs prompted/requested by the comment and how they will be considered
   c. Describing mitigation measures prompted/requested by the comment and how they will be considered
   d. Describing the PVMPO program areas that were consulted in formulating the response
   e. Noting whether the comment is novel or previously encountered
   f. Noting whether the comment has been received from a multitude of sources

5) Responses should also contain:
   a. Contact information for additional information and follow-up
b. Notice of upcoming related public engagement opportunities

6) The Project Manager should note, through Project INFO “comments,” civil rights considerations encountered through the planning and conducting of the outreach event, such as translation requests or foreign languages encountered. [Practice Tip: For projects that have received a Project INFO number, the “comments” section can be used to highlight civil rights related comments or concerns from the public. The document database for these projects can also be used to store scans of comment forms.]

7) The community leaders identified in Section 2.1.1 §§ 3 should be thanked for their assistance/efforts with a call or written correspondence.

### 3.1.3 Open Houses

#### 3.1.3.1 Title VI Considerations

1) “I Speak” language cards have been provided at the welcome desk.  

2) If PVMPO is providing interpretive services at the public meeting/hearing session, then they should also be available during the open house session and their availability should be made clear through signage and/or announcements. [Practice Tip: Those running the meeting should ask interpreters to announce their presence and the availability of their services several times during the open house.]

3) After the session, PVMPO staff and consultants in attendance should relay the nature of questions and concerns identified through interaction with the public to the Project Manager (or designee). [Practice Tip: It is important for PVMPO staff working on all stages of project development to know community concerns. Sometimes these are made evident during informal open house interactions. Just because they don’t make it onto a public hearing transcript doesn’t mean we don’t have an obligation to be aware of them and respond accordingly.]

4) Written descriptions of items on display may need to be translated depending on requests received and/or the anticipated level of LEP participation.

#### 3.1.3.2 ADA Considerations

1) The open house should be set up in an ADA compliant manner. Please see the PVMPO Accessible Meeting Policy in Section 3.2 below or online at:  
   [http://www.massdot.state.ma.us/Portals/0/docs/CivilRights/ADA/Attachment_13.pdf](http://www.massdot.state.ma.us/Portals/0/docs/CivilRights/ADA/Attachment_13.pdf)

2) Consider the following when setting up the open house venue:
   
   a. Consult the following guide on best practices for text and color contrast considerations when preparing hardcopy and electronic visual aids (such as maps, posters, plans, PowerPoint templates/graphics, charts, graphs, etc.)  
Tip: Choose color schemes that are least likely to be problematic for individuals with common types of color blindness and visual impairments.

b. Pathways that guide attendees to display materials or PVMPO staff and consultants should be clear of obstructions. [Practice Tip: Rule of Thumb: remove tripping hazards (such as electrical cords) and keep the pathway at least 3’ wide.]

c. Proper heights and viewing angles of display materials to make them accessible. [Practice Tip: Rules of Thumb: For display materials mounted on the wall, they should be no higher than 48” from the floor and provide clear floor space 30” wide and 48” wide. For tabletop displays, the table should be between 28 and 34” inches in height and there should be at least 27” of knee space from the floor to the underside of the table.]

d. Horizontal surfaces used for display should be at a height accessible to individuals that are short of stature and/or rely on assistive mobility devices.

e. Similarly, materials displayed vertically should not be at an excessive height nor at an angle that makes them difficult to view.

3) PVMPO staff and consultants should be prepared to describe displays to blind or visually impaired attendees.

4) Alternate versions (Braille, large print, etc.) of public documents (such as informational packets) should be available if requested.

3.1.4 Targeted Outreach Gatherings (Small Group Meetings/Committees/Task Forces/Studies)

3.1.4.1 Strategic Planning for Title VI Group and Individual Inclusion

Strategic planning for the involvement of Title VI community members on special purpose meeting groups or committees is essential to an inclusive and successful effort. Engaging the public in a targeted context is complex, political and always challenging, and ensuring diverse participation adds even more difficulty to meeting this objective.

Preliminary Steps:

1) Identify and analyze the location affected by the project or initiative at issue to determine the Title VI populations in the area.

2) Establish a clear objective and role for the envisioned targeted group, including the nature of community involvement and particular skills which may be needed for fruitful discussion or deliberations.

3) Create an outline or public participation matrix to identify the different types of community representation and interests that reflect the community affected by a project or initiative with careful attention to Title VI populations. Types of organizations or interests that may include representatives of Title VI populations:

   a. transit-dependent community
b. affected businesses

c. civic organizations (women, seniors, youth, people with disabilities)

d. freight interests

e. the disability community

f. neighborhood association

g. schools

h. churches

Beyond demographic data and identification of the types of Title VI related groups or individuals in the community, there are certain key questions to help define the individuals or groups to invite. Consider meeting with a small group of internal staff and/or managers from among key PVMPO departments who know the community and who can help answer these key questions:

1) Who can represent these diverse groups and constituencies in a credible and responsible way?

2) Who needs to be at the table for the work to be accomplished?

3) What is the history of relationships between stakeholder representatives and groups? Is there any past tension that may be a deterrent to participation? If so, are there other community leaders who could help mediate to encourage participation despite differences?

4) If known from past experience, are there stakeholders critical to the process who may be reluctant to participate? How can this reluctance be alleviated? What would be the impact of their refusal to participate in the process? Is there an alternative to their participation?

5) What commitments do you want from participants?

6) Other than known stakeholders, what other individuals or groups could have an interest in the project that are not in the immediate project area, and/or are not otherwise represented in the outreach strategy?

7) Do any necessary parties have possible concerns about participating? How can those concerns be alleviated?

8) Do you have natural allies on an issue? Natural adversaries?

3.1.4.2 Consult MassDOT Resources

MassDOT vast prior experience in communities across the Commonwealth, and significant corporate knowledge of local groups, key individuals and community issues or concerns that can help answer these questions. The following should be considered a resource for consultation when needed:

1) Office of Diversity and Civil Rights (which does a range of outreach across the Commonwealth, responds to complaints and works with key Title VI leadership on transportation matters in contracting and employment)
2) MassDOT Office of Transportation Planning (which conducts significant long-range studies that engage the public and builds knowledge of communities and has access to, and key relationships with, the Metropolitan Planning Organizations in all regions of Massachusetts)

3) MassDOT District 1 and District 2 Offices. (D1 and D2 work directly with project proponents, especially municipally proposed projects)

4) Use the MassDOT Title VI interactive mapping tool (currently under development) to identify community organizations that are associated with Title VI community members and interests

There may be other sources of contact in additional departments or Divisions that may have had experience with a location and or community representatives, which could also be helpful to explore.

### 3.1.4.3 Consult Statewide Resources

1) Reach out at the state level for help in identifying and possibly supporting our outreach to potential Title VI related groups and individuals to contact. These resources may also have particular information that is important to know about the locality, its history and community challenges or controversy which may be critical to support your outreach:

   a. Administration and Finance – Office of Access and Opportunity

      Office of Access & Opportunities
      State House, Room 373, Boston, MA 02133
      Phone: (617) 727-2040

   b. Massachusetts Office on Disability

      One Ashburton Place #1305
      Boston, MA 02108
      (617) 727-7440 or (800) 322-2020 toll free (both V/TTY)

### 3.1.4.4 Conduct Targeted Research on the Leads you Gather

Conduct a Google-type search on the communities involved and the groups and individuals who have been identified. This effort is potentially time consuming, but will both educate the meeting convener and potentially identify “landmines” that could complicate the effort to organize a group.

Tip: In carrying out this task, it is useful to limit searches which can be done through linking key words to a query such as a year, a past issue or individual words like “bio,” “biography,” “background,” “transportation,” “complaint” and the like.

If a meeting planner is not aware of the racial, ethnic or national origin background of the individual or group being engaged, it is similarly possible to research Title VI groups individually, using query strings to the group or individuals and Massachusetts, the regional area or the locality where the group or individual is based. This information is useful in gaining a basic understanding of traditions.
and holidays which may impact participation, through to a more thorough understanding of complex considerations like values, beliefs and relationship to government and/or transportation.

### 3.1.4.5 Reaching out to Potential Title VI Group Members – Anticipating Potential Obstacles to Participation

1) Outreach approaches:
   
   i. Look for formal and informal opportunities to engage, collaborate, and build relationships, including calls of introduction made by volunteers you identify who are trusted in the community.
   
   ii. Use multiple outreach methods and do not rely on e-mail or websites alone
   
   iii. Tailor materials to the audience, including translations
   
   iv. Identify existing channels of communication through communities
   
   v. Experiment and reflect on the effectiveness of new approaches

In Title VI communities, there are a range of factors leading to reluctance to participate for individuals and groups that could be helpful in a transportation planning or development process. For example, many times natural leaders are either the heads or well-placed leaders of agencies or community groups; this limits their ability to participate because there are many demands on their time, resources and commitment.

2) Think through and identify the factors which would encourage participation and involvement before reaching out, to be in the best position to explain how it is important for this individual or group to participate. If there is a possibility of grant funding to support participating groups, this can certainly provide an incentive for participation, but such ideas should only be shared if the possibility is real.

3) The following are some common barriers to participation, and reasonable responses that a meeting planner should anticipate, understand and be able to articulate to encourage potential participants to get involved:

   a. **Limited English language skills and/or limited literacy** – it is first important to know that PVMPO has the ability and obligation to fund translation and interpretation support and to convey this message. It would be ideal to have a colleague or staff person who speaks the language or is of the culture in question to support the outreach effort, or to use a translator as an intermediary.

   b. **Lack of trust due to past experiences** – it is important to be in a position to respond with as much information as will demonstrate that both participation and the project are being honestly and openly addressed.

   c. **Lack of experience with transportation decision making processes** – if this process is not well understood or the meeting convener has a difficult time explaining the process, it is important to have a representative from Planning involved to explain the process.
d. Economic barriers – (such as transportation costs and work schedules) meetings should be sited in the community to avoid cost factors, and they should be timed to meet the schedule of the majority of participants, after due consideration of all schedules, alternatives and needs.

e. Cultural barriers – there may be intergroup dynamics that make bringing groups together problematic due to class, racial ethnic or political differences. Early research will help build understanding of this possibility, and suggest whether a mediated way of bringing the groups together is an option, or there is a need to have separate meetings.

f. Common barriers – time, other demands. The key to this element is making sure that the importance of an effort is clear and well stated to the candidate, including the benefit to an individual or group representative being recruited.

3.1.4.6  Responding to a Refusal to Participate from a Potential Title VI Participant

1) If a person or group declines to participate in a particular effort, it is important not to get frustrated but instead to handle the refusal diplomatically because that same group might be the subject of an outreach effort in the future, and may wish to participate on another occasion.

2) In responding to a decision not to participate, thank the person or group for considering the invitation and suggest that they might accept an invitation for a different opportunity in the future. In this way, no feelings are hurt, doors are left open and the person or group remains feeling that they are valued in the future.

3) Consider sending the individual or organizations updates on the effort that are sent to others. This effort could be informative and demonstrate a good faith effort to be inclusive.

3.1.4.7  Documenting the Effort to Achieve Diversity and Next Steps

It may be impossible to achieve a perfectly diverse committee for purposes of transportation planning, given the difficulty of recruitment and obstacles to participation. Simply put, the concept of diversity in transportation planning is elastic - it will change based on the geographic location, the issue under study or discussion or the nature of the need for input. Nonetheless, our federal partners, and even community members will expect to know about our efforts and may wish to question whether PVMPO truly conducted outreach for Title VI inclusion purposes. For Title VI purposes, this documentation is good evidence of the opportunity that was given to the public, such that complaints after the fact about the lack of inclusion can be responded to. Our Title VI obligation requires us to provide an equal opportunity to participate in transportation planning exercises and ultimately, it is an exercise in trying and proving that PVMPO has been thoughtful and reached out effectively to increase diversity in our community engagement.
For purposes of proving that an outreach effort was genuine and reached out to diverse communities, there are steps that the meeting convener or planner should take:

1) The meeting planner should keep a file on available resources and methods used to identify individuals and groups, the nature of the outreach effort, the people invited and the results of a recruitment effort. Possible resources:
   a. Lists of potential invitees who were considered and/or accepted
   b. Samples of research conducted and/or consultations made for recruitment
   c. Copies of invitation e-mails or other correspondence
   d. Group membership lists, with indications of the Title VI communities represented
   e. Meeting sign in sheets
   f. Correspondence from invited individuals

2) The meeting planner should make the list of actual participants easily available and strive to secure a means for the public to reach out to these individuals should they have questions, comments or concerns that they may not be willing to air publicly.

3) Meeting planners should plan to discuss with the members of the group that is ultimately recruited the efforts made to reach out and recruit individuals, including the potential need that may remain after the fact for additional participation by certain Title VI group members or related organizations.

4) Effective management of the group that is ultimately formed is key to the productivity and longevity of relationships with Title VI community members. Following-through with stakeholders to demonstrate that input was considered and/or had an impact on project parameters, study outcomes, and planned activities can demonstrate to participants the value added to their interests and communities through continued involvement in these activities.

3.1.5 One-on-One Interactions

3.1.5.1 Communicating with Individuals with Limited English Proficiency (LEP)

If a member of the public is attempting to interact with you but there is a language barrier, the following procedures are recommended based on the types of interactions.

1) In-person (such as PVMPO reception areas)
   a. The first step is to identify the preferred language of the individual. The following resources are available:
      ii. Google Translate (http://translate.google.com/) or a similar real-time free online language translator can be used to identify the language. [Practice Tip:If the member
of the public is directed to type (or speak into the computer's microphone, if available) on the webpage in a language other than English, the software can "Auto-Detect" which language is being used and provide real-time translations. Please note that the accuracy and effectiveness of these translation systems is not complete and should not be relied on as an exclusive means of providing language access to LEP individuals.

iii. Assistance from co-workers in your unit that may be able to identify the language.

iv. (Note: MassDOT is currently procuring the services of a firm that will be providing telephonic real-time interpretation. When finalized, that information will be included here for use in this context.)

b. Once the language has been identified, the methods you use to address the needs of the individual will change depending on the circumstances.

i. You may be able to address simple inquires informally on-the-spot with the aid of multi-lingual staff or Google Translate (http://translate.google.com/) or a similar product. [Example: providing directions around the building/office to an LEP individual.]

1. If you work in one of the PVPC sections that has been surveyed for multi-lingual staff refer to the corresponding database to identify a co-worker that can assist. [Practice Tip: Assisting in this way is purely voluntary and the nature of the communication should be incidental.]

   a. DC3\transportation\MPO\Title VI\PVPC_staff directory

2. An employee and an LEP individual can type or speak into Google Translate software and carry out a rudimentary conversation. This should remain limited to incidental interactions.

ii. If the conversation turns to more complex issues or you have reached the limitations of the technology or your knowledge of the subject at issue, the PVMPO staffer providing informal translations or Google Translate should inform them that professional language services are available that may be better suited to meeting their need. More complex issues may require professional translators/interpreters. [Example: An LEP individual who needs assistance to engage in the complaint resolution process or to participate in a PVMPO program, service, or activity that requires an application process. Complex issues are those that affect the legal rights of the individual and therefore depend on the accuracy of translations/interpretations. The following services are available in those instances:]

1. (Note: MassDOT is currently procuring the services of a firm that will be providing telephonic real-time interpretation. When finalized, PVPC staff will inquire as to availability of use for PVMPO related tasks)

2. Statewide Language Services Contract

b. Entities eligible to utilize this contract:
   i. Cities, towns, districts, counties and other political subdivisions;
   ii. Executive, Legislative and Judicial Branches, including all Departments and elected offices therein;
   iii. Independent public authorities, commissions and quasi-public agencies;
   iv. Local public libraries, public school districts and charter schools;
   v. Public hospitals, owned by the Commonwealth;
   vi. Public institutions of high education;
   vii. Public purchasing cooperatives;
   viii. Non-profit, UFR-certified organizations that are doing business with the Commonwealth;
   ix. Other states and territories with no prior approval by the State Purchasing Agent required; and
   x. Other entities when designated in writing by the State Purchasing Agent.

iii. Should you require time to secure professional language services (such as scheduling a meeting with an interpreter or sending out documents to be translated) then you should try to make this clear to the individual on-the-spot with the aid of multilingual staff or Google Translate. [Practice Tip: Using Google Translate to convey this information allows you to include details such as expected turnaround times, meeting dates and locations, and contact information.]

2) Over the Phone

3) If you are unable to identify the language of the caller and/or you do not work in a fellow staff person that can provide a translation, contact the Title VI Specialist.

4) Electronically (includes email, website comment form, etc.)
   a. If you receive such correspondence in a language other than English, use Google Translate ([http://translate.google.com/](http://translate.google.com/)) or similar product to determine the language and nature of the interaction

   b. Once the language and the nature of the interaction has been identified, the methods you use to address the needs of the individual will change depending on the circumstances.
i. You may be able to address simple inquiries informally with the aid of multi-lingual staff or Google Translate (http://translate.google.com/) or a similar product. [Example: emailing a link to requested web content.]

1. Refer to the corresponding database to identify a co-worker that can assist.

ii. If the conversation turns to more complex issues or you have reached the limitations of the technology or your knowledge of the subject at issue, the PVMPO staffer providing informal translations or Google Translate should inform them that professional language services are available that may be better suited to meeting their need. More complex issues may require professional translators/interpreters. [Practice Tip: Complex issues are those that affect the legal rights of the individual and therefore depend on the accuracy of translations/interpretations.] [Example: An LEP individual who needs assistance to engage in the complaint resolution process or to participate in an activity that requires an application process. The following services are available in those instances:

1. Statewide Language Services Contract
   b. Entities eligible to utilize this contract:
      i. Cities, towns, districts, counties and other political subdivisions;
      ii. Executive, Legislative and Judicial Branches, including all Departments and elected offices therein;
      iii. Independent public authorities, commissions and quasi-public agencies;
      iv. Local public libraries, public school districts and charter schools;
      v. Public hospitals, owned by the Commonwealth;
      vi. Public institutions of high education;
      vii. Public purchasing cooperatives;
      viii. Non-profit, UFR-certified organizations that are doing business with the Commonwealth;
      ix. Other states and territories with no prior approval by the State Purchasing Agent required; and
      x. Other entities when designated in writing by the State Purchasing Agent.
3.1.5.2 Communicating with People with Disabilities

1) Outlined below are tips to help you in communicating with persons with disabilities. [Practice Tip: For more information visit: http://www.labor.state.ny.us/workforcenypartners/forms/communication.pdf.]

   a. General Tips:
   
   i. When introduced to a person with a disability, it is appropriate to offer to shake hands. People with limited hand use or who wear an artificial limb can usually shake hands. (Shaking hands with the left hand is an acceptable greeting.)
   
   ii. If you offer assistance, wait until the offer is accepted. Then listen to or ask for instructions.
   
   iii. Relax. Don't be embarrassed if you happen to use common expressions such as "See you later," or "Did you hear about that?" that seem to relate to a person's disability.
   
   iv. Don't be afraid to ask questions when you're unsure of what to do.

   b. Tips for Communicating with Individuals who are Blind or Visually Impaired:
   
   i. Speak to the individual when you approach him or her.
   
   ii. State clearly who you are; speak in a normal tone of voice.
   
   iii. When conversing in a group, remember to identify yourself and the person to whom you are speaking.
   
   iv. Never touch or distract a service dog without first asking the owner.
   
   v. Tell the individual when you are leaving.
   
   vi. Do not attempt to lead the individual without first asking; allow the person to hold your arm and control her or his own movements.
   
   vii. Be descriptive when giving directions; verbally give the person information that is visually obvious to individuals who can see. For example, if you are approaching steps, mention how many steps.
   
   viii. If you are offering a seat, gently place the individual's hand on the back or arm of the chair so that the person can locate the seat.

   c. Tips for Communicating with Individuals who are Deaf or Hard of Hearing:
   
   i. Gain the person's attention before starting a conversation (i.e., tap the person gently on the shoulder or arm).
   
   ii. Look directly at the individual, face the light, speak clearly, in a normal tone of voice, and keep your hands away from your face. Use short, simple sentences.
iii. If the individual uses a sign language interpreter, speak directly to the person, not the interpreter.

iv. If you telephone an individual who is hard of hearing, let the phone ring longer than usual. Speak clearly and be prepared to repeat the reason for the call and who you are.

d. Tips for Communicating with Individuals with Mobility Impairments:

i. If possible, put yourself at the wheelchair user's eye level.

ii. Do not lean on a wheelchair or any other assistive device.

iii. Never patronize people who use wheelchairs by patting them on the head or shoulder.

iv. Do not assume the individual wants to be pushed — ask first.

v. Offer assistance if the individual appears to be having difficulty opening a door.

vi. If you telephone the individual, allow the phone to ring longer than usual to allow extra time for the person to reach the telephone.

e. Tips for Communicating with Individuals with Speech Impairments:

i. If you do not understand something the individual says, do not pretend that you do. Ask the individual to repeat what he or she said and then repeat it back.

ii. Be patient. Take as much time as necessary.

iii. Concentrate on what the individual is saying.

iv. Do not speak for the individual or attempt to finish her or his sentences.

v. If you are having difficulty understanding the individual, consider writing as an alternative means of communicating, but first ask the individual if this is acceptable.

f. Tips for Communicating with Individuals with Cognitive Disabilities:

i. If you are in a public area with many distractions, consider moving to a quiet or private location.

ii. Offer assistance completing forms or understanding written instructions and provide extra time for decision-making. Wait for the individual to accept the offer of assistance; do not "over-assist" or be patronizing.

iii. Be patient, flexible and supportive. Take time to understand the individual and make sure the individual understands you.

3.2 PVMPO Accessible Meeting Policy

3.2.1 Purpose

This policy outlines criteria that must be fulfilled in order to ensure that all PVMPO public meetings are fully accessible to persons with disabilities. This document will also address issues related to attendees with limited English proficiency.

The ability to access and participate in state government, including participating in public meetings, is a fundamental right protected by both State and Federal law. The Massachusetts Public Accommodation Law and the Americans with Disabilities Act mandate that persons with disabilities must not be denied participation in public meetings, and that reasonable accommodation requests made by attendees shall be honored. For these reasons, when planning and executing public meetings, PVMPO personnel must ensure that all aspects of the meeting are accessible to persons with disabilities.

Under Title VI of the Civil Rights Act of 1964 and Commonwealth Executive Order 526, PVMPO must also ensure that programs and activities do not discriminate based on race, color or national origin, age, disability and sex, among other protected categories. A public participation plan is being developed for Title VI purposes, which should be consulted by meeting planners in coordination with this Accessible Meeting Policy to ensure that PVMPO includes Title VI constituencies in transportation programs and activities. The method for determining whether and/or what non-English languages need to be translated or interpreted is called a “four factor analysis.” See 2.1.6. Essentially, to determine whether translation is needed, meeting planners must analyze the number of limited English proficiency persons (LEP) by language group where a meeting will be held, the frequency of contacts with the program, the importance of the program and cost factors.

This document will provide guidelines for ensuring the accessibility of public meetings hosted by PVMPO. Components such as the meeting location, room setup, alternate formats and translations of handouts, and the requirement to provide CART and/or sign language and/or foreign language interpreters upon request will be discussed.

3.2.2 Definitions

3.2.2.1 Public Meeting

Any meeting open to the general public, hosted by or on behalf of the PVMPO, during which information is shared.

3.2.2.2 Attendee

An individual attending a public meeting.

3.2.2.3 Reasonable Accommodation

Any reasonable service, aid, modification or adjustment to the public meeting that gives a person with a disability the opportunity to be an active participant in the meeting process.
3.2.2.4 Path of Travel
A continuous, unobstructed way of pedestrian passage by means of which an area may be approached, entered, and exited.

3.2.2.5 TTY (Text Telephone)
An electronic device for text communication via a telephone line, used when one or more of the parties has a hearing or speech-related disability. Public payphones equipped with TTY have a small keyboard that pulls out underneath the phone. Note: TTYs are gradually phasing out for many people due to the increased use of voice and video relay, but they will remain in use for some period into the future.

3.2.2.6 Clear floor space
The minimum unobstructed floor or ground space required to accommodate a single, stationary wheelchair and occupant.

3.2.2.7 Wheeled mobility device
Means by which some individuals with physical disabilities travel throughout their environment. Commonly refers to such devices as wheelchairs (manual and motorized) and scooters. Non-traditional wheeled mobility devices may include Segways and bicycles.

3.2.2.8 American Sign Language (ASL) Interpreter
An individual trained to facilitate communication between a deaf American Sign Language user and hearing individuals via American Sign Language.

3.2.2.9 Assistive Listening Device
An electronic device used by individuals who are hard of hearing to amplify sound. The assistive listening device is usually used as a system where the audio source is broadcast wirelessly over an FM frequency. The person who is listening may use a small FM Receiver to tune into the signal and listen at their preferred volume. There are other forms of Assistive Listening Devices that exist and could be used as alternatives.

3.2.2.10 CART (Computer Assisted Real-time Transcription)
A trained operator uses keyboard or stenography methods to transcribe spoken speech into written text. This may be done either on site or remotely by using a voice connection such as a telephone, cell phone, or computer microphone to send the voice to the operator and the real-time text is transmitted back over an Internet connection. For meeting rooms without an internet connection, it is possible to establish connectivity via a WIFI router connection or by using a wireless “hot spot.”

3.2.2.11 Video Remote Interpreting
A contracted video service that allows individuals who are Deaf to communicate over webcams/video phones with hearing people in real-time, via a sign language interpreter.
3.2.12 Video and Telecommunication (Voice) Relay Services

Video Relay Service (VRS) is a form of Telecommunications Relay Service (TRS) that enables persons with hearing disabilities who use American Sign Language (ASL) to communicate with voice telephone users through video equipment, rather than through typed text. Video equipment links the VRS user with a TRS operator – called a “communications assistant” (CA) – so that the VRS user and the CA can see and communicate with each other in signed conversation. The VRS caller, using a television or a computer with a video camera device and a broadband (high speed) Internet connection, contacts a VRS CA, who is a qualified sign language interpreter. They communicate with each other in sign language through a video link. The VRS CA then places a telephone call to the party the VRS user wishes to call. The VRS CA relays the conversation back and forth between the parties – in sign language with the VRS user, and by voice with the called party. No typing or text is involved.

Telecommunications Relay Service (TRS) is a telephone service that allows persons with hearing or speech disabilities to place and receive telephone calls. TRS uses operators, called communications assistants (CAs), to facilitate telephone calls between people with hearing and speech disabilities and other individuals. A TRS call may be initiated by either a person with a hearing or speech disability, or a person without such disability. When a person with a hearing or speech disability initiates a TRS call, the person uses a teletypewriter (TTY) or other text input device to call the TRS relay center, and gives a CA the number of the party that he or she wants to call. The CA in turn places an outbound traditional voice call to that person. The CA then serves as a link for the call, relaying the text of the calling party in voice to the called party, and converting to text what the called party voices back to the calling party. VRS and TRS are overseen by the Federal Communications Commission and private contractors who perform the intermediary communication service are reimbursed for this service.

3.2.13 Closed Captioning

A term describing several systems developed to display text on a television, computer or video screen to provide additional or interpretive information to viewers/listeners who wish to access it. Closed captions typically display a transcription of the audio portion of a program (either verbatim or in edited form), sometimes including non-speech elements.

3.2.14 Descriptive Video/Described Narration

A feature that makes television programs, videos, films, and other visual media accessible to people who are blind or visually impaired by providing descriptive narration of key visual elements in programs. Key visual elements in a program that a viewer who is visually impaired would ordinarily miss are described by voice. Actions, costumes, gestures and scene changes are just a few of the elements that, when described, engage the blind or visually impaired viewer with the story.

3.2.15 Limited English Proficient (LEP)

Individuals who do not speak English as their primary language and who have a limited ability to read, speak, write, or understand English can be limited English proficient, or “LEP.” These individuals may be entitled to language assistance with respect to a particular type of service, benefit, or encounter.
3.2.16 Four Factor Analysis

Federal DOT guidance outlines four factors recipients should consider to assess language needs and decide what steps they should take to ensure meaningful access for LEP persons:

1) The number or proportion of LEP persons eligible to be served or likely to be encountered by a program, activity, or service of the recipient or grantee.

2) The frequency with which LEP individuals come in contact with the program.

3) The nature and importance of the program, activity, or service provided by the recipient to the LEP community.

4) The resources available to the PVMPO and overall cost.

In each instance, this analysis will enable PVMPO staff to determine the extent of language assistance that must be provided to enable LEP individuals to participate in a program or activity. For further information, including answers to specific situations that meeting planners may encounter, planners should consult the ADA Coordinator, the Title VI Specialist and/or the Language Access Plan.

3.2.17 Vital Document

A vital document is determined by the context of a program, service or activity, and can include but not be limited to an application, notice, complaint form, legal contract, and outreach material published by a covered entity in a tangible format that informs individuals about their rights or eligibility requirements for benefits and participation.

3.2.18 Language Access Plan

Under Federal Executive Order 13166, each Federal agency is required to prepare a plan to improve access to its federally conducted programs and activities by eligible LEP persons. Each plan is required to be consistent with the standards set forth in related guidance, and shall include the steps the agency will take to ensure that eligible LEP persons can meaningfully access the agency's programs and activities. Just as federal agencies must have LEP Plans, as a condition of receiving federal financial assistance, they must establish guidelines for recipients such as PVMPO to comply with Title VI and LEP requirements, including the provision of language assistance, as needed.

3.2.3 Scope

All public meetings hosted by, or on behalf of, PVMPO.

3.2.4 Responsibilities

It is the responsibility of the PVMPO staff or Department(s) charged with the coordination of the public meeting to ensure that the public meeting is accessible to all. The local contacts for the meeting facility, in conjunction with the responsible PVMPO staff, are responsible for filling out the “Accessibility Checklist for Meeting Planners” in Attachment 6.1 to ensure the space is accessible prior to the meeting.
3.2.5 Policy

1.1 General Considerations

1.1.1 Public meeting planners shall identify at least one person who is responsible for making sure that the public meeting is accessible for all attendees. This individual shall serve as the contact for attendees requesting reasonable accommodations. See, Attachment 6.1 for a Checklist for Meeting Planners.

1.1.2 Public meetings should be planned and publicized as early as possible—ideally, at least 30 calendar days, but no less than 14 days in advance.

1.1.2.1 Meeting notices should include a date by which attendees should request reasonable accommodations—typically ten days before the meeting.

Note: After the cutoff date, staff must still try to provide an accommodation but should not guarantee the provision of the requested accommodation. Since it is so difficult to schedule CART and/or sign language interpreters with less than 2-3 weeks’ notice, most meetings should be publicized with 30 days’ notice. This allows attendees ample opportunity to request and receive appropriate reasonable accommodations.

1.1.3 Attendees shall not be charged for any reasonable accommodation provided.

1.2 Choosing a Location

1.2.1 Access to Nearby Transportation. All public meetings shall be within ¼ mile of an accessible bus stop or rail station, where feasible.

1.2.1.1 The path of travel from the transit stop to the meeting location shall be accessible. Specifically, it should be:

1.2.1.1.1 At least three feet wide
1.2.1.1.2 Unobstructed (not blocked by trash cans, light poles, etc.)
1.2.1.1.3 Free of steps, drop-offs or curbs

1.2.2 Parking. If parking is available to meeting attendees, meeting planners shall ensure that the number of accessible parking spaces available complies with state and Federal regulations. See, Attachment 6.2 for state and Federal regulations regarding accessible parking.

1.2.2.1 The path of travel from the accessible parking to the meeting location shall be accessible. Specifically, it shall be:

1.2.2.1.1 At least three feet wide
1.2.2.1.2 Unobstructed (no trash cans, light poles, etc.)
1.2.2.1.3 Free of steps, drop-offs or curbs
1.2.3 Identifying the Accessible Entrance. If the main entrance to the building (in which the public meeting is being held) is not the accessible entrance, a sign containing the universal symbol of accessibility with an arrow appropriately pointing to the accessible entrance shall be posted at the main entrance.

1.2.4 Ensure the alternate accessible entrance is unlocked and available to be used independently and that the path of travel to the alternate entrance is well lit (if the meeting is taking place at night). If the door is locked and intercom service or another format is used to gain access, an attendant must be at the door to accommodate deaf or hard of hearing individuals, as well as others with disabilities.

1.2.5 Accessible Restrooms. If restrooms are available for use by the public then all public meetings shall have at least one accessible restroom for men and one accessible restroom for women, or one accessible gender neutral restroom. See, Attachment 6.3 for state and Federal regulations regarding accessible restrooms.

1.2.5.1 The accessible restrooms shall be within reasonable proximity to the meeting room.

1.2.6 Accessible Telephones. If two or more public payphones are available at the meeting facility, at least one should be:

1.2.6.1 Equipped with TTY

1.2.6.2 Mounted no higher than 48” from the floor and provide clear floor space 30” wide and 48” wide (so that attendees using wheeled mobility can properly access the phone).

1.2.6.3 PVMPO should notify the facility owner if the facility does not comply with the accessible telephone requirement.

1.2.7 The Meeting Room: The meeting room in which the public meeting will take place shall be made accessible for persons with disabilities. The following shall be provided:

1.2.7.1 An integrated seating area for wheeled mobility device users shall be made available.

1.2.7.1.1 If possible, meeting planners should remove several chairs to accommodate potential attendees who use wheeled mobility devices.

Note: Remove a chair to the side and to the rear of the designated space to ensure enough room for the wheeled mobility device.

1.2.7.1.2 Such spaces for wheeled mobility device users shall be dispersed throughout the room, and not clustered all in one section (e.g. all in the front or all in the back). This allows attendees using wheeled mobility a variety of seating/viewing options.
1.2.7.2  Space for Sign Language, CART and Foreign Language Interpreters

1.2.7.2.1  A well-lit area and chairs facing the audience shall be made available for sign language interpreters at the front of the room (likely just off to one side of the main presentation area). If a CART provider is to be used, a small table for the laptop and space for a screen and projector should be provided near an electrical outlet.

1.2.7.2.2  Priority seating at the front of the audience and in direct line of sight of the interpreters/CART provider shall be provided for attendees who are deaf/hard of hearing.

1.2.7.2.3  For foreign language interpreters, there is a need for space where they can sit with the individuals who require language assistance.

1.2.7.3  Aisles within the meeting room shall be

1.2.7.3.1  Clear of tripping hazards (e.g. electric cords).

1.2.7.3.2  At least 3 feet wide.

1.2.7.4  Microphones. The microphones used at public meetings shall be available on a stand that is adjustable in height.

Note: While wireless microphones have become popular, some attendees with disabilities will not be able to hold a microphone independently. In this situation, allowing an attendee use of a microphone stand adjusted to their height is almost always preferable to holding the microphone for them. Alternatively, and particularly for larger meetings, staff with a floating microphone would be preferable to facilitate communication.

1.2.7.5  Podiums. If any attendee may have an opportunity to speak at a podium, meeting planners shall ensure that either:

1.2.7.5.1  The podium is height adjustable, or

1.2.7.5.2  A small table is provided to the side of the podium.
   1.2.7.5.2.1  The table shall be between 28 and 34” inches in height.
   1.2.7.5.2.2  There shall be at least 27” of knee space from the floor to the underside of the table.
   1.2.7.5.2.3  If a microphone is provided at the podium, one shall also be provided at the small table.

1.2.7.6  Raised Platforms. If any attendee may have an opportunity to move onto a raised platform or stage during the meeting, the raised platform or stage shall be accessible by:

1.2.7.6.1  A ramp that
   1.2.7.6.1.1  Is at least 3 feet wide.
   1.2.7.6.1.2  Does not have a slope that exceeds 1/12.
1.2.7.2 Platform lift

1.2.7.7 High Speed internet Connection. Public meeting rooms shall provide for a high speed internet connection to allow attendees who rely on video remote interpreting or CART. There should also be a conference capable telephone with a speakerphone function available.

1.3 American Sign Language and Foreign Language Interpreters, Assistive Listening Devices, CART and Video Remote Interpreting.

1.3.1 American Sign Language and/or foreign language interpreters shall be provided at all public meetings upon request. See, Attachment 6.4 for information on how to request an interpreter.

1.3.1.1 To ensure their availability, interpreters should be requested at least two weeks in advance of the public meeting.

1.3.1.2 The cost associated with providing sign language or foreign language interpreters shall be paid for by the Department hosting the event.

1.3.2 Assistive Listening Devices. Assistive Listening Devices for attendees who are hard of hearing shall be provided at all public meetings upon request. See, Attachment 6.5 for information on how to provide assistive listening devices.

1.3.3 CART services shall be provided at all public meetings upon request (See Attachment 6.6 for information on how to provide CART services.). Staff should schedule or make requests for CART services at least two weeks in advance of the meeting, and preferably as soon as an attendee makes this need known. When remote CART services are to be used (the CART reporter is not in the room), staff should try to provide the reporter any technical terms or acronyms to be used, as well as the names of key meeting attendees before the meeting date.

1.3.4 Video Remote Interpreting shall be provided at all public meetings upon request via a computer/laptop with a webcam and high speed internet connection.

Note: Video Remote Interpreting is a relatively new form of technology and may be an adequate alternative to providing ASL interpreters in certain situations. However, if an attendee requests Video Remote Interpreting, ASL interpreters will be an adequate substitute, if the meeting planner cannot secure the requested technology.

1.4 Alternative Formats and Translation of Handouts/Presentation Material

Large print versions of all printed material shall be available at all public meetings. If requests for additional alternative formats are made in advance of the meeting (within the timeframes below), these formats must be available for the start of the meeting. If requests for alternative formats are made at or following the meeting, the alternative format must be provided within seven days of the request.
These requirements are the same with respect to translation into foreign languages, where the language requested is identified through application of the four factor analysis process, set forth in the PVMPO Title VI Language Assistance Plan. When a language group is small, defined as 5% or 1,000, whichever is less, of the population of persons eligible to be served or likely to be affected or encountered, foreign language translations of “vital documents” should be provided, and non-vital documents may be orally translated. This requirement does not affect the requirement to provide meaningful translation to one or more in a small group of LEP individuals through competent oral interpreters or translation where language services are needed and are reasonable.

1.4.1 Creating Alternative Formats
See attachment 6.7 for step by step instructions on creating alternative formats.

1.4.2 Large Print Version
1.4.2.1 At least five copies of any text-based printed material to be handed out during the meeting shall be in large print.

1.4.2.2 Large print meeting materials shall:
1.4.2.2.1 Be created using "Arial" font with a font size of 16 pt.
1.4.2.2.2 Have the same information as the original handout.
1.4.2.2.3 Have the highest contrast possible (e.g. black on white).
1.4.2.2.4 If graphics (such as images, tables, or graphs) are used in the original document, the same graphics shall be included in the large print version of the document.

1.4.2.2.4.1 If graphics are used in the large print document, a brief description of the image shall be provided. Image descriptions shall be brief and provide the viewer of the document with a general idea of what is in the image.
1.4.2.2.4.2 If tables or graphs are used in the large print document, a summary of the table or graph shall be provided.

1.4.3 Electronic Version
1.4.3.1 If an electronic version of materials is requested within 24 hours in advance of the meeting, this version shall be available for the meeting, if no advance request is made but rather is requested at or after the meeting, then meeting materials shall be made available electronically, within 7 calendar days of the request.

Note: Whenever possible, meeting planners should bring several copies of an electronic accessible version of the meeting material to the public meeting. Some individuals with visual impairments or other disabilities may attend with portable screen reading software that would allow them to access electronic material during the meeting.

1.4.4 Braille Version
1.4.4.1 If a Braille version of materials is requested within one week in advance of the meeting, this version shall be available for the meeting, if no advance request is made but rather is requested at or after the meeting, then Meeting materials shall be made available in Braille within 7 calendar days of the request.

1.4.5 Audible Version

1.4.5.1 If an audible version of materials is requested within one week in advance of the meeting, this version shall be available for the meeting, if no advance request is made but rather is requested at or after the meeting, then meeting materials shall be made audible, within 7 calendar days of the request.

1.4.6 Foreign Language Version

1.4.6.1 If a common foreign language version of materials is requested within one week in advance of the meeting, this version shall be available for the meeting, if no advance request is made but rather is requested at or after the meeting, then Meeting materials shall be made available in the language requested within 7 calendar days of the request.

1.4.7 Other requests for alternate formats

1.4.7.1 Individual attendees may have unique specifications for alternate formats. All reasonable requests for alternate formats shall be honored upon request, within 7 calendar days of the request.

1.4.8 Meeting attendees will not be charged for any cost affiliated with the creation of alternate formats of meeting material.

1.5 Publicizing the Meeting

1.5.1 Public meetings shall be publicized as early as possible—ideally, at least 30 calendar days in advance, but never less than 14 days in advance. This allows attendees time to submit requests for reasonable accommodations and for meeting planners to set deadlines for accommodation requests to be made in a timely manner. The meeting publicity also needs to be translated into the languages that are identified through application of the four factor analysis set forth in the PVMPO Title VI Language Assistance Plan.

1.5.2 In addition to any other means, all public meetings shall be posted on www.pvta.com or www.pvpc.org

1.5.3 All meeting notices shall include:
1.5.3.1 The statement “This location is accessible to persons with disabilities”

1.5.3.2 A brief listing of accessibility features that either are available or may be made available upon request during the public meeting (e.g. sign language, CART, assistive listening devices and/or foreign language interpreters).

1.5.3.3 Information on how to request reasonable accommodations by phone, e-mail or fax and the deadline for requests.

1.5.3.4 Information on how to request foreign language interpreter assistance.

1.5.3.5 See Attachment at section 6.7 for a sample meeting posting.

1.6 Additional Considerations

1.6.1 Within 48 hours, meeting planners shall follow-up with attendees who have requested reasonable accommodations to let them know their request has been received and will be honored to the extent possible.

Note: Especially in the case of ASL interpreters, the meeting planner may not know of their availability until 24 hours prior to the meeting. It is reasonable to let people know their request has been received and that it is in the process of being put in place, however if no interpreter is available people need to be notified and alternate plans must be made – such as CART or Video Relay.

1.6.2 Emergency Preparedness

1.6.2.1 In the event of an emergency, some attendees with disabilities may not be able to evacuate independently. Meeting planners shall familiarize themselves with the evacuation plan for the meeting space.

1.6.2.2 At the beginning of each meeting, meeting presenters shall announce the safety briefing—including information regarding where those attendees who would require assistance should wait during an emergency.

1.6.3 When opening a public meeting, presenters shall announce:

1.6.3.1 The presence and function of sign language interpreters (if interpreters are in the room), and/or CART providers

1.6.3.2 That assistive listening equipment is available

1.6.3.3 The location of accessible restrooms

1.6.3.4 The safety briefing (see 5.6.2.2).

1.6.4 When presenting, presenters at public meetings shall:

1.6.4.1 Speak slowly and clearly so that the sign language interpreters have time to interpret.

1.6.4.2 Verbally describe information presented visually (e.g. PowerPoint) so that attendees with visual impairments can access the information.
1.6.4.3 Ensure that any videos/DVDs shown during the meeting are encoded with closed captioning and are shown on a closed caption compatible device. Subtitles are an acceptable alternative.

1.6.4.3.1.1 Provide an alternate version of the video/DVD with descriptive video/described narration. (See Attachment 6.9 for captioning resources.)

Note: It may not always be a good choice to use a described video in an open meeting as this can be a problem for other viewers.

2.0 Attachments

2.1 Accessibility Checklist for Meeting Planners

Meeting Date: ____________________________________________
Meeting Time: ___________________________________________
Subject of Meeting: _______________________________________
Location: ________________________________________________

PVMPO Attendees:

☐ Is there at least one person or Department who is responsible for ensuring that the public meeting is accessible for all attendees?
Print Name/Department: _______________________________________
Publicizing Meeting: _________________________________________

☐ Has the public meeting been publicized at least 3 weeks in advance?

☐ Has the meeting been publicized on the PVMPO or PVTA website?

☐ Has the meeting been publicized in the required foreign languages and ethnic newspapers for the relevant populations in the community where the meeting is to be held?

☐ Does the public meeting notice include accessibility information, how to request a reasonable accommodation, relevant dates for making requests and information on whom to contact to request a reasonable accommodation?

☐ Does the public meeting notice include information on how to request foreign language interpreters?

Facility:

Date of Facility Assessment: ________________________________

☐ Where applicable (in areas where public transportation is available), is the meeting location 1/4 mile or
less from the nearest accessible bus stop or rail station?

☐ Where applicable, is there an accessible path of travel provided from the public transportation stop to the meeting location and meeting room?

☐ If parking will be available at the meeting location, are there accessible parking spaces available (review # of car and van accessible spaces)?

☐ Is there an accessible path of travel provided from the accessible parking area to the meeting area?

☐ If the main entrance to the building is not accessible, is there directional signage towards the accessible entrance?

☐ Is the accessible entrance unlocked and able to be used independently? If the meeting is taking place at night, is the path leading to the alternate entrance well lit?

☐ If there are restrooms that are open to the public, is there a pair of accessible restrooms available within close proximity of the meeting area? If not, is there at least one accessible gender neutral restroom?

☐ If there are public phones, is there at least one accessible (TTY and within appropriate height range) telephone available?

☐ If a stage or platform will be used during the public meeting, is it accessible?

☐ If a podium will be used during the public meeting, is the podium height-adjustable? If not, is there a small table (between 28 and 34 inches in height) provided to the side of the podium?

☐ Is there a high speed internet connection within the meeting space?

Ensuring Appropriate Accommodations:

☐ Have sign language and foreign language interpreters, if requested, been reserved for the public meeting?

☐ Have CART services, if requested, been reserved for the public meeting?

☐ Are Assistive Listening Devices available for the public meeting? Does someone know how to use the device? Have you checked the devices at least 24 to 48 hours before the meeting and rechecked immediately before the meeting starts? (Note: For large meetings, to avoid the loss of equipment, it is reasonable to ask for a driver’s license or other ID as collateral.)

☐ Are at least five large print copies of meeting handouts available?
Pioneer Valley MPO Public Participation Plan – Endorsed 10/25/2022

☐ Are printed materials available upon request, in alternative formats and/or relevant foreign languages?

☐ Are film or video presentations closed captioned and audio described?

Facility/Room Setup (prior to meeting):

☐ If the main entrance to the building is not accessible, is the accessible entrance unlocked?

☐ Is there an integrated seating area for individuals who use a wheeled mobility device in the meeting room?

☐ Is there seating available for attendees who are deaf or hard of hearing, and have requested an accommodation, near the front of the meeting room so that attendees may see the interpreter/captioner, or lip read?

☐ Is there an appropriately lit area in the front of the room for sign/foreign language interpreters and/or CART providers?

☐ Are the aisles at least three feet wide and clear of obstacles or tripping hazards?

☐ If microphones are used during the public meeting, are adjustable microphone stands available for attendees? Can staff be used as floaters with microphones as an alternative?

For recordkeeping and reporting purposes, please submit a copy of this completed checklist to the Title VI Specialist.
2.2 Ensuring adequate accessible parking

2.2.1 See [http://www.mass.gov/eopss/docs/dps/aab-regs/521023.pdf](http://www.mass.gov/eopss/docs/dps/aab-regs/521023.pdf) for Massachusetts Architectural Access Board (MAAB) regulations

2.3 Accessible Restrooms

2.3.1 See [http://www.mass.gov/eopss/docs/dps/aab-regs/521030.pdf](http://www.mass.gov/eopss/docs/dps/aab-regs/521030.pdf) for Massachusetts Architectural Access Board (MAAB) regulations

2.4 How to request sign language, CART Providers or foreign language interpreters

6.4.1 Sign Language Interpreters

- Complete and submit an on-line request for interpreting services through the Massachusetts Commission for the Deaf and Hard of Hearing’s (MCDHH) website
  - Go to [http://mass.gov/mcdhh](http://mass.gov/mcdhh)
  - Click on “Interpreter/CART referral services”
  - Select “Request an Interpreter on-line”
  - Note: A copy of the Request Form is attached at 6.7, for reference.

- Requests should be submitted within 30 days, but no later than 14 calendar days in advance of the meeting to ensure interpreter availability.

- If the meeting is cancelled or rescheduled, interpreter requests must be canceled at least 48 hours advance in order to avoid being billed for the service. CART providers must be cancelled no later than 72 hours in advance of the event.

- Interpreters invoices are billed as a minimum of two hours.
For meetings that are anticipated to last more than 75 minutes, two interpreters shall be provided. In most situations, one CART provider is sufficient if the meeting is no longer than three hours.

6.4.2 Sign Language Interpreters

- Complete and submit an on-line request for interpreting services through the Massachusetts Commission for the Deaf and Hard of Hearing’s (MCDHH) website
  - Go to [http://mass.gov/mcdhh](http://mass.gov/mcdhh)
  - Click on “Interpreter/CART referral services”
  - Click on “CART (Communication Access Realtime Translation) Providers”
  - Click on “Request a CART Provider” and follow listed directions
  - Note: A copy of the Request Form is attached at 6.7, for reference.

6.4.3 Foreign Language Interpreters/Translators

- PVMPO’s policy combines the use of bilingual staff, interpreter services and translated materials to communicate effectively with persons who are not fluent in English. When a request for oral interpretation is made, or a significant language speaking population is expected to attend a public meeting, the following steps should be reviewed and carried out to ensure compliance with Title VI requirements.
  - Conduct a four-factor analysis as to the kind of meeting in question and the populations that are in the affected communities, using the language group maps that are contained in the Language Assistance Plan. Identify the languages that are likely to be needed and consult with the Office of Diversity and Civil Rights Title VI Coordinator and/or Specialist for assistance with any problems concerning the language groups that may require interpreter services.
  - Identify the source for interpreter services, recognizing that most providers require one-two weeks advance notice of a meeting, based on the language(s) to be interpreted.

6.4.4 Interpreter Resources

- Projects should have a line item in the budget allocating funds for translation/interpretive services for public meetings. When additional resources are needed for unexpected or unanticipated documents or meetings, there may be funds available. Please contact your department manager to make a request through Budget to secure state or federal funds, as needed.
  - Request and cancellation timeframes
    - Requests should be submitted at least 14 calendar days in advance of the meeting to ensure interpreter availability
If the meeting is cancelled or rescheduled, interpreter requests must be canceled at least 48 hours advance in order to avoid being billed for the service.

Interpreter invoices vary by provider but may have a minimum of two to three hours.

For meetings that are anticipated to last more than 75 minutes, two interpreters shall be provided.

6.5 How to reserve assistive listening devices

6.5.3 Contact the Transportation Planning staff at 413-781-6045.

6.5.4 Other Sections that frequently host public meetings off-site are encouraged to bring Assistive Listening Devices so that they are readily available.

6.5.5 Currently the Transportation Section owns Assistive Listening Devices that other departments can reserve and sign out for a public meeting.

Contact:
Andrew McCaul at extension 321 (413-781-6045)
or AMccaul@pvpc.org

6.6 How to Create Alternate Formats

6.6.3 Electronic Version

6.6.3.1 Accessible electronic formats include email, and Microsoft Word Document (DOC or DOCX), a text file (TXT), or Rich Text Format (RTF).

Note: Some attendees requesting material electronically may have a visual impairment and use screen reading software. The formats referenced above are most compatible with such software.

6.6.3.2 Public meeting materials that are created electronically shall:

6.6.3.2.1 Be created using “Arial” font and a font size of 16 pt.

6.6.3.2.2 Shall have the same information as the original document and shall have the highest contrast possible.

6.6.3.2.3 If graphics (such as images, tables, or graphs) are used in the original document, the same graphics shall be included in the electronic version of the document.

6.6.3.2.4 If images are used in the electronic document, a brief description (providing the viewer of the document with a general idea of what’s in the image) shall be provided.

6.6.3.2.5 If tables or graphs are used in the electronic document, a summary of the table or graph shall be provided.
6.6.4 Braille Version

6.6.4.1 Meeting materials that are in Braille shall:

6.6.4.1.1 Be created using contracted Braille (Grade 2) and single-spaced.

6.6.4.1.2 Braille documents shall have the same information as the non-accessible handout.

6.6.4.1.3 If tables or graphs are used in the regular document, a summary of the table or graph shall be provided in the Braille document.

6.6.4.2 Requests for creation of a Braille document should be made to the Massachusetts Office of Disabilities.

6.6.5 Audible Version

6.6.5.1 Public meeting material that is recorded audibly shall:

6.6.5.1.1 Have the same information that's printed on the original handout.

6.6.5.1.2 Be spoken clearly.

6.6.5.1.3 Shall describe images used in the original handout.

6.6.5.1.4 Shall provide an explanation of any table or graph is used in a meeting document. The meeting planner shall ensure that the audible explanation of the table/graph is clearly explained and represents the table or graph on the printed document.

Sample Text

Meeting Purpose - PVTA will be hosting a public meeting to discuss his assessment of the progress towards purchase a new bus. Please come to share your questions and comments regarding
accessibility at the PRTA.

Notice: This location is accessible to people with disabilities. PVMPO provides reasonable accommodations and/or language assistance free of charge upon request (including but not limited to interpreters in American Sign Language and languages other than English, open or closed captioning for videos, assistive listening devices and alternate material formats, such as audio tapes, Braille and large print), as available. For accommodation or language assistance, please contact PVPC Title VI Specialist at (413) 781-6045, TTD/TTY at (413) 781-7168, fax (413) 732-2593 or by email to gmroux@pvpc.org. Requests should be made as soon as possible prior to the meeting, and for more difficult to arrange services including sign-language, CART or language translation or interpretation, requests should be made at least ten business days before the meeting.

(Note: This notice should be translated into the languages other than English that are identified to be necessary for the Limited English Proficient populations represented in the area of the project or initiative to be invited to participate.)

4.0 PUBLIC PARTICIPATION PROCEDURES FOR TRANSPORTATION PLANNING

Federal and state regulations require that each MPO document public involvement processes be proactive and provide complete information, timely public notice, full public access to key decisions, and opportunities for early and continuing involvement; they leave the choice of methods for facilitating participation to the discretion of each MPO. The PVMPO principal mechanisms for public participation are frequent open public meetings, letters, emails and phone calls. For specific MPO documents, the MPO has tailored its outreach methods to achieve the most effective public participation.

4.1 Pioneer Valley Regional Transportation Plan

The Pioneer Valley Regional Transportation Plan (RTP) is the long-range transportation planning document that describes the region’s current transportation system and how that system should be maintained and modified over the next 20 or more years. The LRTP needs to be updated every four years by the Pioneer Valley Metropolitan Planning Organization as required by MAP-21. It addresses each of the major modes of transportation within the Pioneer Valley region. It is considered both a multimodal and an intermodal document by providing an inventory of the major modes, identifies challenges and needs, and also provides a series of recommendations. Project-specific, and major transportation improvements need to be reflected in the RTP in order to be eligible for Federal-Aid funding through the region's Transportation Improvement Program (TIP).

The most current RTP, included several public participation outreach methods. Staff used diverse approaches to educate and inform the public about the long-range transportation plan process and encourage interested parties to express their views and provide input on transportation issues in the Pioneer Valley region.

4.2 Transportation Improvement Program (TIP)

The PVMPO Transportation Improvement Program, commonly referred to as the “TIP”, is a federally required planning document that lists all highway, bridge, transit and intermodal projects in the Pioneer Valley planning region that are programmed to receive federal-aid funding. Projects of regional & statewide significance, non-federal-aid (NFA), or state-funded projects, as well as projects that improve air quality and safety are also included in the TIP document. Cognizant of limited statewide transportation funding resources, the annual program of projects must demonstrate financial constraint within the federal-aid funding targets established for each of the state’s MPOs by the Office of Transportation Planning.

The PVMPO TIP development process is designed to guarantee early involvement of local legislators, chief
local officials, stakeholders, individuals and other interested parties through the PVMPO’s formal Public Participation Program (PPP) with full consideration of the principles of Environmental Justice, including special meetings such as community-targeted TIP information sessions. Moreover, the TIP document customarily includes a comprehensive overview of the proactive public outreach process used throughout the development of the TIP.

4.3 Unified Planning Work Program (UPWP)

The PVMPO Unified Planning Work Program (UPWP) is a project-by-project description of all transportation planning and transportation-related air quality planning activities anticipated within the region during the upcoming program year. It indicates who will perform the work, as well as anticipated available funding, the schedule for completion and the products that will be produced.

Under federal regulations pertaining to the transportation planning process, the UPWP must be prepared and endorsed annually by the Metropolitan Planning Organization (MPO) prior to the start of the planning program period.

4.4 Schedule of Activities

1. ACTIVITIES SUBJECT TO PUBLIC PARTICIPATION. PVMPO shall provide early and continuing public involvement opportunities throughout the transportation planning and programming process. Transportation

A. Planning Activities. In accordance with Section 3 of this plan, special emphasis shall be given to engaging the public in planning studies that form the basis for later programming decisions. Planning activities include corridor studies and special regional studies, environmental assessment studies, and development of the Pioneer Valley Regional Transportation Plan. These activities offer the public the earliest opportunity to participate in the development of project proposals that might eventually be programmed for funding. Thus, PVMPO shall involve the affected community through methods such as local advisory committees, public information meetings, consultation with stakeholders, newsletters and use a variety of other outreach method identified in this plan.

B. Programming Activities. Opportunities for the public to participate shall also be provided through the project selection, programming, and project development phases. These activities include the selection of projects, and the adoption or amendment of Transportation Improvement Program (TIP). PVMPO shall make an effort to involve the affected community through methods such as consultation with representatives to the Joint Transportation Committee, local advisory committees, public information meetings, consultation with stakeholders, and newsletters.
4.4.1 2. DEFINITION OF PUBLIC & STAKEHOLDERS.
PVMPO shall make an effort to inform and engage both the general public and stakeholders as appropriate.

A. **General Program.** As part of its general planning and programming process, PVMPO will try to involve as broad a cross-section of the population and the region as possible. However, we recognize there are certain segments of the population and certain organizations that either have a special interest in transportation or that we have a special obligation to reach out to. In this regard, we will make a concerted effort involve the following: the public, member municipalities, affected public agencies, public and private providers of transportation, providers of freight transportation services, public transportation advocates, users of pedestrian walkways and bicycle transportation facilities, advocates of the community of individuals with disabilities, seniors, and other parties who have expressed an interest in the process.

B. **Pioneer Valley Regional Transportation Plan or Transportation Improvement Plan.** When developing a new or making a major modification to an existing Pioneer Valley Regional Transportation Plan, or Transportation Improvement Plan the PVMPO will consult "as appropriate" with state and local agencies responsible for land use management, natural resources, environmental protection, conservation, and historic preservation. This consultation will help PVMPO achieve its related goal of promoting consistency between planned transportation improvements and state and local planned growth and economic development patterns.

C. **Special Studies.** For special studies and corridor studies that PVMPO conducts, it shall make an effort to identify and involve persons and groups that might be affected by potential changes to the particular transportation service or facility under review, in addition to those engaged through the general planning process. Examples include neighborhoods associations, residents and businesses in the area.
D. Consultation and Discussion with Special Groups – Environmental Justice (EJ). PVMPO shall also make a special effort to seek out and consider the needs of groups or communities traditionally not well served by existing transportation systems. These include, but are not limited to low-income households and minority households. To assure adequate participation of these groups, PVMPO will be proactive in seeking representation from low-income or minority individuals, or representative low-income or minority groups and consult and discuss the PVMPO’s transportation planning programs and products.

It is sometimes necessary to conduct an outreach effort to EJ communities, beyond that which is normally expended. At a minimum, PVMPO shall identify groups that it needs to involve, add them to the appropriate mailing lists, and define methods for engaging them in relevant programs or projects. This requirement for special outreach efforts shall apply to both sections A and B above.

PVMPO efforts in this regard shall be consistent with the Environmental Justice Executive Order (EO 12898) dated February 11, 1994, and other related guidance from the Federal Highway Administration and Federal Transit Administration. This effort will also be consistent with the Environmental Justice Action Items identified in the Regional Transportation Plan (endorsed by the PVMPO February, 2007). The Environmental Justice recommendations of the RTP have been incorporated into this public participation plan and are included in Appendix A. Appendix A has been updated with this Public Participation Plan to reflect accomplishments in PVMPO’s outreach to environmental justice communities.

E. Outreach to Special Groups – Persons with Limited English Proficiency (LEP). PVMPO shall also make a special effort to seek out and consider the needs of individuals or communities with Limited English Proficiency and in accordance with the PVMPO Language Access Plan.

The PVMPO will engage persons with LEP with regard to regionwide planning activities such as the adoption of the Regional Transportation Plan, Unified Planning Work Program, transit studies, or an updated TIP, the PVMPO will make outreach to Spanish-speaking residents a more routine undertaking. Meeting notices will be available upon request in Spanish, with an opportunity to request translator services highlighted in the notice. Important reports will be summarized and translated into Spanish upon request.

With regard to special activities focused on a specific neighborhood or corridor, maps depicting the distribution of non-English speaking persons will be consulted at the beginning of any such project to determine what, if any, special outreach in any language other than English should be undertaken. If it is determined that a special outreach is warranted, PVMPO will consult with neighborhood groups such as ethnic and religious associations to determine the best method for reaching and involving those non-English speaking residents.

PVMPO efforts in this regard shall be consistent with the signed Executive Order 13166, "Improving Access to Services for Persons with Limited English Proficiency" dated August 11, 2000, and other

---

3 Federal regulations define Persons with Limited English Proficiency as individuals with a primary or home language other than English who must, due to limited fluency in English, communicate in that primary or home language if the individuals are to have an equal opportunity to participate effectively in or benefit from any aid, service or benefit in federally funded programs and activities.
related guidance from the Federal Highway Administration and Federal Transit Administration.

4.5 ADEQUATE TIME FOR PUBLIC COMMENT.

PVMP0 shall allow reasonable time for public review and comment at key decision points. These include, but are not limited to, action on the Pioneer Valley Regional Transportation Plan, Unified Planning Work Program and the Transportation Improvement Program (TIP). Minimum notification periods shall be as follows:

- Amendments to PVMP0’s Public Participation Plan – 45 days
- Adoption of the TIP & major TIP amendments – 21 days *
- Adoption of the UPWP & major UPWP amendments – 21 days
- Adoption of Pioneer Valley Regional Transportation Plan & major amendment – 21 days
- Joint Transportation Committee, JTC Subcommittee, PVMP0 meetings – 7 days

* While a minimum public comment period of 21 days has been established for the TIP, and major TIP amendments, the MPO may, at their discretion, vote to abbreviate the public comment period under what they (the MPO) consider to be extraordinary circumstances. Under no circumstances will this period be less than 15 days. All comments received during the abbreviated comment period will be taken into consideration by the MPO before making a recommendation.

The MPO may extend the public participation period and provide an additional opportunity for comment when the revised document differs substantially from the version that was made available to the public or when public comment raises new material issues which interested parties could not have reasonably foreseen. Under these circumstances the PVMP0 has the sole discretion to determine justification for an extension. When the action to extend public comment on the TIP is approved, the MPO will re-advertised a public notice on the proposed TIP amendments and schedule an additional public meeting followed by an additional abbreviated 15 day comment period. Adjustments, defined as minor alterations to major documents, are not considered amendments and will not be re-advertised.

4.6 METHODS OF NOTIFYING THE PUBLIC

PVMP0 shall use appropriate methods to notify the public of its activities and of opportunities for public involvement as outlined in Section 3 of this plan. Determination of which methods to use must be done for each individual planning project or study.

4.7 DOCUMENTATION OF PUBLIC COMMENT & RESPONSE

PVMP0 shall document public comments received during the course of a study or an amendment of the Pioneer Valley Regional Transportation Plan, UPWP, or TIP. PVMP0 shall also document how it responded to public comments.

A. Comments Received. Documentation of comments may be accomplished in a manner appropriate to
the project and the nature of the comments. Documentation may consist of meeting minutes, a file of letters, or a special memo that summarizes the comments. A written summary is preferred at key points in the decision-making process: when members of the relevant study committee must decide to narrow the range of alternatives, select a preferred alternative, or make a decision of similar nature. The written summary of comments made at public information meetings shall be given to the committee members prior to any committee action.

B. **Response to Comments.** PVMPO shall provide a descriptive summary of how it responded to significant public comments during the development of a plan or document such as the TIP. The summary may be produced as a separate report or included as a short section in the final plan or document. In instances where direct response is warranted the PVMPO will document this correspondence as prescribed under FTA/FHWA Policy guidance 79 FR 31214.

8. **ADOPTION OF A “FINAL” TRANSPORTATION PLAN.** The following describes the minimum public involvement program required during the review of a draft Pioneer Valley Regional Transportation Plan, or a draft of a major amendment to the Plan. These steps must be taken before PVMPO acts to adopt the draft document as the final Plan.

   A. **World Wide Web.** The draft Transportation Plan itself (or draft major amendment) or a more lengthy notice if appropriate, will be made available on the PVMPO website a minimum of 21 days in advance of the final decision by the PVMPO. The final Plan will also be posted to the PVMPO website as soon as possible after the plan’s endorsement, and made available there at least until an updated or new Plan is adopted.

   B. **Comment Period and Public Meeting.** PVMPO shall allow a minimum of 21 days for public comments and shall hold a public information meeting prior to completion of the 21-day public comment period. Opportunity for public comment on the plan shall also be provided at every Joint Transportation Committee and PVMPO meeting during the comment period.

   The MPO may extend the public participation period and provide an additional opportunity for comment when the revised document differs substantially from the version that was made available to the public or when public comment raises new material issues which interested parties could not have reasonably foreseen. Under these circumstances the PVMPO has the sole discretion to determine justification for an extension. When the action to extend public comment on the RTP is approved, the MPO will re-advertised a public notice on the proposed RTP changes and schedule an additional public meeting followed by an additional abbreviated 15 day comment period. Adjustments, defined as minor alterations to the document, are not considered amendments and will not be re-advertised.

   D. **Summary & Disposition of Comments.** A summary of significant comments and the disposition of the comments shall be provided in the final document.

9. **ADOPTION OF A TRANSPORTATION IMPROVEMENT PROGRAM (TIP)** The following describes the minimum public involvement program required during the review of a draft Pioneer Valley TIP or the draft
of a major amendment to this document. These steps must be taken before PVMPO acts to adopt a draft document as the final or the official endorsed document.

A. World Wide Web. The draft TIP (or draft major TIP amendment) and the notice, or a more lengthy notice if appropriate, will be made available on the PVMPO website a minimum of 21 days*. The final TIP and UPWP will also be posted to the PVMPO website as soon as possible after its adoption, and a current version made available there at least until a new TIP is adopted.

B. Comment Period and Public Meeting. PVMPO shall allow a minimum of 21 days* for public comments and shall hold a public information meeting during the public comment period. Opportunity for public comment on the TIP shall also be provided at every Joint Transportation Committee and PVMPO meeting during the comment period.

C. Summary & Disposition of Comments. A summary of significant comments and the disposition of the comments shall be provided in the final document.

* While a minimum public comment period of 21 days has been established for the TIP, and major TIP amendments, the MPO may, at their discretion, vote to abbreviate the public comment period under what they (the MPO) consider to be extraordinary circumstances. Under no circumstances will this period be less than 15 days. All comments received during the abbreviated comment period will be taken into consideration by the MPO before making a recommendation.

The MPO may extend the public participation period and provide an additional opportunity for comment when the revised document differs substantially from the version that was made available to the public or when public comment raises new material issues which interested parties could not have reasonably foreseen. Under these circumstances the PVMPO has the sole discretion to determine justification for an extension. When the action to extend public comment on the TIP is approved, the MPO will re-advertised a public notice on the proposed TIP amendments and schedule an additional public meeting followed by an additional abbreviated 15 day comment period. Adjustments, defined as minor alterations to major documents, are not considered amendments and will not be re-advertised.

**Development of the Transportation Improvement Program (TIP)** is a requirement of the Metropolitan Transportation Planning Process as described in the Metropolitan Planning Final Rule 23 CFR 450 section 324. This regulation developed by the Federal Department of Transportation defines the Transportation Improvement Program as:

“A staged, multiyear, intermodal program of transportation projects which is consistent with the metropolitan transportation plan.”

The Pioneer Valley TIP is a four-year schedule of projects identified by year and location complete with funding source and cost. The TIP is developed annually and is available for amendment and adjustment at any time. Each program year of the TIP coincides with the Federal Fiscal Year calendar, October 1 through September 30. All TIPs and amendments are consistent with the goals and objectives of the Regional Transportation Plan for the Pioneer Valley Region.

The voting members of the Pioneer Valley Metropolitan Planning Organization consist of the following
officials or their designee or alternate:

- the Secretary of the Mass DOT
- the Administrator of the Mass DOT Highway Division
- the Chairman of the Pioneer Valley Planning Commission
- the Chairman of the Pioneer Valley Transit Authority Advisory Board
- the Mayors of two of the following three (3) urban core cities within the Pioneer Valley region:
  
  Holyoke  Chicopee  Springfield

- the Mayor or a Selectman of one of the following four (4) cities and towns outside of the three core cities within the Pioneer Valley region:
  
  Agawam  Southwick  Westfield

- the Mayor or a Selectman of one of the following five (5) cities and towns within the Pioneer Valley region:
  
  Amherst  Easthampton  Hadley
  Northampton  South Hadley

- a Selectman of one of the following fourteen (14) suburban and rural towns within the Pioneer Valley region:
  
  Belchertown  Brimfield  East Longmeadow
  Granby  Hampden  Holland
  Longmeadow  Ludlow  Monson
  Palmer  Pelham  Wales
  Ware  Wilbraham

- a Selectman of one of the following seventeen (17) suburban and rural towns within the Pioneer Valley duly elected as prescribed under the provisions of this MOU document:
  
  Blandford  Chester  Chesterfield
  Cummington  Goshen  Granville
  Hatfield  Huntington  Middlefield
  Montgomery  Plainfield  Russell
  Southampton  Tolland  Westhampton
  Williamsburg  Worthington

In addition, the Joint Transportation Committee (JTC) Chairman, and one representative each from the
Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), the Chair of the Infrastructure Committee of the Western Massachusetts Economic Development Council (EDC), the five (5) alternate community MPO representatives, and one representative each from both the MassDOT Highway Division District One and District Two Offices shall be considered ex-officio, non-voting members of the Pioneer Valley MPO. Alternate members shall be additional chief elected officials from each of the above-cited categories of communities and he/she shall be eligible to attend, participate and vote at MPO meetings in the event that the primary member cannot attend.

As the lead planning agency for the MPO, the PVPC accepts the responsibility for developing the TIP and UPWP in a cooperative process with other members of the MPO and the general public. The final TIP and UPWP is voted on for endorsement at a formal meeting of the MPO. The endorsed TIP project listing is included in the State Transportation Improvement Program verbatim and requires endorsement by the Secretary of Transportation and Public Works.

The MPO relies on a transportation advisory committee (JTC) to carry out the cooperative process during TIP development. The Joint Transportation Committee (JTC) is a group of community appointed officials, MPO member representatives, public and private transportation providers, the interested parties, and special interest groups and agencies. The JTC establishes and recommends to the MPO procedures for submitting, prioritizing and selecting projects for the TIP. PVPC staff provides the technical support to conduct the TIP development activities for the JTC.

Below is a general outline of steps taken during the TIP development process.

1. Project proponents (communities, MPO members, agencies) submit projects through the process outlined in Chapter 2 of the Massachusetts Project Development & Design Guidebook (2006)
2. Projects are prioritized based on an evaluation criteria by MPO staff, JTC representatives, and MassDOT Highway Division District staff, and MassDOT staff at a posted meeting open to all.
3. The State (thru MassDOT) provides funding targets for the Pioneer Valley Region.
4. JTC reviews and recommends project priorities on the TIP to the MPO
5. Draft TIP project listings are prepared by the MPO staff are distributed for review and comment to MPO members
6. MPO meets to make final decisions on the composition of the TIP and to recommend the Draft TIP for general public release for no less than a 21 day review period
7. Final Draft TIP is distributed for review, consultation and comment in accordance with the adopted Public Participation Plan
8. Public meetings and news releases are conducted to promote public involvement and consultation.
9. Comments are compiled and addressed where appropriate
10. Final TIP developed for the JTC’s consideration and their recommendation to MPO
11. MPO meets to vote on endorsement of the TIP
12. Endorsed Regional TIPs are compiled by MASSDOT to create the State TIP (STIP)
13. Secretary of MASSDOT endorses the STIP (on behalf of the Governor) and submits the STIP to federal agencies for review and approval

14. Federally approved STIP is ready for state implementation (project advertisement)

15. Amendments and adjustments to the TIP are made on an as needed basis with the additional public review and input for formal amendments only.

**Project Priority Criteria and Selection.** The MASSDOT developed a process and set of criteria to evaluate and prioritize the region’s TIP projects which was modified and endorsed by the MPO. All projects included in the TIP are evaluated and assigned a priority value or rating. This process is used as a management tool to identify projects of regional priority and program them accordingly in the TIP based on their level of design readiness.

**Program Amendments** to the TIP. For the purposes of project selection and programming, amendment to the TIP can be conducted at any time. Amendments require formal MPO action. An amendment to the TIP is defined any change that differs significantly from the version that was made available for public comment by the MPO and raises new material issues which interested parties could not reasonably have foreseen from the public involvement efforts.

The public involvement requirements for amendments shall be satisfied by following the standard 21-day procedure* for MPO and JTC Committee meetings. So long as the proposed amendment is listed on the respective Joint Transportation Committee and PVMPO agendas, and those agendas have been sent to the town clerks and respective committee mailing lists and posted on the PVMPO website seven days in advance of the meeting the public involvement requirements for the amendment shall be satisfied.

* While a minimum public comment period of 21 days has been established for the TIP, and major TIP amendments, the MPO may, at their discretion, vote to abbreviate the public comment period under what they (the MPO) consider to be extraordinary circumstances. Under no circumstances will this period be less than 15 days. All comments received during the abbreviated comment period will be taken into consideration by the MPO before making a recommendation.

**Program Adjustments** to the TIP. Program adjustments can be conducted without formal MPO action. Minor adjustments may include such actions as moving projects between Year 1 and Year 2, and minor fluctuations in project description, costs and funding source. This action can be accomplished through an agreed upon administrative action.

**Annual Listing of Projects.** An annual listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be made available on the PVMPO website. The listing is developed by the Massachusetts Executive Office of Transportation and will be consistent with the categories identified in the TIP.

9. **PUBLIC INFORMATION REQUIREMENTS FOR THE UNIFIED PLANNING WORK PROGRAM (UPWP)** The following describes the minimum public involvement program required during the review of a draft Pioneer Valley UPWP. These steps must be taken before PVMPO acts to adopt a draft document as the final or official endorsed document.
A. **World Wide Web.** The draft UPWP will be made available on the PVMPO website a minimum of 21 days in advance of the final decision by the PVMPO. The final TIP and UPWP will also be posted to the PVMPO website as soon as possible after its adoption, and a current version made available there at least until a new TIP and UPWP are adopted.

B. **Comment Period and Public Meeting.** PVMPO shall allow a minimum of 21 days for public comments and shall hold a public information meeting during the public comment period. Opportunity for public comment on the UPWP shall also be provided at every Joint Transportation Committee and PVMPO meeting during the comment period.

C. **Summary & Disposition of Comments.** A summary of significant comments and the disposition of the comments shall be provided in the final document.

10. **PUBLIC INFORMATION REQUIREMENTS FOR SECTION 5307 GRANTS.** The public involvement process adopted by PVMPO for its TIP shall also serve to satisfy the public involvement requirements of the Pioneer Valley Transit Authority (PVTA) as applicant for regular Section 5307 (FTA Transit Capital) funds. This applies to the PVTA’s annual purchase of replacement vehicles for programs and other major capital purchases. This does not apply to non-routine capital projects that require an environmental assessment or environmental impact statement. For major projects the PVTA shall conduct its own separate public involvement process.

11. **ACCESS TO TECHNICAL INFORMATION.** PVMPO shall provide reasonable public access to technical and policy information used in the development of the Pioneer Valley Regional Transportation Plan, the Transportation Improvement Program (TIP), and related studies, plans, and programs.

4.8 **REASSESSMENT OF PUBLIC PARTICIPATION PROGRAM**

PVMPO shall conduct a review of the effectiveness of the public participation process once every two years to ensure that the process provides full and open access to all. This task will include a review of public participation efforts undertaken, assessing both what worked and what might be improved, and recommendations for future efforts, if appropriate.

END
Title VI Complaint Procedures

Purpose and Applicability

The purpose of this document is to establish procedures for the processing and disposition of both discrimination complaints filed directly with the Massachusetts Department of Transportation (MassDOT) or the Pioneer Valley Metropolitan Planning Organization (PVMPO), and discrimination complaints that MassDOT have the delegated authority to process under Title VI of the Civil Rights Act of 1964 (Title VI) and related state and federal nondiscrimination authorities, including the Americans with Disabilities Act (ADA). The procedures described in this document apply to MassDOT and its subrecipients, contractors, and subcontractors in the administration of federally funded programs and activities. This includes the Pioneer Valley Region Metropolitan Planning Organization.

Definitions

Complainant – A person who files a complaint with the PVMPO or person who files a complaint with MassDOT, the Federal Highway Administration (FHWA), or the Federal Transit Administration (FTA) regarding the MPO.

Complaint – Written, verbal or electronic statement concerning an allegation of discrimination that contains a request for the receiving office to take action. Where a complaint is filed by a person with a disability, the term complaint encompasses alternative formats to accommodate the complainant’s disability.

Discrimination – That act or inaction, whether intentional or unintentional, through which a person in the United States, solely because of race, color, national origin, or bases covered by other nondiscrimination authorities, such as gender, age, or disability, has been subjected to unequal treatment or disparate impact under any program or activity receiving federal assistance.

Operating Administrations – Agencies of the U.S. Department of Transportation, including the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), the Federal Rail Administration (FRA), the National Highway Traffic Safety Administration (NHTSA), and the Federal Motor Carrier Safety Administration (FMSCA), that fund transportation programs or activities.

Respondent – The person, agency, institution, or organization alleged to have engaged in discrimination.

Complaint Procedures

The procedures describe an administrative process aimed at identifying and eliminating discrimination in federally funded programs and activities. The procedures do not provide
an avenue for relief for complainants seeking individual remedies, including punitive damages or compensatory remuneration; they do not prohibit complainants from filing complaints with other state or federal agencies; nor do they deny complainants the right to seek private counsel to address acts of alleged discrimination.

The procedures described in this document apply to MassDOT and their subrecipients, contractors, and subcontractors in their administration of federally funded programs and activities.

The processing of discrimination complaints will follow the steps outlined below and are further detailed throughout this document.

Step 1: Complainant submits their complaint.
Step 2: MassDOT issues the complainant an acknowledgment letter.
Step 3: Complaint is assigned to, and reviewed by, an investigator.
Step 4: Investigator conducts interviews of complainants, witnesses, and the respondent.
Step 5: Investigator reviews the evidence and testimonies to determine whether a violation has occurred.
Step 6: Complainant and Respondent are issued a letter of resolution or a letter of finding and offered appeal rights.
Step 7: Once the appeal period has expired, the investigation is closed.

As part of its efforts to comply with Title VI, the MPO, as a subrecipient of federal financial assistance distributed through MassDOT, has adopted these complaint procedures. In so doing, the MPO acknowledges its obligation to afford members of the public with an opportunity to file complaints alleging violations of nondiscrimination policies in effect in the organization and applying to its programs, services, and activities. In accordance with federal guidance, the MPO, as a subrecipient of transit related funds, must understand that it has the authority to process Title VI complaints and must inform MassDOT of complaints received and the outcome of investigations as the matters are resolved.

As a subrecipient of highway-related funds, the MPO understands that it does not have the authority to investigate Title VI violation claims filed against the MPO (where the MPO is the respondent or party alleged to have violated Title VI). All such claims will be forwarded to the MassDOT Office of Diversity and Civil Rights (ODCR) to determine the appropriate investigative authority. Subrecipients of highway funding retain the right to consider Title VI violation allegations as a matter of assurance and/or internal policy compliance but are precluded from making determinations as to possible violations of Title VI. It is the MPO's policy to communicate with ODCR's Title VI Specialists, the Director of Title VI and Accessibility, and/or the Director of Investigations when Title VI complaints are received to ensure proper handling.
Filing of Complaints

This section details the PVMPO’s procedures for processing Title VI discrimination complaints (on the basis of race, color, or national origin, including language) and complaints alleging discrimination on the basis of additional federal nondiscrimination provisions (on the basis of age, sex, and disability). Federal law and regulations governing Title VI of the Civil Rights Act of 1964 (Title VI) places the overall coordination authority for the investigation of civil rights complaints in the United States Department of Justice, which works collaboratively with federal agencies that carry out this responsibility. In the transportation sector, this investigative authority rests with the US Department of Transportation (US DOT) and its agencies for the different modes of transportation, including the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). In coordination with USDOT requirements, FHWA and FTA have established regulations and guidance that require recipients and subrecipients of federal financial assistance to establish procedures for processing Title VI complaints filed with these organizations.

The procedures described below, modeled on recommended complaint procedures promulgated by the US Department of Justice (US DOJ), are designed to provide a fair opportunity to have complaints addressed that respect due process for both complainants and respondents. In addition to the formal complaint resolution process detailed herein, MassDOT shall take affirmative steps to pursue informal resolution of any and all Title VI complaints, when possible.

Questions and Answers

1. Who can file a complaint?

ANY member of the public, along with all PVMPO customers, applicants, contractors, or subrecipients who believe that they themselves, a third party, or a class of persons were mistreated or treated unfairly because of their race, color, or national origin (including limited English proficiency) in violation of Title VI of the Civil Rights Act of 1964, related federal and state laws and orders, or MassDOT’s Anti-Discrimination/Harassment Prevention (ADHP) Policy. Retaliation against a member of the public on the basis of race, color, or national origin is also prohibited under Title VI and the ADHP Policy.

2. How do I file a complaint?

A complaint may be filed with the following:

Pioneer Valley Metropolitan Planning Organization
MPO Title VI Specialist
60 Congress Street
Springfield, MA 01104
Phone 413-781-6045 TTD/TTY (413-781-7168)
E-mail: gmroux@pvpc.org
MassDOT Title VI Specialists  
Office of Diversity and Civil Rights – Title VI Unit  
10 Park Plaza, Suite 3800  
Boston, MA 02116  
Phone: (857) 368-8580 or 7-1-1 for Relay Service  
Email: MassDOT.CivilRights@state.ma.us or MBTAcivilrights@mbta.com

MassDOT, Assistant Secretary and Chief Diversity Officer  
Office of Diversity and Civil Rights – Investigations Unit

Office of Civil Rights  
Attention: Complaint Team East Building, 5th Floor—TCR 1200 New Jersey Avenue, SE  
Washington, DC 20590  
FTA online complaint form

U.S. Department of Transportation  
Office of Civil Rights  
1200 New Jersey Avenue, SE  
Washington, DC 20590  
Website: civilrights.justice.gov/

Please note:

- When FTA receives a Title VI complaint regarding MassDOT, a subrecipient, or a contractor, the FTA may request that the matter be investigated by MassDOT.

- If a Title VI complaint is filed with MassDOT that alleges a violation by MassDOT’s Highway Division, then it will be forwarded to the local FHWA Division Office which will then forward the complaint to the FHWA Headquarters Office of Civil Rights (HCR) for processing.

- If a Title VI complaint is received by MassDOT that is filed against a subrecipient of the MassDOT Highway Division, then MassDOT may process and investigate the complaint or may refer to HCR for investigation.

- If FMCSA receives a complaint filed against MassDOT, FMCSA will forward the complaint to MassDOT for a written response. This allows MassDOT to either resolve the complaint or to provide a written response to the allegations. The written response is used to determine what steps FMCSA will take to process the complaint.
3. What do I need to include in a complaint?

A Title VI/Nondiscrimination Complaint form is available electronically on the MassDOT Title VI website, the PVMPO website, or in hardcopy at the PVMPO office in Springfield, or the MassDOT Office of Diversity and Civil Rights. Alternatively, a complainant may submit correspondence in an alternative format that should include:

- Your name, signature and, current contact information (i.e., telephone number, email address and postal mailing address);
- The name and badge number (if known and applicable) of the alleged perpetrator;
- A description of how, when, and where the alleged prohibited conduct occurred;
- A detailed description of why you believe you were treated differently;
- Names and contact information of any witnesses; and
- Any other information you believe is relevant to your complaint.

A. In cases where the complainant is unable to provide a written statement, a verbal complaint may be made to the Office of Diversity & Civil Rights (ODCR). Complainants will be interviewed by a Civil Rights Investigator (CRI). If necessary, the CRI will assist the person in converting the verbal complaint to writing. All complaints should be signed by the complainant.

B. Anonymous complaints may be filed in the same manner. Anonymous complaints shall be investigated in the same manner as any other complaint.

C. Complaints will be accepted in any recognized language. Multi-lingual complaint forms are available.

4. How long do I have to file a complaint?

A. A complaint alleging violation of Title VI and/or MassDOT’s ADHP policy should be filed no later than one hundred and eighty (180) days from the date of the alleged violation.

B. Complaints alleging violations of state or federal law must be filed within the time frames established by statute, regulation, or case law – in certain instances up to three hundred (300) days from the date of the alleged violation.

5. How will my complaint be handled?

When a complaint is received, it is assigned to a Civil Rights Investigator (CRI). The CRI will:

A. Determine Jurisdiction: ODCR has jurisdiction if the complaint:
   1) involves a statement or conduct that violates:
      i. MassDOT’s legal obligation and commitment to prevent discrimination, harassment, or retaliation on the basis of a protected characteristic with regard to any aspect of the Agency’s service to the public;
The commitment made by subrecipients and contractors working with MassDOT to adhere to MassDOT policies;

AND

2) is timely filed.

B. Acknowledge receipt of the complaint and provide jurisdictional determination within ten (10) business days of receipt of the complaint.

1) If the CRI determines that any complaint does not have the potential to establish a civil rights violation, then the CRI shall notify the complainant and Title VI Specialist in writing of its finding and the matter shall be closed.

C. Conduct a thorough investigation of the allegations contained in the complaint in accordance with the MassDOT Internal Complaint Procedures.

6. Findings and Recommendations?

At the conclusion of the investigation, the CRI will transmit to the complainant and the respondent one of the following three letters based on the findings:

A. A letter of resolution that explains the steps the respondent has taken or will take to comply with Title VI.

B. A letter of finding that is issued when the respondent is found to be in compliance with Title VI. This letter will include an explanation of why the respondent was found to be in compliance and provide notification of the complainant's appeal rights.

C. A letter of finding that is issued when the respondent is found to be in noncompliance.

This letter will include each violation referenced as to the applicable regulations, a brief description of findings/recommendations, the consequences of failure to achieve voluntary compliance, and an offer of assistance in devising a remedial plan for compliance, if appropriate.

7. Can I appeal a Finding?

If a complainant or respondent does not agree with the findings of the CRI then he/she/they may appeal to the Assistant Secretary and Chief Diversity Officer. The appealing party must provide any new information that was not readily available during the course of the original investigation that would lead MassDOT to reconsider its determinations. The request for an appeal and any new information must be submitted within thirty (30) days of the date the letter of finding was transmitted. After reviewing this information, MassDOT will respond either by issuing a revised letter of resolution or by informing the appealing party that the original letter of resolution or finding remains in force.
Minutes of the Pioneer Valley Metropolitan Planning Organization (MPO) Zoom Meeting
Tuesday, January 24, 2023

MPO Members Present:
Stephen Woelfel  Director of Strategic Planning, Office of Transportation Planning, Massachusetts Department of Transportation (MassDOT) representing MPO Chair Gina Fiandaca, Massachusetts Secretary of Transportation and Chief Executive Officer
Roger Fuller  Town of Chesterfield
Joshua Garcia  Mayor, City of Holyoke
Mark Gold  Town of Longmeadow
Walter Gunn  Chair, Pioneer Valley Planning Commission (PVPC)
Nicole LaChapelle  Mayor, City of Easthampton
William Reichelt  Mayor, Town of West Springfield
Paula Simmons  MassDOT, District Two, representing Jonathan Gulliver MassDOT Highway Division Administrator
Douglas Slaughter  Chair, Pioneer Valley Transit Authority (PVTA)
Rick Sullivan  President and CEO, Economic Development Council of Western Massachusetts

Guests and PVPC Staff Present:
Rana Al-Jammal  Senior Planner Specialist
Daryl Amaral  MassDOT District Two Office, Acting State Aid Engineer
Ben Breger  MassDOT
William Dwyer  Town of Hadley, Planning Board
Michelle Ho  MassDOT
Van Kacoyannakis  VHB
Timothy Keane  Town of Longmeadow
Christopher Klem  MassDOT Planning
Derek Krevat  MassDOT Office of Transportation Planning
Andrew McCaul  Pioneer Valley Planning Commission (PVPC) – Transportation Section
Jeffrey McCollough  Pioneer Valley Planning Commission (PVPC) – Transportation Section
Mark Moore  MassDOT Highway District 1
Jack Moran  MassDOT
Dawn Nims  City of Holyoke
Andrew Wang  MassDOT
Dana Roscoe  Pioneer Valley Planning Commission (PVPC) – Transportation Section
Carl Rossi  City of Holyoke
Gary Roux  Pioneer Valley Planning Commission (PVPC) – Transportation Section
Steve Savaria  Fuss & O’Neill
Sandra Sheehan  Administrator, Pioneer Valley Transit Authority (PVTA)
Lynn Shell  Pioneer Valley Planning Commission (PVPC) – Admin Support Staff

Note: Because this meeting was held via Zoom, not all those present are included as some participants were only identified by a phone number and no name was available.

1. Chairman’s Call to Order, Welcome and Opening Remarks

Stephen Woelfel, Director of Strategic Planning, MassDOT Office of Transportation Planning, representing MPO Chair Gina Fiandaca, Massachusetts Secretary of Transportation and CEO, called the January 24, 2023 meeting of the Pioneer Valley Metropolitan Planning Organization (MPO) to order at 10:01 a.m. Mr. Woelfel first reviewed the virtual meeting format, and he noted that the meeting is being recorded.

PVPC Principal Planner Dana Roscoe took roll call and the following MPO members responded that they were present: Steve Woelfel, representing MPO Chair Gina Fiandaca; Paula Simmons, representing Jonathan Gulliver MassDOT Highway Division Administrator; Walter Gunn, Chair PVPC; Douglas Slaughter, Chair PVTA Advisory Board;
2. **MPO Approval of Minutes of the Previous Meeting of the Pioneer Valley MPO Held Remotely on December 20, 2022**

Mr. Woelfel called for a motion to approve the December 20, 2022 meeting minutes of the Pioneer Valley MPO.

MOVED BY WALTER GUNN, SECONDED BY RICK SULLIVAN, TO APPROVE THE DECEMBER 20, 2022 MEETING MINUTES OF THE PIONEER VALLEY MPO. THE MINUTES WERE APPROVED BY A ROLL CALL VOTE.

3. **Review, Discussion and MPO Endorsement of the PVMPO Annual Title VI Report and Language Access Plan Currently out for the Required 21-Day Public Review and Comment Period**

PVPC Senior Transportation Planner Jeffrey McCollough stated that the PVMPO Annual Title VI Report and Language Access Plan were out for public review and no written comments were received. He stated that the MPO is being asked to endorse the update to our Title VI program. He also noted that the PVMPO complies with all federal and Massachusetts civil rights and executive orders as defined by MassDOT in their guidance. Mr. McCollough stated that this information has been uploaded to the MPO’s new website: [http://PVMPO.PVPC.org/civil-rights-title-vi/](http://PVMPO.PVPC.org/civil-rights-title-vi/)

Mr. Woelfel called for a motion to endorse the update to the Title VI Report and Language Access Plan.

MOVED BY WALTER GUNN, SECONDED BY RICK SULLIVAN, TO ENDORSE THE UPDATE TO THE PVMPO ANNUAL TITLE VI REPORT AND LANGUAGE ACCESS PLAN.

Mr. Roscoe noted that Roger Fuller and Mayor Joshua Garcia had now joined the meeting. Mr. Roscoe then took roll call and each MPO member in attendance responded affirmatively.

THERE BEING NO FURTHER COMMENTS OR QUESTIONS, THE MOTION WAS APPROVED.

4. **Review, Discussion and MPO Endorsement of the Proposed Amendment to the FFY 2023 Transportation Improvement Program (TIP) Currently Out for the Required 21-day Public Review and Comment Period**

PVPC Senior Transportation Planner Andrew McCaul noted that the MPO released several TIP amendments for public review and comment, and he stated that as of today no comments have been received. He then reviewed the transit and highway amendments which he also shared on the screen. Mr. McCaul stated that the MPO is being asked to endorse the TIP amendments.

Mr. Woelfel called for a motion to endorse the proposed amendments to the FFY2023 Transportation Improvement Program (TIP).

MOVED BY WALTER GUNN, SECONDED BY MARK GOLD, TO ENDORSE THE PROPOSED AMENDMENTS TO THE FFY 2023 TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

Mr. Roscoe took roll call and each MPO member in attendance responded affirmatively.

THERE BEING NO FURTHER COMMENTS OR QUESTIONS, THE MOTION WAS APPROVED.

5. **PVMPO FFY 2024-2028 Regional Performance Measures**

PVPC Principal Planner Gary Roux shared the 2023 Safety Performance Measures and he noted they are adopted annually. He stated that the Pavement and Bridge Performance Measures will be brought before the MPO at their February meeting. Mr. Roux explained that we have a history of adopting the state’s targets as the regional targets given that this puts less pressure on the region in terms of reporting. He then discussed the five annual safety targets that are required by state DOTs and MPOs. He reviewed the Total Fatalities – 5 Year Averages as well as the Fatality and Fatality Rate Targets. He also talked about the Total Fatalities in the PVPC Region which he noted increased in 2021 and 2022. Mr. Roux next reviewed a graph on the Total Serious Injuries - 5 Year Averages as well as a graph on PVPC Serious Injury Crashes which reflects an increase in 2021 and 2022. Mr. Roux talked about the
Mr. Woelfel stated that the measures are setting targets for the Springfield UZA. Mr. Krevat then talked about Congestion measures they are required to report on. Targets for non-motorized fatalities and serious injuries in Massachusetts and in the PVPC region. Finally, Mr. Roux shared a slide summarizing the five state safety performance measures targets that the MPO is being asked to adopt. Mr. Roux noted that there will be presentations today on PM2 and PM3 but they will be voted on at the February MPO meeting. Mr. Gunn stated that he didn’t see a 5-year trend for 2018 to 2022. Mr. Roux explained that the state sets their target ahead of ours, so we did not have complete data for that year.

Mr. Woelfel called for a motion to adopt the 2023 regional safety performance measures targets.

MOVED BY WALTER GUNN, SECONDED BY RICK SULLIVAN, TO ADOPT THE 2023 REGIONAL SAFETY PERFORMANCE MEASURES TARGETS

Mr. Gunn asked if these measures punish us or if they help us get assistance to solve problems when they are identified. Derek Krevat, MassDOT Office of Transportation Planning, noted there is a provision in the new Bipartisan Infrastructure Law that forbids states from setting targets that are higher than the trends showing. If a state sets targets that they do not meet, they are required to utilize all the HSIP funds. He stated that their Traffic Safety Section has released an updated Strategic Highway Safety Plan and he offered to put a link in the Zoom Chat.

Mr. Roscoe took roll call and each MPO member in attendance responded affirmatively.

THERE BEING NO FURTHER COMMENTS OR QUESTIONS, THE MOTION WAS APPROVED.

Update on the PM2 Pavement and Bridge Targets

Jack Moran, Highway Division, provided a presentation on the Bridge and Pavement Measures. He shared a slide entitled Retrospective: First Performance Period which provides a look at targets and actuals for the bridge and pavement measures. He noted that they had an issue with the uploading of pavement condition data for 2021 and they are working through that with Federal Highway. He did not think the balance of the data would have a pronounced effect on the results. Mr. Moran next discussed the Regional Distribution of Interstates, Massachusetts Interstate Pavement – Distribution by Region. He also talked about the Regional Distribution of Non-Interstate NHS; Massachusetts Non-Interstate NHS Pavement – Distribution by Region and Owner. He noted that Non-Interstate NHS roadways are 38% municipality owned and 62% state owned. On the bridge side, he pointed out that there is a much smaller number of NHS bridges owned by the municipalities. Mr. Moran then reviewed a slide entitled Pioneer Valley NHS Pavement and he talked about the Pavement Targets – Interstate. He also discussed several other slides including Pavement Targets – Non Interstate NHS; Regional Distribution of NHS Bridges Massachusetts NHS Bridges – Distribution by Region and Owner; and Pioneer Valley NHS Bridges – conditions. Finally, Mr. Moran talked about the NHS Bridge Targets.

Update on the PM3 System Performance Targets

Derek Krevat provided a presentation entitled System Performance Measures – Congestion, Reliability, and Emissions. He first talked about the required performance measures under PM3. He explained the Level of Travel Time Reliability (LOTTR) and he talked about how it is calculated. He provided a graph on the Interstate Travel Time Reliability which indicates targets for 2022, 2024 and 2026 he noted that the goal is to improve reliability. Mr. Krevat then shared a graph on Non-Interstate Travel Time Reliability which also indicates targets for 2022, 2024 and 2026. He pointed out that data is showing that there will likely be some improvement in reliability statewide on the non-interstate system. He then talked about Truck Travel Time Reliability. He also provided a graph which indicates targets for 2022, 2024 and 2026. The next slide referred to Peak Hour Excessive Delay (PHED) which is one of the Congestion measures they are required to report on. Mr. Krevat also provided information on the PHED for Springfield Urbanized Area (UZA) as well as the targets for 2024 and 2026. He noted that this is the first time they are setting targets for the Springfield UZA. Mr. Krevat then talked about the Percentage of Non-Single Occupancy Vehicle (SOV) Travel, and he shared a percentage table for Springfield. He noted that the goal is to reduce single occupancy travel. Finally, Mr. Krevat talked about Emissions Reduction. In closing he shared a chart summarizing the measures and targets.

Mr. Woelfel stated that these measures will be taken up for a vote at next month’s MPO meeting and if anyone has
any questions, they should reach out to Mr. Moran or Mr. Krevat.

6. FFY 2023 Transit Amendment (five 5310/Community Transit Grant Awards)

Mr. McCaul noted that this item was not on the original agenda that was sent out. He explained that another round of grant money has been recently awarded to several entities including PVTA, Springfield Partners for Community Action, the Town of Ware and Town of Palmer, and unfortunately there was no time to align this with the last amendment. Mr. McCaul stated that the MPO is being asked to release the proposed changes for public review and to make it known that we are looking to add these funding sources to the Transit TIP. He stated that hopefully in February based on the comments received, the MPO will endorse the TIP.

Mr. Woelfel called for a motion to release the proposed amendment to the Transit TIP for public review.

MOVED BY RICK SULLIVAN, SECONDED BY WALTER GUNN, TO RELEASE THE PROPOSED AMENDMENT TO THE FFY 2023 TRANSIT TIP FOR THE REQUIRED 21-DAY PUBLIC REVIEW PERIOD.

Mr. Roscoe took roll call and each MPO member in attendance responded affirmatively.

THERE BEING NO FURTHER COMMENTS OR QUESTIONS, THE MOTION WAS APPROVED.

7. Regional Transportation Plan (RTP) – Development Update

Mr. Roux shared a slide which outlined the Current RTP Vision and the Proposed RTP Vision. He explained that during their focus group outreach, they heard that their vision for the RTP was slightly long therefore he is presenting a suggested update. They are also working on a dedicated RTP webpage, and they will send that link to the MPO. Mr. Roux then reviewed the schedule for the RTP. He expected to be able to release the draft RTP for review and comment in June and to have it endorsed in July.

8. PVMPO Federal Certification Review: Update

Mr. Roux reminded everyone that the certification of the MPO process will take place on February 1st. He noted that there will also be a public information session and comment period after the MPO meeting on February 28th. A public notice will be put out and sent to MPO membership that will detail ways to contact the federal team and there will be an agenda for the February 1st meeting.

9. PVMPO FFY 2024-2028 TIP Development

Mr. McCaul shared the 2024-2028 Draft Project Universe. He noted that the JTC was asked to review this list to make sure that no municipal projects are missing, and the state has been asked to look at it as well regarding the accuracy of state projects. He referred to the columns for Design, TEC Score, TEC Rank, and Cost Estimate and he stated that these are the areas they are looking to update in February. He reported that TEC forms were sent out to the appropriate entities along with a letter to Chief Elected Officials with copies to PVPC Commissioners and JTC representatives asking that this information be updated prior to the February JTC meeting. He noted that the Project Universe includes 49 projects totaling $350 million. Based on the 2023-2027 TIP there are currently 26 projects programmed at a cost of just under $218 million. Mr. McCaul then briefly reviewed the TIP Development Schedule.

10. Updates from MassDOT District One and District Two Officials on Relevant Transportation Issues and Projects of Interest to the Pioneer Valley MPO Members

Daryl Amaral, MassDOT District Two, provided the following updates:

- **Project 606895** – Granby improvements at 2 locations on Route 202, School Street and Five Corners; design is at 100%; review comments were completed October 3rd; PS&E is due May 17th; current ad date is September 9, 2023
- **Project 608073** – Westfield River Levee multi-use path construction; design is at 100%; PS&E review completed on January 18th; current ad date is September 9, 2023
- **Project 604209** - Holyoke, West Springfield rehab of Route 5 – design at 100%; 100% submission including water
main review completed on December 19th; PS&E is due April 17, 2023; current ad date is June 10, 2023
- **Project 609517** – Longmeadow Blueberry Hill Elementary School Improvement Project - advertised November 19th; bids opened January 4th and awarded on January 20th
- **Project 608163** – Wales reconstruction improvements on Monson Road from Monson town line to Reed Hill Road; design is at 75%; 100% is due March 17, 2023; current ad date March 2, 2024
- **Project 608717** – Springfield reconstruction of Sumner Avenue at Dickinson and Belmont. Design is at 75%; awaiting environmental permits; 100% design is due September 2, 2023; current ad date is January 6, 2024

Mark Moore, MassDOT District One, provided the following updates:

**2023 project**: The District has received comments on 75% design. They are working on response comments and they will have 100% PS&E submitted in March 2023. The current cost is $4.89 million.

**2024 Projects**:
- **Project 609287** - Phase 2 Worthington Route 143 Reconstruction; CHA is working on the final design to be submitted in May 2023
- **Project 607675** - Replacement of 2 municipal bridges in Williamsburg over the Mill River; working with the town on some utility information and once that is complete, they will be advancing that project to design public hearing.

11. Updates from PVTA Administrator Sandra Sheehan on Relevant Transit-Related Issues and Projects of Interest to the Pioneer Valley MPO Members

PVTA Administrator Sandra Sheehan reported that for the month of December 2022 ridership improved by 33% as compared to December of 2021. The system-wide recovery for the month is at 82% of the pre-pandemic levels. She noted that the Massachusetts RTA implemented the Try Transit program which was funded by Massachusetts legislation for the prepaid fare for the month of December and overall there was a very positive impact from this program. Ms. Sheehan stated that currently PVTA is installing onboard validators on the Northampton area bus system which is part of the pilot program to test the mobile ticketing system. Finally, she stated that PVTA has started the design process for the electrification of the fleet in the Springfield garage on Cottage Street and there will be a kick-off meeting for the expansion of the UMass Transit garage later this week.

12. Other Business

Mr. Woelfel noted that the next virtual MPO meeting is scheduled for Tuesday, February 28, 2023. He also announced that the MassDOT Transportation Innovation Conference will take place at the DCU Center on May 2 and 3, 2023 and registration should be open within the next week or two.

There being no other business to conduct, Mr. Woelfel called for a motion to adjourn.

MOVED BY RICK SULLIVAN, SECONDED BY WALTER GUNN, TO ADJOURN THE JANUARY 24, 2023 MEETING OF THE PIONEER VALLEY MPO. THE MEETING WAS ADJOURNED AT 11:16 A.M. WITHOUT OBJECTION.

Respectfully submitted,

Lynn Shell, Senior Administrative Assistant, Pioneer Valley Planning Commission

---

**List of Documents Distributed at the January 24, 2023 MPO Meeting**

1. MPO Agenda: January 24, 2023
2. December 20, 2022 MPO Meeting Minutes
